

## 18\_09 Feature Definitions DGNLIB

Creating a DGNLIB is the first step to creating a Unit's workspace. The following diagram shows what is commonly found in a feature definition DGNLIB:

This is how the **Roadway Feature Definitions.dgnlib** is configured in the CONNECT workspace.

- Roadway Feature Definitions.dgnlib (Default)
  - Feature Definitions
  - Feature Symbologies
  - Annotation Groups
  - Annotation Definitions
  - Civil Cells
  - Design Standards
  - Terrain Filters
  - Utility Filters
