#### **I. Previously Held Meetings Recap**

Mr. Bray stated that the additional traffic counts decided upon at the last meeting had been requested.

#### **II. Volume over Capacity Spreadsheet**

Mr. Bray presented the volume over capacity spreadsheet to the committee and gave an explanation on what was included. Mr. Bray stated that there were some cells with errors and some cells where the data was conflicting. The committee then reviewed the cells where these errors and conflicts existed and made decisions on how to best resolve the issues. The group also decided on a few growth rates that were directly affected by BRAC and other growth areas where they could make initial informed decisions. The group came to a consensus on this information. Mr. Bray stated that he would go back and make the changes to the spreadsheet. He also stated he would add the data where there were still ongoing traffic counts.

#### **III. Closing Notes**

There being no further business, the meeting was adjourned.
