

Application Modifications and Enhancements

HiCAMS & DOH Vendor Version 8.6.6 were released Friday, 10/22/2021.

OVERVIEW OF THE RELEASE

- Application enhancements in various modules related to Contract Details, CBOM Standard Report, Density, Estimates, Plastic Pipe FIR and Security
- Data fixes for production issues in various modules

HiCAMS -

CONTRACT MAINTENANCE - Review Contract Details

- You will now be able to reference at what point in the contract a Budget Review has taken place. Budget Reviewed at indicators: 25%, 50%, 75% and 90% have been added to the Contract Details General tab. (Review Estimate Budget Reviewed indicator checked at a Percent Complete range determines which Contract Details indicator is checked):
 - 25% - 49.99% Percent Complete then 25% Budget Reviewed At
 - 50% - 74.99% Percent Complete then 50% Budget Reviewed At
 - 75% - 89.99% Percent Complete then 75% Budget Reviewed At
 - 90% and above Percent Complete then 90% Budget Reviewed At

CONTRACT ESTIMATES - Review Estimates

- The new Budget Review Indicator has been added to the Review Estimates – General tab. (Budget Reviewed at indicators on Contract Details General tab value will be displayed in the correct % budget indicators on based on the Complete Percent.)
- Various levels of security logic have been built in based on the status at which the Budget Review are conducted.
- If the contract is Accepted and the Estimate is Paid, the Budget Review checkbox is disabled no matter the access the user has.
- If the user has RE update access and the estimate is at the RE level, the checkbox is enabled.
- If the user has DE update access and the estimate is at the DE level, the checkbox is enabled.
- If the user has CCU update access and the estimate is at the CCU level, the checkbox is enabled.

SQA 22697

CONTRACT ADJUSTMENTS - Review Claims

- The new Budget Review Indicator has been added to the Review Claims – Claim tab. The indicator can be checked and unchecked if status = **In Process**. Indicator is no longer to be changed once status = Processed. [SQA 22697](#)

CONTRACT ADJUSTMENTS - Review Other Line Items

- The new Budget Review Indicator has been added to the Review Other Line Items – General tab. The indicator can be checked and unchecked if status = **Pending Approval**. Indicator is no longer to be changed once status = Approved. [SQA 22697](#)

CONTRACT ADJUSTMENTS - Review Supplemental Agreements

- The new Budget Review Indicator has been added to the Review Supplemental Agreements – General tab. The indicator can be checked and unchecked if status = **New**. Indicator is no longer to be changed once status = Process Approval. [SQA 22697](#)

DENSITY - Review Density Other Gauge

- You are now required to add a Comment when the Test Section Lengths are out of compliance in the Density, Other Gauge module. [SQA 22293](#)

FIELD INSPECTION REPORTS (FIR) - Review Field Inspection Reports

- PLASTIC PIPE: Added the final functionalities to the Plastic Pipe Field Inspection Report module from version 8.6.5.
 - Show Inspector warning before they overwrite scanned pieces in Scan pop-up (not yet copied to Alt ID). Display warning message: “Barcodes in Scan window are not yet on Alt ID and will be replaced with new set of barcodes.”
 - Provide a method to display the duplicate pieces so Inspector is aware of these. Duplicates will NOT be saved on Alt ID.
 - Add a Sort feature in the Scan pop-up so Inspector can order pieces in order of barcode #, easier to compare against the pre-inspection report.
 - Exclude duplicates from limit count. [SQA 22721](#)

QUERY TOOL – Claims, Contracts, Contract Adjustments and Estimates

- New Budget Review Indicators have been added to each query tool.
- Budget Review Indicator is always included on Contract Adjustments if results show on the Supplemental Agreement or Other Line Items window. [SQA 22697](#)

STANDARD REPORTS

CONTRACT BOM REPORT: A new check box has been added to the CBOM Report Standard Report - **Show Only Paid Line Items**. This is an additional filter to show those contract line items that have been paid on an estimate. If this new filter is selected, along with the existing Show Only Non-Labor Line Items with no Materials filter, this will be beneficial in assisting the REs offices with CBOM discrepancies during their monthly and annual audits. [SQA 22534](#)

ADMIN - Security

- ISO policy requires Security Czars in Hicams to change their passwords every 60 days instead of every 90 days. At the 15th day countdown Security Czars will get a notification each time you log into Hicams until the 3rd day prior to expiration at which time you will be forced to change your password.
- Rule still remains that you will not be allowed to use the same password within an 18-month timeframe. [SQA 22708](#)
