

STATE OF NORTH CAROLINA
DEPARTMENT OF TRANSPORTATION

BEVERLY EAVES PERDUE
GOVERNOR

EUGENE A. CONTI, JR.
SECRETARY

MEMORANDUM TO: Standard Provision Holders
FROM: Scott Hidden, P.E.
DATE: January 17, 2012
SUBJECT: Select Granular Material Provision

The following standard provision has been added for the effective let date shown.

Provision Number	Provision Title	Effective Let Date	Summary of Changes
SP02 R008	Select Granular Material	1-17-12	<ul style="list-style-type: none"> Changes materials in Section 265 to only Class III select material

This new standard provision is available from:

<http://www.ncdot.gov/doh/preconstruct/highway/geotech/provnote/2012/>

The Geotechnical Engineering Unit will typically recommend the Select Granular Material provision for coastal plain projects with undercut or embankments not in water but water levels that may rise into select granular material. For projects without this new provision, Section 265 of the 2012 *Standard Specifications* requires Class II or III select material for select granular material except only Class III select material for embankments in water.

If there are any questions about using the Select Granular Material provision, contact Scott Hidden, P.E. at (919) 707-6856 or Eric Williams, P.E. at (919) 707-6876.
