

Application Modifications and Enhancements

HiCAMS & DOH Vendor Version 8.6.003 were released Friday, 06/19/2020.

OVERVIEW OF THE RELEASE

- Application enhancements in various modules related to Contract Details, Density, Material PreCertification, Samples, Standard Reports, SubContracts,
- Data fixes for production issues in various modules

HiCAMS - General

CONTRACT MAINTENANCE - Review Contract Details

- Updated Contract Details window to display all advertised Goals and Contract Goal Requirements. Display all contracts (Federal & State) to reflect DBE goals, Set "STATE FUNDED" in Federal Aid Number column for state contracts, Display and make DBE goals editable if Federal Aid Number has a value, Open all three Advertised Goals & Goals Requirement fields. – [SQA 22525](#)
- Changed label on Contract Details Financial tab from AC Penalty Base Price to LS Par AC Penalty base Price - [SQA 22526](#)

CONTRACT MAINTENANCE - Review Subcontracts

- Corrected Goals Unit Price to be editable when user has access to the Contract and the Subcontract or Second tier subcontract is still pending approval. - [SQA 19389](#)
- Updated Subcontract Goal Amount window to provide a warning message if the Subcontracted quantity exceeds the contracts original quantity. – [SQA 22528](#)

DENSITY - General

- Changed all window labels that had Nuclear as part of its description to Gauge
 - Review Density
 - Density Category
 - Independent Assurance
 - Reports
 - Query Tool – [SQA 22237](#)

SAMPLING - Enter Sample Details

- Changes to the Sample window to allow additional types of Asphalt Samples to be entered, and to alleviate the double entry by DOT in QAP for Asphalt Test Results. For example, users will be able to enter QA Referee or Partial samples (and other types) into HiCAMS, which currently are entered only via QAP. Related SQA 22261 will copy the data to QAP when sample is Authorized. The data will exist in HiCAMS Sample & Test Results AND QAP for reporting. – [SQA 22530](#)
- Transfer/copy the data from HiCAMS Sample & Test Results to QAP (QAQC tables) when sample is Authorized in HiCAMS. QAP Reports will still report on the data. The QAP Asphalt QA Enter and Correct windows no longer accessible,

since HiCAMs Sample and Test Results will be the source of the data. These QAP screens will be disabled after the release. – [SQA 22261](#)

DOH Vendor - General

PRODUCER/SUPPLIER - Review Producer/Supplier

- Removed Auto Save feature on Inspection Results window. You will be required to click the Save button for all information to be Saved in window. – [SQA 22493](#)

QUERY TOOLS

- M&T Contract Material Review - This report identifies contracts that have not completed the material certification process. - [SQA 22180](#)
