

## 2\_5 WIDENING ONLY TEMPLATE

### Question:

Can a template for just widening (no resurfacing) on both sides of the road for an undivided section be made?

### Answer:

Template "UF\_Shld – V07" has been created for your use.

Note the new layout of the template library. Within the next few weeks all of the templates will be re-categorized and documented in new format. Starting with the Undivided Facility Shoulder Templates, each folder will contain a "Basic" and a "Typical" template. Listed under them are the different variations of the typical template. As we add more templates, please reference the Template Library Page (link below) for a brief description of the each variation and their usage.

#### Shoulder Section

##### Undivided Facility

- [UF\\_Shld - Basic](#)
- [UF\\_Shld - Typical](#)
- [UF\\_Shld - V01](#) - 1 Pavement Layer
- [UF\\_Shld - V02](#) - 2 Pavement Layers
- [UF\\_Shld - V03](#) - 4 Pavement Layers
- [UF\\_Shld - V04](#) - 1 Pavement Layer without Guardrail Warrant
- [UF\\_Shld - V05](#) - 2 Pavement Layer without Guardrail Warrant
- [UF\\_Shld - V06](#) - 3 Pavement Layer without Guardrail Warrant
- [UF\\_Shld - V07](#) - 3 Pavement Layers Widening Only (No Wedging)
- [UF\\_Shld - V08](#) - 3 Pavement Layers with Arterial and Freeway Design Stanard Side Slopes
- [UF\\_Shld - V09](#) - 4 Pavement Layers with Arterial and Freeway Design Stanard Side Slopes

##### Wedge

- [Wedge Only TMP-1](#)

Each template also contains a link to the web help on how to use it.
