SUBJECT: Project R-2217 Chatham-Randolph Counties

Cost Containment

The construction cost on the subject project has increased from \$10,600,000 to \$11,900,000. The project is in the pre-planning stage and the estimate was made using a county map. An estimate summary is attached for your convenience.

Since this project is in the pre-planning phase, I recommend that the Program & Policy Branch be requested to resolve this difference in order to comply with the policy on monitoring project cost and scope.

If we can be of further assistance, please let us know.
