SUBJECT: Interstate Controlling Criteria Tool

The Roadway Design Unit, in conjunction with the NC Division of Federal Highway Administration, has developed a tool which will streamline the process of identifying the interstate controlling criteria values and potential design exceptions on interstate facilities in the state. The tool will assist in meeting the requirements of the Stewardship and Oversight agreement between NCDOT and FHWA and can be found on the Roadway Design website using the link below:

[Link to Interstate Controlling Criteria Tool](#)

If there are any questions or concerns, please contact Jordan A. Woodard, PE, Deputy State Roadway Design Engineer at (919) 707-6208 or me at (919) 707-6342.
