Regulatory Division

SUBJECT: Action ID 200321137; TIP No. U-2524 AB & AC

Gregory J. Thorpe, Ph.D.  
Environmental Management Director, PDEA  
N.C. Department of Transportation  
1548 Mail Service Center  
Raleigh, NC 27699-1548

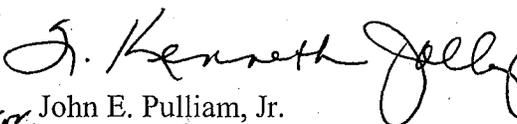

Dear Dr. Thorpe:

Reference the Department of the Army (DA) permit issued on October 30, 2003, to authorize the discharge of dredged and fill material into the waters of United States, for construction of Sections AB and AC of the Greensboro Western Urban Loop (TIP No. U-2524 AB & AC), impacting Long Branch, Reddicks Creek and its unnamed tributaries, unnamed tributaries of Bull Run, South Buffalo Creek, and Hickory Creek, and adjacent wetlands, from I-85 to I-40, on the southwest side of Greensboro, in Guilford County, North Carolina. Reference also your January 12, 2006, letter requesting modification of the permit to extend the completion date for construction and planting of the UT to Bear Creek Mitigation Site as required by Special Condition cc of the issued permit. The agreed upon date for completion of the work is March 15, 2006, however you have requested that the completion date be moved to March 15, 2007. No other changes have been proposed to the project.

We have completed our evaluation of your request and are hereby modifying Special Condition cc of your permit to reflect a new completion date of March 15, 2007 for construction of the mitigation project. All other parts of Special Condition CC remain the same. Furthermore, all other conditions of the permit, including the expiration date, remain applicable.

If you have questions, please contact Todd Tugwell of the Raleigh Regulatory Field Office, at telephone (919) 876-8441, extension 26.

Sincerely,

  
for John E. Pulliam, Jr.  
Colonel, U.S. Army  
District Commander
