

Procedure for Sending a Hearing Map Plot

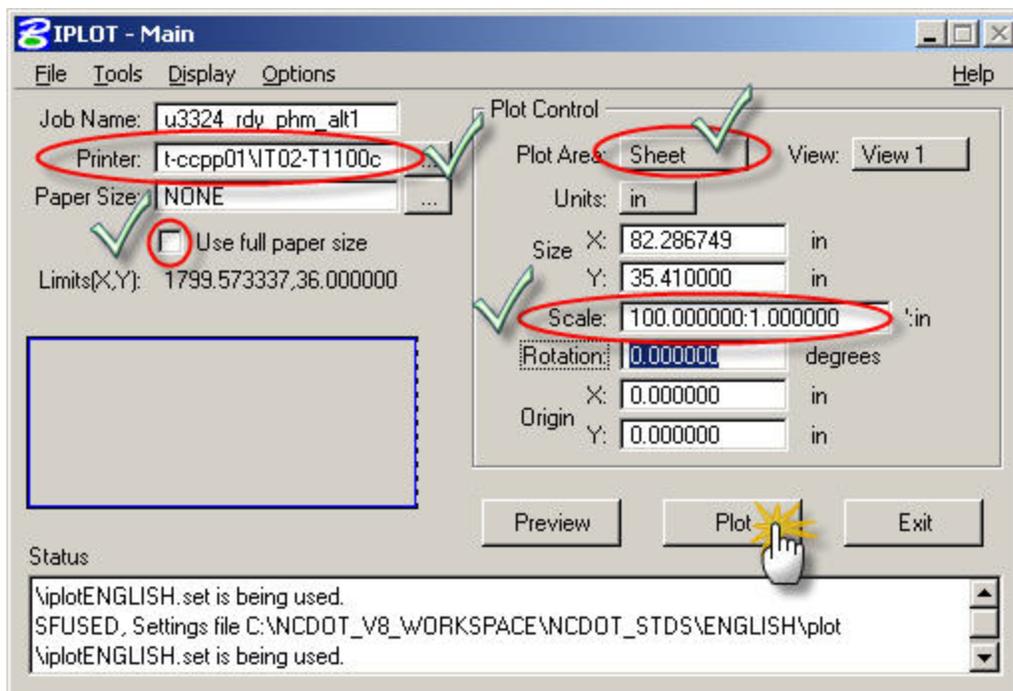

Important Information a User should Know before sending a Hearing map Plot

1. The instructions outlined here are for users that used the Define Sheet Layout toolbox in Chapter 10 of the Hearing Map procedure manual to create there sheets.
2. You must run the **Configure My iPlot.bat** found under **S:\Share\rd_InternalApplication\iPlot Configuration** when you send your intial Plot
3. Notify the Plot Room if sending multiple final plots of the same Model. The phone number to the Plot Room is **919-212-5578** ask for **Stephanie** or **David**.
4. Do not send multiple test plots. That is what Hearing Map Preview was created for. See the Hearing Map Manual Chapter 21 for more details.
5. If your maps are not coming out correctly notify us by request form only after you contacted your Cadd User Rep and verified you followed the procedure outlined here as well as in the Hearing Map procedure manual.
- 6.

Step 2. Navigate to the Appropriate Model

Step 3. Prepare Iplot settings to send the Plot
Step 3a. Set the correct Printer
Step 3b. Verify the Use Full Size Paper setting is unchecked
Step 3c. Note to see Plot Area is set to "SHEET"
Step 3d. Verify your Scale is correct
Step 3e. Send your plot

Note:
Use this printer for a quick Hearing Map Plot
