

This map displays the highway network for the Triangle West TPO, including major thoroughfares and interchanges. The map is color-coded to show different road types and their recommended improvements. Key roads shown include Fayetteville St (SR 1118), Renaissance Pkwy, and various interchanges. The map also includes a legend for road types and their status, a scale bar, a north arrow, and a QR code for more information.

Legend:

- Freeways:**
 - Existing: Solid blue line
 - Needs Improvement: Dashed blue line
 - Recommended: Dotted blue line
- Freeways with Managed Lanes:**
 - Existing: Solid blue line with white dots
 - Needs Improvement: Dashed blue line with white dots
 - Recommended: Dotted blue line with white dots

Notes:

- Note: The Strategic Transportation Investments (STI) law (House Bill 817) establishes design elements that emphasize safety, mobility, complete streets, and accessibility for multiple modes of travel. The "typical" highway cross sections used in this CTP were updated on May 5, 2014 in response to STI law.
- Note: The concepts shown on a CTP are for planning purposes and are subject to change. These concepts will need additional analysis to meet state and federal environmental regulations, to determine final locations and designs, and to be funded for implementation. Local zoning or subdivision ordinances may require the dedication of right of way based on the concepts shown on the CTP and local collector street plans, based on N.C.G.S. § 136-66.2 and § 136-66.10.
