SECRETARY

August 13, 2009

MEMORANDUM TO: Jay A Bennett, PE
State Roadway Design Engineer

FROM: Njoroge Wainaina, PE
State Geotechnical Engineer

SUBJECT: Report on Availability of Roadway Subsurface Inventory Plans

Geotechnical Engineering Unit has been producing a semi-annual report that shows availability of roadway subsurface plans for letting. Some engineers in Roadway Design Unit and Plan Checking Group have been using the report to determine if the plan exists or not. Recently, we have found out that in some cases the report has errors. Therefore, we have decided to stop providing the report and in future Roadway Design should assume that we have subsurface plans. They should confirm with our production support group on a project specific basis.

If you have any questions, please contact Dennis Li or Gordon Box.
