

## Definition of Existing Plus Committed

for use in CTPs, MTPs, and Traffic Forecasting

### RPO Areas

#### Base Year V/C Analysis

(What are Base Year capacity deficiencies?)

#### Future Year V/C Analysis- TIP

(What are Future Year capacity deficiencies?)

#### Future Year V/C Analysis- CTP

(Is the CTP adequate?)

#### Base Year Volume/Capacity using Existing Network

#### Future Volume/Capacity using RPO E+C (Existing + Committed) Network- TIP

*RPO E+C Network = Existing Network + first 4 years of TIP (only Funding for Construction, Utilities or Right of Way)*

#### Future Volume/Capacity using CTP Network

*CTP Network = Existing Network + all CTP Projects*

### MPO Areas

#### Base Year V/C Analysis

(What are Base Year capacity deficiencies?)

#### Future Year V/C Analysis- TIP

(What are Future Year capacity deficiencies?)

#### Future Year V/C Analysis- TIP and MTP

(What are Future Year capacity deficiencies?)

#### Future Year V/C Analysis- CTP

(Is the CTP adequate?)

#### Base Year Volume/Capacity using Existing Network

#### Future Volume/Capacity using MPO E+C Network- TIP

*MPO E+C Network = Existing Network + first 4 years of TIP (only Funding for Construction, Utilities or Right of Way)*

#### Future Volume/Capacity using MPO E+C Network- TIP and MTP

*MPO E+C Network = Existing Network + First 4 years of TIP and all other fiscally constrained MTP Projects*

#### Future Volume/Capacity using CTP Network

*CTP Network = Existing Network + all CTP Projects*
