

SUMMARY SHEET FOR PAVEMENTS

Key Performance Indicators for Pavements*

SHEET NO.	KPI
PKPI-1	Ride Quality
PKPI-2	Pavement Condition Rating
PKPI-3	Narrow Lane Width
PKPI-4	Paved Shoulder Width

*Key Performance Indicators (KPIs) typically cannot be achieved by just one group or through a single activity or the application of a new skill. But they are the result of many operations that roll up to the final outcome known as the KPI.

Glossary

Performance Target - A performance target is a goal or objective for the condition of assets or the road system.
