The 2024 Structure Inspector Training will cover bridge rehab topics, including Substructure Repair, Epoxy Injection, Steel and Concrete Girder Repair, Bridge Jacking, Polymer Deck Overlays, Hydrodemolition, and Latex Modified Concrete Overlays. The training is one day from 8:30 – 4:30 and will be held according to the schedule on the left. Each participant must register at the link or QR Code to the right. Supervisors or admin staff may register for attendees. Please coordinate with the assigned Resident Engineer to ensure project coverage. Once a location reaches capacity, participants must select a different location and/or date. CEI and NCDOT Inspectors, ARE's, RE's, and BME's are invited to attend. For questions, email: aeawood@ncdot.gov
