MEMORANDUM TO: Jim Stanfill, Strategic Planning Supervisor
NC Ecosystems Enhancement Program

FROM: Bruce O. Ellis, CLM, PWS, Assistant Unit Head
NCDOT, Natural Environment Unit 

SUBJECT: Case by Case Mitigation Request, TIP No. B-4077, Lumber
River Basin.

NCDOT Natural Environment Unit requests a transfer of 1.0 acres of non riverine wetland from the Juniper Bay Wetland Mitigation site, CU 03040203, for impacts associated with the bridge replacement, B-4077, in CU 03040206 of the Lumber River Basin.

Please contact me at 919 715-1418 if you have any questions.

Dear Mr. Ellis:

Subject: Transfer of Stream and Wetland Mitigation Credits for Case by
Case Mitigation Negotiations

B-4077, Bridge Replacement Project, Columbus County

The purpose of this letter is to notify you that the Ecosystem Enhancement Program (EEP) has received your request dated January 6, 2008 for nonriparian wetland assets. In response, EEP has transferred the mitigation assets from the Juniper Bay Mitigation site to NCDOT in support of your efforts to negotiate the use of these assets to meet requirements associated with the above referenced project. Based on the information provided in your revised request, EEP has updated the amount of mitigation assets and credits transferred. The following amount of mitigation assets and credits has been transferred to NCDOT:

Project Name	Identification Number	Mitigation Type	Quantity (Feet or Acres)	Credits
Juniper Bay	201	Nonriparian Wetland Restoration	1.0 acre	1.0

Concurrently, the wetland impacts associated with this TIP number will be removed from the NCDOT's Impact Projection Database (mitigation order) and EEP is no longer responsible for generating the mitigation credits to offset the wetland impacts associated with this project.

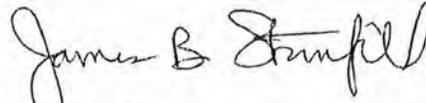

EEP understands that if the NCDOT does not require the full amount of wetland mitigation assets listed above to satisfy the mitigation requirements for this TIP project,

then the unused amount will be transferred back to the EEP for utilization on future mitigation needs within cataloging unit 03040203 in the Lumber River basin per the Memorandum of Agreement between the North Carolina Department of Environment and Natural Resources, the North Carolina Department of Transportation, and the U. S. Army Corps of Engineers. If the NCDOT needs additional stream and/or wetland mitigation credits from the Privateer Mitigation site in order to complete negotiations, an additional request to transfer mitigation credits will be necessary.

If you have any questions or need additional information, please contact Ms. Beth Harmon at 919-715-1929.

Sincerely,

A handwritten signature in black ink that reads "James B. Stanfill". The signature is written in a cursive style with a large initial "J" and "S".

MEMORANDUM TO: Jim Stanfill, Strategic Planning Supervisor
NC Ecosystems Enhancement Program

FROM: Bruce O. Ellis, CLM, PWS, Assistant Unit Head
NCDOT, Natural Environment Unit 

SUBJECT: Request to Transfer Wetland Mitigation Credits to NCDOT
for Case by Case Mitigation Negotiations.

W-4704, US 74 at SR 2210 (Old Kingsdale Road),
Robeson County

The purpose of this letter is to request that the Ecosystem Enhancement Program (EEP) transfer mitigation assets and credits in order for the NCDOT to complete case by case negotiation with the regulatory agencies to satisfy the mitigation requirements associated with the above referenced project. The proposed project is located in the Lumber River Basin, CU 03040206. NCDOT requests that EEP transfer the following acres from the Juniper Bay Wetland Mitigation Site, Lumber River Basin 03040203, to offset project related impacts.

Non Riparian Wetland 1.0 acres restoration

The NCDOT Natural Environment Unit is pursuing "case by case" wetland mitigation options for TIP W-4704 and will propose using mitigation credits generated by the Juniper Bay Mitigation Site in CU 03040203. NCDOT intends to submit to request to the regulatory agencies utilizing a 2:1 mitigation ratio for project related impacts.

Concurrently, non riparian wetland impacts associated with this TIP should be removed from the NCDOT's Impact Projection Database (mitigation order) dated February 2, 2007. The NCDOT acknowledges that EEP is no longer responsible for generating the mitigation assets and credits to offset these wetland impacts associated with this TIP project.

Please contact me at 919 715-1418 if you have any questions.

MEMORANDUM TO: Jim Stanfill, Strategic Planning Supervisor
NC Ecosystems Enhancement Program

FROM:  Bruce O. Ellis, CLM, PWS, Assistant Unit Head
NCDOT, Natural Environment Unit

SUBJECT: Request to Transfer Wetland Mitigation Credits to NCDOT
for Case by Case Mitigation Negotiations.

Case by Case Mitigation Request, Interchange US 74 at NC
211, Columbus County, TIP No. R-0061, WBS 38282.1.1.

The purpose of this letter is to request that the Ecosystem Enhancement Program (EEP) transfer mitigation assets and credits in order for the NCDOT to complete case by case negotiation with the regulatory agencies to satisfy the mitigation requirements associated with the above referenced project. The proposed project is located in the Lumber River basin, CU 03040206. NCDOT requests that EEP transfer the following from the Juniper Bay Mitigation Site, located in Lumber River basin CU 030040203, to offset project related impacts.

Non Riparian Wetland 2.0 acres restoration

The NCDOT Natural Environment Unit is pursuing "case by case" wetland mitigation options for TIP R-0061 and will propose using mitigation credits generated by the Juniper Bay Mitigation Site in CU 030040203.

Concurrently, riparian wetland impacts associated with this TIP should be removed from the NCDOT's Impact Projection Database (mitigation order) dated February 2, 2010. The NCDOT acknowledges that EEP is no longer responsible for generating the mitigation assets and credits to offset these wetland impacts associated with this TIP project.

Please contact me at 919 431-6754 if you have any questions.

Dear Mr. Ellis:

Subject: Transfer of Wetland Mitigation Credits for Case by Case Mitigation Negotiations

R-0061, Interchange US 74 at NC 211, Columbus County, Lumber River Basin (03040206) WBS 38282.1.1

The purpose of this letter is to notify you that the Ecosystem Enhancement Program (EEP) has received your request dated March 15, 2009 for non-riparian wetland assets. In response, EEP has transferred the mitigation assets from the Juniper Bay Mitigation Site to NCDOT in support of your efforts to negotiate the use of these assets to meet requirements associated with the above referenced project. Based on the information provided in your request, EEP has updated the amount of mitigation assets and credits transferred. The following amount of mitigation assets and credits has been transferred to NCDOT:

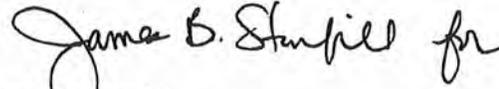

Project Name	Identification Number	Mitigation Type	Quantity (Feet or Acres)	Credits
Juniper Bay	201	Non-riparian Restoration	2.00	2.00

Concurrently, the impacts associated with this TIP number will be removed from the NCDOT's Impact Projection Database (mitigation order) and EEP is no longer responsible for generating the mitigation credits to offset these impacts.

EEP understands that if the NCDOT does not require the full amount of wetland mitigation assets listed above to satisfy the mitigation requirements for this TIP project, then the unused amount will be transferred back to the EEP for utilization on future mitigation needs within cataloging unit 03040203 in the Lumber River Basin per the Memorandum of Agreement between the North Carolina Department of Environment and Natural Resources, the North Carolina Department of Transportation, and the U. S. Army Corps of Engineers.

If the NCDOT needs additional wetland mitigation credits from the Juniper Bay Mitigation site in order to complete negotiations, an additional request to transfer mitigation will be necessary. If you have any questions or need additional information, please contact Ms. Beth Harmon at 919-715-1929.

Sincerely,

James B. Stanfill
Strategic Planning Supervisor
