Scott Walston, NCDOT Transportation Planning Branch

I. Previously Held Meetings Recap

Mr. Bray mentioned that this was the first of the Harnett County CTP Growth Sub-Committee meetings.

II. Purpose of the Sub-Committee

Mr. Bray stated that this committee would be looking at the growth patterns for Harnett County to include traffic volumes compared to capacities, annual average daily traffic counts, as well as high growth land areas within the county.

III. Volume to Capacity Ratios

Mr. Bray gave the committee an example spreadsheet of the volume to capacity ratio done in Franklin County and explained the spreadsheet to the group. The group proceeded to ask questions to better understand the sheet and agreed that this format would be acceptable for Harnett County as well.

IV. High Growth Areas

Mr. Bray gave the committee the opportunity to locate high-growth areas of the county to better understand what roads may experience an increase in traffic. The group reviewed a countywide map and made notes for the high-growth locations.

V. Closing Notes

There being no further business, the meeting was adjourned and the next meeting was set for March 17.
