Summary of Agenda Items:

Welcome

Carter Spradling welcomed everyone and gave a recap summary of the April meeting.

CTP Progress Update

Sangwoo “Marty” Sung (NCDOT TPD)

Previously, Mr. Sung presented the base year highway capacity analysis, highlighting areas with traffic volume exceeding road capacity, and discussed the collection of comments from the steering committee on highway deficiency maps. The team plans to review traffic volume and capacity data and address comments related to the bike and pedestrian network in future discussions.

Identification of Bicycle, Pedestrian, and Multiuse Path Facility Needs

Michael Abuya, Sangwoo “Marty” Sung (NCDOT TPD)

- 1) Mr. Sung and Mr. Abuya led a group discussion about identifying bicycle, pedestrian and multiuse path facilities and connecting those facilities to key service & goods related destinations. The group had a robust discussion about the cost of bicycle and pedestrian projects along with funding challenges and opportunities.
- 2) The steering committee participated in a mapping exercise to identify high priority bicycle and pedestrian corridors in their individual communities, as well as identifying

routes and facilities from the previous plan which are no longer needed or have previously been constructed.

Review of tentative CTP schedule moving forward

Michael Abuya, Sangwoo “Marty” Sung (NCDOT TPD)

Next meeting the following topics will be discussed:

1. Analysis of socioeconomic data
2. Projection of vehicular volumes
3. Alternative analysis and scenario evaluation
