

Isothermal Regional Comprehensive Transportation Plan

McDowell County Highway Project List - March 3, 2021

These are the recommendations for the McDowell County CTP, based on the existing CTPs from 2013 (county except Marion) & 2015 (Marion), local & regional bike plans, and committee input. All projects here, except those with STIP numbers, are concepts and their alignment is subject to change. All recommendations undergo a rigorous project development phase, in which there will be multiple opportunities for public involvement/comment.

For the purposes of this map, recommendations are given separate numbers based on whether they are highway or non-highway projects.

Example of a **Highway Project**:

Number	Road	From	To	Description	Schedule	STIP/SPOT	Project Type
1A	US 221	I-40	221/226 SE of Marion	Widen to 4 lanes, divided	Unfunded	R-0204D	Congestion

Example of a **Non-Highway Project**

Number	Road	From	To	Description	MUP Type	Bike Lane	Sidewalk
2	Peavine Trail South Extension	Jacktown Rd/Rutherford Rd	Existing Peavine Trail at Glenwood Ave/Fords Way	Extension of paved rail trail	Rail Trail		

What is a STIP Number or STIP Project?

These are projects that start with 1-2 letters, followed by a dash and four numbers and 1-2 letters if needed. *Ex. R-2233BA or U-1001*

Committed projects will be funded and guaranteed to be built

Non-Committed projects are funded BUT not guaranteed to be built, and will need to be resubmitted for consideration for continued funding

Unfunded Projects are in the STIP, but are neither "Committed" nor "Non-Committed"; these projects will need to be resubmitted for consideration for funding

Not Included Projects are not in the STIP document at all and will need to be resubmitted for consideration for funding

What is a SPOT Number or SPOT Project?

These are projects that start with a letter, followed by 6 numbers, *ex. H101010*

These are projects that have been submitted for potential inclusion in the *next* STIP (2023-2032), which is being developed right now. These projects include all STIP projects labelled "Non-Committed" and "Unfunded" and includes new projects that can be submitted by the RPO and by NCDOT Division 13.
