

ATLAS Train the Trainer – Training Responsibility Form

Training is required prior to be granted access to the NCDOT ATLAS applications. ATLAS Management understands that it is not feasible for every individual to attend an in-person training and will support the use of the Train the Trainer model.

How to participate in Train the Trainer program for ATLAS?

- A trainer must have attended an in-person ATLAS training in order to be approved as part of the Train the Trainer model.
- A trainer must complete this form and note the individuals (up to 5 per trainer) that they will be responsible for training.
- A trainer must utilize the training materials on the [EAU Connect](#).
- Submit this form to ATLAS@ncdot.gov.

If you need assistance or require more than five individuals per trainer, contact ATLAS@ncdot.gov.
