

2_11 EXPRESSWAY GUTTER AND CONCRETE BARRIER

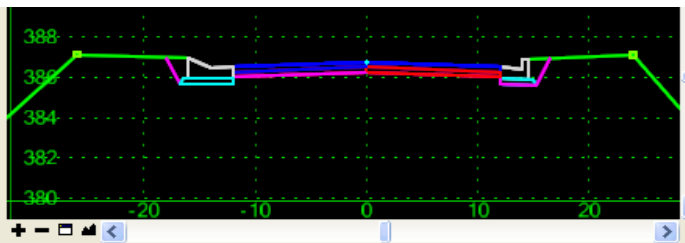

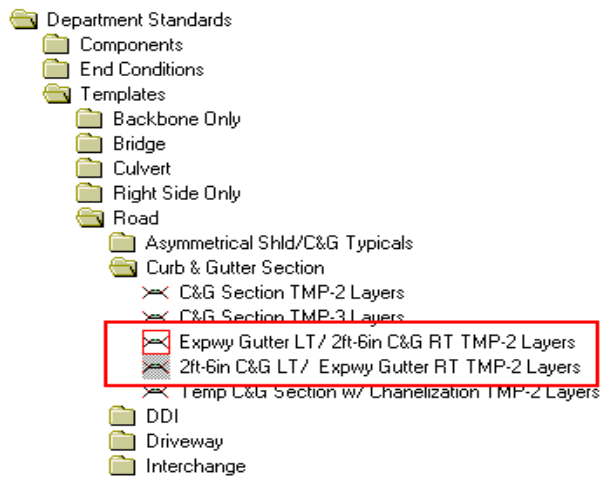

Question:

1. Can a template be created to have an expressway gutter on the left and a 2'-6" curb and gutter on the right?
2. Division 14 has a shoulder typical section on the left and an expressway gutter with a concrete barrier on the right. Can this template be created in the standard library?

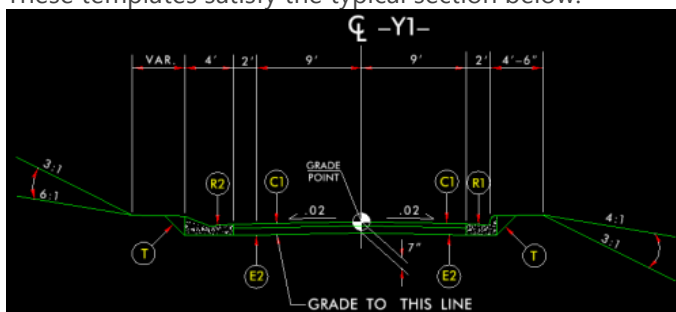

Answer:

1. Two new curb and gutter templates have been created.

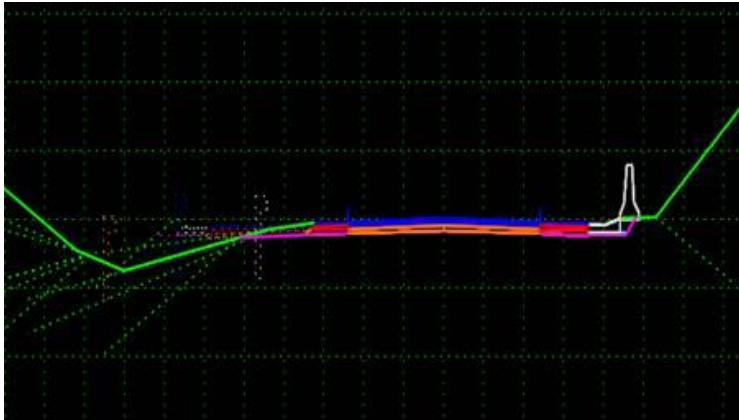

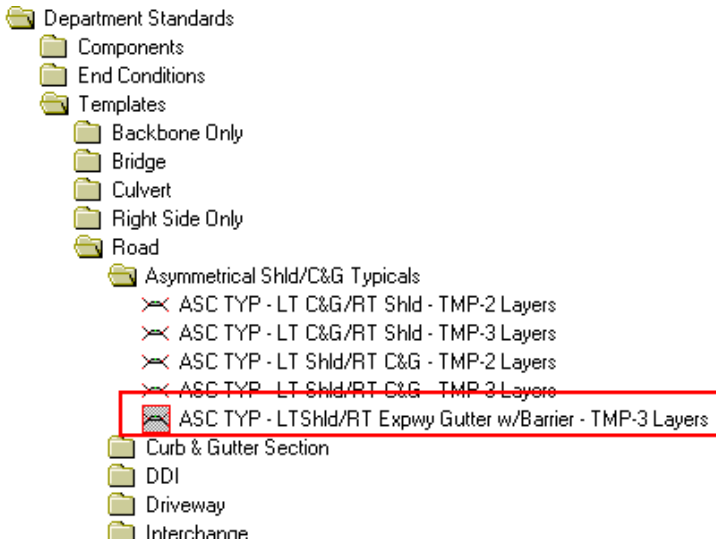

- **Expwy Gutter LT/ 2ft-6in C&G RT TMP-2 Layers**
- **2ft-6in C&G LT/ Expwy Gutter RT TMP-2 Layers**

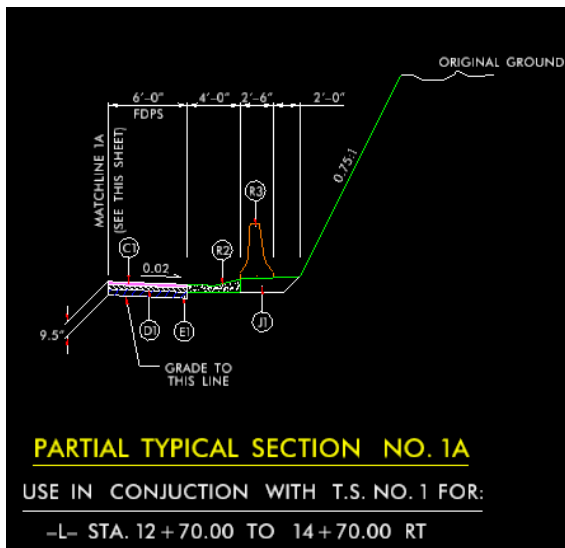

These templates satisfy the typical section below.

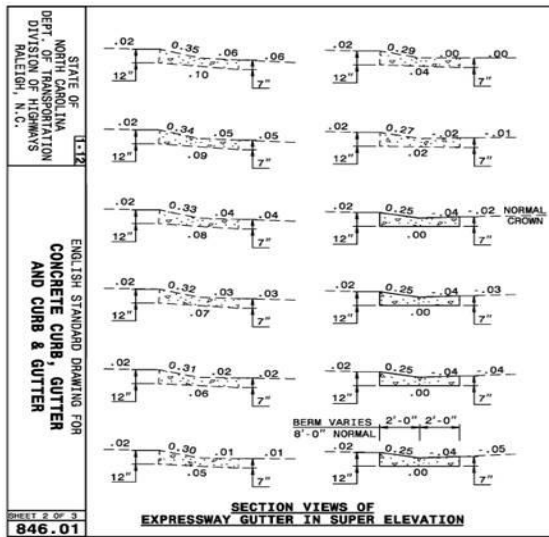

2. Template **ASC TYP – LT Shld/RT Expwy Gutter w/Barrier - TMP-3 Layers** has been created.

This template satisfies the typical section below.

The expressway gutter component slopes in accordance with the 2012 Roadway Standard Drawings 846.01 (Sheet 2 of 3).

The dimension of the concrete barrier is based on the 2012 Roadway Standard Drawings "Double Faced Concrete Barrier Type-T", 854.02 (Sheet 1 of 4).
