

ATLAS Quarterly Communication – Q3 2024

Prepared on 10/08/24

Recent ATLAS Workbench Enhancements

- When a Scoping project (Stage 1) has been completed, there is now a link on the Scoping WB to the corresponding Precon WB. With this change, there is no need to upload scoping stage documents into the Precon WB, which was a duplicate effort.

Recently Added GIS Layers

The following layers have been added to ATLAS:

- NCDOT P6 0 Transit Projects
- NCDOT P6 0 Rail Facility and Crossing Projects
- NCDOT P6 0 Rail Corridor Projects
- NCDOT P6 0 Highway Linear Projects
- NCDOT P6 0 Highway Intersection Projects
- NCDOT P6 0 Ferry Projects
- NCDOT P6 0 BikePed Multipoint Projects
- NCDOT P6 0 BikePed Linear Projects
- NCDOT P6 0 Aviation Projects
- HIFLD USACE Civil Works District Boundaries
- NC Alternative Fuel Corridors
- NC DIT Electric Vehicle Justice 40 Communities
- NCDOT Transportation Planning Branch Justice 40 Tracts May 2022
- NC DPR State Trails
- NC DEQ DMS Local Watershed Plans
- NC DEQ DMS Regional Watershed Plans
- NC DEQ LMS Local Watershed Plans
- North Carolina Division of Mitigation Services Property Easements (points)
- NC DEQ Groundwater Assessment Areas
- NCDOT Storm Drainage Pipes
- NCDOT Stormwater Inlets
- NC NPDES Monitoring Coalition Stations
- NC DMS Targeted Resource Areas

Recently Added Templates & Significant Updates

The following templates have been added to ATLAS:

- Federal Lands
- ATLAS Training Template

New ATLAS Reference Materials

- ATLAS usage dashboards

- PowerBI is being used to generate reports and track status of projects and deliverables. If you have questions or want to understand how your team can utilize PowerBI reports to enhance your ATLAS experience please reach out to ATLAS@ncdot.gov.
 - The ATLAS Business team can set up your group with a new dashboard to track any metric available in Workbench.

ATLAS Training Site

- The ATLAS Business Team has been conducting in-person and virtual trainings for teams at their request with more planned in Quarter 4. Please, reach out to ATLAS@ncdot.gov to request and schedule ATLAS training for your group.
- Training modules are online. These are self-guided topical training modules found here: <https://connect.ncdot.gov/resources/Environmental/EAU/Project-Atlas/Pages/default.aspx>

Updates

Upcoming Outreach

The ATLAS Business Team is always continuing to enhance the application to align with all NCDOT tools and templates throughout the project lifecycle. To support that effort the team will be performing outreach to all Disciplines involved in ATLAS currently to help align what is in ATLAS Workbench to their respective PDN sections and user guidance materials. A schedule is in place to reach out to all Disciplines, however, if you would like for the ATLAS team to prioritize your group please reach out to begin that process.

ATLAS Usage Survey Results

The ATLAS Business team performed a survey at the Preconstruction Workshop to gauge familiarity and usage of the ATLAS Workbench. Results to be shared upon next communication.

ATLAS Map Presentation

The ATLAS Map team will be presenting at the ACEC Conference on the capabilities of the new ATLAS Map set to be rolled out shortly!
