Subject: Jeffreys Warehouse Mitigation Site, Wayne County, TIP No. R-1030AA.

Dear Mr. Harris:

This correspondence is in reference to your letter dated October 22, 2012, regarding the Jeffreys Warehouse Mitigation site located in Wayne County, North Carolina. This site is being utilized by the North Carolina Department of Transportation as compensatory mitigation for wetland, stream and Neuse Buffer impacts for various projects in the Neuse River Basin.

On January 23, 2012, Rob Ridings of DWQ participated in an inter-agency field visit to review the site and verify that site success criteria had been met, along with modified delineations.

By copy of this letter, we are notifying you that no further monitoring of the site will be required since the construction and success criteria for the mitigation site has been met. This site provided 3.66 acres of riverine wetland restoration, 16.23 acres of nonriverine wetland restoration, 12.36 acres of riverine wetland preservation, 3731 linear feet of stream restoration, and 316507 square feet of Neuse buffer restoration.

Thank you for your time and cooperation. If you have any questions, please contact Rob Ridings at 919-807-6403.

Sincerely,

Charles Wakild,
Director
