

# Statesville CTP Vision/Objectives

Produce a Comprehensive Transportation Plan which can progressively develop to meet future travel demands, promote the quality of life and economic vitality of the City of Statesville. This will be accomplished by providing an accessible, integrated, efficient, safe, and environmentally responsible multi-modal transportation system.

## Objectives:

1. Increasing travel safety.
2. Reducing transportation related environmental impacts such as air, water, land, and noise pollution.
3. Reducing travel and transportation costs.
4. Promoting and enhancing connectivity within Statesville and the surrounding regional and metropolitan areas.
5. Reducing the cost of street improvements to the public through the coordination of subdivision and commercial developments.
6. Enabling local citizens to plan their actions with full knowledge of the public intent.
7. Minimizing disruption and displacement of people and businesses through published long range street improvement plans.
