90	SR1438 (Caledonia Road)	LEITH'S CREEK	SD

SD = Structurally Deficient

Structurally deficient means there are elements of the bridge that need to be monitored and/or repaired

FO = Functionally Obsolete

A functionally obsolete bridge is one that was built to standards that are not used today; do not have adequate lane widths, shoulder widths, or vertical clearances to serve current traffic demand or to meet the current geometric standards, or those that may be occasionally flooded.
