

Application Modifications and Enhancements

HiCAMS and DOH Vendor Versions 8.3.3 were released Friday, September 20, 2013.

OVERVIEW OF THE RELEASE

- Changed the way the Approval Amount is calculated to reflect the total impact of the contract change to the contract. The new approval amount will be calculated by summing the absolute value of ALL the line items included in the Supplemental Agreement. This Approval Amount is shown on the Approval tab of the Supplemental Agreement. Approval Limits have not changed. Pending Supplemental Agreements will recalculate when the SA is opened the first time after the release. (SQA 18382)
- Added a Notification to be sent when the "Procedures and Controls" check box in the Review FHWA 1446B window is checked and Saved. (SQA 21157)
- Added a Vegetation ICT indicator to Contract Details to mark Contracts containing the SP01G016 special provision for Permanent Vegetation Establishment. (SQA 21173)

CONTRACT MAINTENANCE - Authorize Contracts

- Added a Vegetation ICT indicator to mark contracts containing the SP01G016 special provision for Permanent Vegetation Establishment. (SQA 21173)

CONTRACT MAINTENANCE - Review Contract Details

- Physical Division is now editable by users with the proper security. (SQA 21116)
- Removed an error message advising that "The Data window does not have UPDATE capability" when it actually did. (SQA 21128)
- Added a Vegetation ICT indicator to mark contracts containing the SP01G016 special provision for Permanent Vegetation Establishment. (SQA 21173)

CONTRACT ADJUSTMENTS - Review Supplemental Agreements

- Changed the way the Approval Amount is calculated to reflect the total impact of the contract change to the contract. The new approval amount will be calculated by summing the absolute value of ALL the line items included in the Supplemental Agreement. This Approval Amount is shown on the Approval tab of the Supplemental Agreement. Approval Limits have not changed. Pending Supplemental Agreements will recalculate when the SA is opened the first time after the release. (SQA 18382)
- Removed the Controlling Operation Date Fields. (SQA 20964)

- Added Line Item verification on Supplemental Agreement revisions. (SQA 12260)
- Added a check to be sure that if Fuel or AC adjustment is checked as part of the Line Item Verification, the corresponding Base Price is entered. (SQA 12294)
- Moved the Unit Of Measure selection for Generic Line Items from a pop-up window to a drop down list within the inserted Line Item itself. (SQA 12427 & 20984)
- Reconfigured the FHWA Authorized Representative field to use the staff selection window instead of being typed in. (SQA 20982)
- A Save As can now be done after a Supplemental Agreement has been set to FHWA Non-Concurrence. This allows modification of the existing Supplemental Agreement. (SQA 18383)
- Corrected the functioning of the Save As action to carry forward the Approval Amount. (SQA 19114)
- Updated the History tab to eliminate duplicate and extraneous History records from being created. As part of this Update, multiple instances of and unnecessary existing History records have been deleted. (SQA 11316, 14464, & 21174)
- Corrected the Notification sent when a Supplemental Agreement is set to Contractor Non-Concurrence to reflect that status instead of stating that the SA had been denied. (SQA 15629)
- Corrected the error message that appears when an Availability Date is missing for an overall Contract Time with a floating Availability Date. (SQA 18611)

FIELD INSPECTION REPORTS (FIR) - Review Field Inspection Reports

- PRESTRESSED CONCRETE: Made section number a required field (SQA 21104)
- STRUCTURAL STEEL: Made section number a required field (SQA 21104)

INDEPENDENT ASSURANCE - Review IA Correlations

- Updated the Contract Number field to allow entry of two alpha characters. (SQA 21050)

SAMPLING - Enter Sample Details

- Corrected the functioning of the window so that it no longer fails when Minimum Sampling Guide required certifications are grouped incorrectly. (SQA 21139)

PROJECT CERTIFICATION - Review Material Pre-Certification

- Corrected the calculation of Non Compliance Unit Price used to determine the Non Compliance amount. (SQA 21128)

PROJECT CLOSEOUT - Review Contract Archive

- Updated the Contract Number field to recognize a Contract Number that is typed in instead of requiring it to be selected from the Contract Selection window. (SQA 21126)
- Updated the Notification so that it is specific to Box Type. (SQA 21126)

PROJECT CLOSEOUT - Review FHWA 1446B

- Added a Notification to be sent when the "Procedures and Controls" check box is checked and Saved. (SQA 21157)

REFERENCES - Asphalt Mix Designs

- Reduced the number of required fields for saving a new AMD to allow better tracking of the receipt, review and approval of Asphalt Mix Designs and Job Mix Formulas (SQA 21056)

REFERENCES - Concrete Mix Designs

- Removed the Contract Number and Data Assigned fields from the Concrete Mix Design selection window for the Review Mixes and Assign Mixes functions. The date still displays in the Assign Mixes window. (SQA 21137)

TECHNICIAN - Review Technician Certifications

- Updated the functioning of the M&T Assessment Programs tab to allow Saves when the Assessment Technician has a middle initial. (SQA 21088)

PRODUCER/SUPPLIER - Review Producer/Supplier

- Updated the module so that users can now updated the QA Supervisor on the Facility Type window. (SQA 21151)
