"The Grantor hereby expressly saves, reserves and excepts out of the grant hereby made, unto itself, its successors and assigns, forever, all ores and minerals including but not limited to oil, gas, coal, distillates, and condensates, in and under said land. Top soil, sand, fill dirt, ground water, and other commonly occurring substances are expressly excluded. Grantor hereby reserves, for itself and its successors and assigns, all of Grantor's right, title, and interest in and to subsurface oil, gas and other minerals in the above-described parcel of land, and the right to access to such resources: provided, however, that access to or mining or extraction of any such resources shall not be accomplished by any means which would destroy or substantially damage the natural value of the said property and the conservation purposes of this conveyance, to-wit: the protection of a significant relatively natural habitat for fish, wildlife or plants or similar ecosystems. Surface mining will not be permitted. Any other mining or extraction shall be conducted in a manner having only limited, localized impact on the natural values of the said property, and may not be irremediably destructive of significant conservation interests. These restrictions on access to and mining and/or extraction of the minerals reserved hereunder are intended to be enforceable in perpetuity against Grantor, its successors and any other transferees of the reserved mineral rights. Grantee agrees that although drilling for gas and oil and underground mining on the property may have some temporary localized impact, such activities generally will not interfere with the overall conservation purpose of this conveyance so long as conducted consistently with applicable laws and regulations relating to protection of natural values. Weyerhaeuser Company will obtain all applicable permits before mining."

Weyerhaeuser Company, its successors and assigns, are under no obligation to replant the area in trees following the completion of its timbering activities on the property on which the trees and timber are herein reserved. This reservation of trees and timber shall terminate on June 29, 2003, and after said date Weyerhaeuser Company, its successors and assigns, shall have no further right herein.
