NCDOT RESOURCE CONSERVATION PROGRAM PROJECT CONSTRUCTION REUSE AND RECYCLING REPORTING FORM

Form last updated: 05-01-14

Instructions:

The intent of this form is to provide a reporting mechanism for Contractors to provide information regarding resource conservation efforts made on NCDOT projects that divert construction waste from landfills. The information from this report will be compiled in the NCDOT Value Management Database for the purposes of reporting the statewide efforts of the NCDOT and its partners in pursuing resource conservation.

- 1. Include all recycling activities for source-separated or mixed material recycling centers.

2. This form maybe submitted at a	any point during the project or as a cumulative total at the project comp	letion.	
	ck" on the SUBMIT button to the right. outer, attach it to an e-mail and send it to: valuemanagementunit@ncd	ot.gov
