John C Smith

 RESIDENT ENGINEER

BY **I. M. Goode**

 TECHNICIAN

INSTRUCTIONS: This report must be completed each day any material is received on the project. All material shall be completely identified and the quantity reported must be accurate. Test reports on pre-tested material will be furnished only upon receipt of a material received report. Each test report furnished will carry the material received report number for proper identification. All materials received must be reported except the following: (1) A.B.C. , (2) Ready-Mixed concrete, (3) Materials used in Ready-Mixed concrete, (4) Asphalt Concrete mixtures.

DISTRIBUTION: Original for Resident Engineer's file, one copy to the Materials and Tests Unit, and one copy to Division Engineer.
