Application Modifications and Enhancements

HiCAMS & DOH Vendor Version 8.6.5 were released Friday, 07/16/2021.

OVERVIEW OF THE RELEASE

- Application enhancements in various modules related to Contract Details, Contract Maintenance, Claims, Estimates, Field Inspection Reports, Subcontracts, Query Tools, QAP and Sharepoint application.
- Data fixes for production issues in various modules

HiCAMS -

CONTRACT MAINTENANCE - Review Contract Details

- Changed security so that a Division User does not have access to another Division's contract on The Contract Details window.   Only allowed access to contracts within the Division he is assigned to. - SQA 22686
- Modified the Comment field on the Review Contract Details, M&T Status tab to allow data to be entered through the NotePad feature. Maximum text in Comment field is 255 characters. - SQA 22695
- Changed the Location label to read as Location/Comments on the Contract Details window. Increased the field from 40 to 255 characters. - SQA 22689
- Division contracts will have the following fields displayed on the Project Closeout Tab on Review Contract Details window:
    - Div. File Stored,
    - Div. Pending Destroy,
    - Div. Actual Destroy.
  Construction contracts will only display these fields if it is Division Administrated. This security change will prevent staff in a Division office from updating Construction contracts and staff of Construction contracts cannot update Division contract data. - SQA 22677

CONTRACT MAINTENANCE - Review Subcontracts

- Reverted the changes made to the Original Project Contractors list in version 8.6.4. (Revert the Subcontract feed from HiCAMs to SharePoint Project Contractors list change back to the way it was previously.) - SQA 22701
- Hicams has been setup to send the 2nd Tier Subcontractor information to the new Project Contractor list to Sharepoint on approval. - SQA 22702

CONTRACT ADJUSTMENTS - Review Supplemental Agreements

- Made the Description and Justification fields scrollable on the Supplemental Agreement Detail window, this will allow users to type or paste in large amount of text. Increased the text field to 32,000 characters each. - SQA 22691

CONTRACT ESTIMATES - Review Estimates

- Added "Density Other Gauge" to the Filter by Issue Type drop down list on the Estimate Opened Issue Tab of the Review Estimates window. - SQA 22682

FIELD INSPECTION REPORTS (FIR) - Review Field Inspection Reports
PLASTIC PIPE:

- Widen the material drop down list to display the description when there is only one material in the list to select. - SQA 22641

SAMPLING - Review Test Results

- Fixed the rounding value in Hicams on the Aggregate Test Results. If PI and LL decimal value is greater than or equal to 5 in Hicams the value will be rounded up to match the value in the 'Sieve Table. If PI or LL decimal value is less than 5 in Hicams, QAP will show the value rounded down and same value will be displayed in the Test Results Report. - SQA 22693

PROJECT CERTIFICATION - Review Soils Pre-Certification

- Removed the Waste Quantities fields from window on Soils PreCert Soils General Tab per CCU request. - SQA 22437

QUERY TOOL

- SUBCONTRACT AND 2ND TIER SUBCONTRACT – Added the following new columns to the Subcontract and 2nd Tier Subcontract query tools:
  - 2nd Tier Subcontract
  - Vendor ID,
  - Contractor Vendor ID,
  - Subcontractor Vendor ID. - SQA 22679
