

STATE OF NORTH CAROLINA
DEPARTMENT OF TRANSPORTATION

MICHAEL F. EASLEY
GOVERNOR

LYNDO TIPPETT
SECRETARY

June 9, 2004

MEMORANDUM TO: Mr. Calvin Leggett, P.E., Manager
Program Development Branch

ATTENTION: Omar Sulton
Project Management/Scheduling Unit

FROM: Phillip S. Harris, III, P.E. Manager
Office of Natural Environment
Project Development & Environmental Analysis

SUBJECT: Request for State Forces Construction Funds SALT
Mitigation Site, Moore County (R-210WM)

Your assistance is requested to obtain state forces construction funds in the amount of \$30,000 for work at the subject mitigation site. The site needs to be constructed in the summer/fall of 2004, in order to provide compensatory wetland mitigation for unavoidable roadway construction impacts.

Due to permit requirements and NCDOT wetland mitigation needs, it is necessary that this work be completed this year.

The work for this project has been scheduled for late summer/early fall 2004 by state forces. By making use of state forces, detailed plans and provisions will not have to be developed, work can begin immediately, and the effort can be directed by the Department to construct the site in a timely manner. This will enable the Department to save time and money in addition to obtaining a better product.

Please find attached for your review and consent, a state forces construction cost estimate, as well as a P.O. Contract construction estimate. If possible, approval needs to be processed at the next Board of Transportation meeting.

Thank you for your assistance. If you have questions regarding this project, please contact Byron Moore, at 715-1491.

Cc: Byron Moore, PE, Natural Environment Engineer
Richard W. Hancock, PE, Division 8 Maintenance Engineer

C.E. Chuck Dumas , Jr., District Engineer
Kim Lash, P.E., Program Development
David Harris, P.E., Roadside Environmental Unit
Art C. King, Division Environmental Officer
