Castle Hayne, NC 28429

10 Raleigh

The Forum
8521 Six Forks Rd – Unit 400
Raleigh, NC 27615

The 2026 Structure Inspector Training will cover Retaining Wall inspection. The training is intended for structure inspectors or roadway inspectors that will be inspecting retaining walls and/or shoring. The training is one day and will be held according to the schedule on the left. Start times are site specific and will be shared with all who register. We ask that RE's distribute NCDOT and CEI staff equally over the available days. In accordance with the CEI Guidelines, the CEI technician's time is not reimbursable; therefore, CEI Managers should be consulted prior to the RE registering the CEI employees for this training. Register at the link or QR Code to the right. Once a location reaches capacity, participants must select a different location and/or date. If necessary, additional dates may be added. For questions, email: aearwood@ncdot.gov
