Subject: SAW-2004-00340 closeout notification

Mr. Harris:

Reference your letter dated October 3, 2016, regarding the UT to Muddy Creek site stream restoration site located in Randolph County, adjacent to the US 311 bypass exit ramp to Cedar Square Road approximately 8 miles southeast off of High Point, in Randolph County, North Carolina. This site is being utilized by the North Carolina Department of Transportation as compensatory mitigation for impacts to jurisdictional waters of the United States authorized by Department of Army (DA) permit Action ID No. SAW-2004-00340 associated with your construction upgrades of US 311, TIP No. R-2606.

By copy of this letter, we concur that you have completed referenced DA permit requirements to monitor the stream mitigation site for channel stability by visual observation on a biannual basis for five years or until success criteria were met. Accordingly, no further monitoring of the site will be required.

Should you have questions, please contact me at telephone (919) 554-4884, Extension 26.
