

14_07 Curbing Shelf Width for Earth or Asphalt Base Course

Question:

How can I change the shelf width behind curb and gutters depending on my pavement design?

Answer:

Roadway Design Manual, Part I, 1-3E, F-1 (E-4)

To change the default 1' shelf width (W) behind curb and gutters, override the "CC01 CURB BASE SHELF" variable with desired value according to your pavement design. For example:

DEFINE "CC01 CURB BASE SHELF" 0.5
