Dear Mr. Contractor:

This is to acknowledge receipt of your letter dated November 13, 2020, in which you transmit your cost records for the week ending November 4, 2020 for the associated intent to file claim, Intent ID #14. This intent to file claim is for additional costs to repair or replace damaged curb throughout the project.

Please keep in mind that this acknowledgement of receipt does not imply that the Department agrees this is a valid claim.

Additionally, the cost records received were for the week prior to receipt of your written notice of intent to file claim letter dated November 6, 2020. According to Article 104-8(B), of the 2018 Standard Specifications, the failure on the part of the Contractor to perform any of the following shall be a bar to recovery under the provisions of Articles 104-3 or 104-7: "The failure to notify the Engineer in writing prior to performing the work in dispute that he intends to file a claim." Inasmuch as the work performed during the week ending November 4, 2020 was performed prior to the notification of your intent to file a claim, these records will not be considered if you choose to pursue a claim for the work in dispute.

However, please be advised that future cost records for this work that are submitted in accordance with the time frames established in Article 104-8 will be considered.

Please advise if you have any questions or require additional information regarding this subject.
