4	US 70	From the park-and-ride lot near the intersection of US 70 and NC 24 toward New Bern in Craven County	Regular Deviated Fixed Route	Morehead City Newport County

Notes:

1. After the agreement of the parties involved *in the location of the park and ride lots* , the County and the involved municipalities should work actively on the actual location of the park and ride lots--through lease agreements with entities such as municipal complexes, shopping centers, churches, among others. The involved parties could pursue the designation of the park and ride lots within existing parking spaces of already developed properties.
2. A future intermodal transit station will be considered in the Town of Morehead City to provide bus and train services. Train services are being currently considered by Amtrak.
