

**KINGS MOUNTAIN**  
— NORTH CAROLINA —

*Living. Elevated.*

April 26, 2022

The Honorable Pete Buttigieg  
United States Department of Transportation  
1200 New Jersey Avenue SE  
Washington, DC 20590  
Dear Secretary Buttigieg:

I would like to express the City of Kings Mountain's strong support for the North Carolina Department of Transportation's (NCDOT's) Multimodal Project Discretionary Grant (MPDG) grant application for the I-85: Funding Transportation Utilizing Resilient, Equitable, Solutions (I-85 FUTURES) project in Gaston and Cleveland Counties. I-85 from Charlotte, NC to Atlanta, GA, which includes I-85 FUTURES, powers the nation's third largest economic region, as well as being a major travel route moving people and goods.

There has been a documented need to improve the I-85 corridor for more than 20 years. Since 1991, when NCDOT first explored the potential construction of another high-speed crossing of the Catawba River, the need to increase the capacity of the I-85 corridor is unquestioned. In addition, the efficient operation and resiliency of the I-85 corridor is crucial to the economy of the United States. This portion of I-85 has frequent delays due to congestion and becomes almost impassible when crashes occur.

Recent roadway construction material increases have complicated financing this project, rendering MPDG assistance even more crucial. In addition, the proposed improvements to bicycle and pedestrian accommodations on interchanges and overpasses will remove barriers to non-motorized vehicle transportation, improving connections, and increasing mobility throughout the area. This is a step toward addressing equity concerns that date back to the construction of this portion of I-85 in 1962. The proposed rail improvements will benefit operation of the Southeast High Speed Rail corridor as well as ensure vital freight operations are not interrupted. The proposed broadband, along I-85 from the South Carolina border to US 74 at Kings Mountain, will expand the work funded under previous INFRA grants awards. NCDOT is investigating the development of electric vehicle (EV) charging stations in this corridor from SC to I-485 that will reduce dependence on fossil fuels. Projects like I-85 FUTURES are the reason the bipartisan Infrastructure Investment and Jobs Act was passed.

The City of Kings Mountain is located on I-85 and this project would provide our citizens who travel to Gaston and Mecklenburg Counties improved access and a safer facility by raising the highway to current design standards. The reduced congestion and increased use of EV and multi-modal options will also improve the air quality in our region.

We request your strong consideration of the I-85 FUTURES application for receipt of MPDG grant funding.

Respectfully,
