SUBJECT: Cost Verification - Project (TIP No. R-2218)  
Chatham County

The construction cost estimate for the subject project was updated on July 28, 1988. The verified cost is \$16,600,000 as compared with the previously estimated cost of \$15,000,000 (August 4, 1987).

<u>Cost Estimate</u>	<u>TIP</u>	<u>Verified</u>	<u>Difference</u>
Construction	\$15,100,000	\$16,600,000	+ \$1,500,000

By copy of this letter I am requesting the project engineer to update the DSR construction cost.

The difference between the current and previously estimated construction costs is due to adding stabilization and thermo markers.
