Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|---------------|------------------|-------------------------|------------------------|
| Verification | 999,999.00 | M&T Lab | M&T Lab |

Sample Comment: Base metal accepted by certification. Call M&T for metal thickness and galvanized coating thickness checks. Samples are tested and inspected per each shipment. Certified Mill Certification, Type 1, is required prior to approval.

Technician Certifications: (None)

Test Formats

- Field Section Miscellaneous Test - Version 3

Owning Lab: Field Section
IA Type: None

Metric/English Code: Both
Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 04/16/2008

Performed By: rpace

Paint for Structural Steel

General

Group: Steel **Status:** Expired
How Received: Material Receipt **Version:** 3.00
Metric/English: English **From Date:** 01/01/1999 **To Date:** 12/31/2075
Facility Type: Paint Manufacturers
Default Auth Lab: Chemical Lab
Project Certification: Critical
MSG Responsibility: Chemical Lab

Methods of Acceptance

Pretest: N/A
Alt ID Matching: (None)
Sample/Test: Optional
Approved List: N/A
Visual Inspection: N/A
Catalog Cut: N/A
Field Inspection: N/A
Small Quantity: 5 gal.
Other Reports: Independent Lab Test Results is only for inorganic zinc.

| | |
|---|--|
| Certification: Required | |
| Type | Responsibility |
| 1: Certified Mill Test Report | <input checked="" type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |

Metric/English Code: English

IA Type: None

Sample/Test Remarks:

North Carolina Department of Transportation

Minimum Sampling Guide

Precast/Prestressed Concrete Box Culvert, Crown Span 3-Sided

General

Group: Concrete **Status:** Expired
How Received: Material Receipt **Version:** 7.00
Metric/English: Both **From Date:** 03/20/2007 **To Date:** 12/31/2075
Facility Type: Prestressed Concrete
Default Auth Lab: Structural Members - Prestress
Project Certification: Critical
MSG Responsibility: Structural Members

Methods of Acceptance

Pretest: Required
Alt ID Matching: No Match, Alt ID Required
Sample/Test: N/A
Approved List: N/A
Visual Inspection: N/A
Catalog Cut: N/A
Field Inspection: Required **Inspection Type(s):** Prestressed Concrete
Small Quantity:
Other Reports: Must be stamped "NC DOT Approved"; Prepayment Invoice Required

| (None) | <input type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |
| <input checked="" type="checkbox"/> M&T 913 Report (Steel) | |

Testing Requirements

Sample Comment: If there is NO M&T 913 form: Two - 30 inch samples, each size bar, each shipment.
If there is a M&T 913 form: No samples required.
Note: Only the epoxy coating is pretested. The bars still need a 913 Form or need to be tested for strength as above.

Technician Certifications: (None)

Test Formats

- Epoxy Coated Reinforcing Steel Test (Metric) - Version 2

Owning Lab: Physical Lab

IA Type: None

Metric/English Code: Metric

Sample/Test Remarks:

- Steel Alloy - Version 5

Owning Lab: Chemical Lab

IA Type: None

Metric/English Code: Both

Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Minimum Sampling Guide

Reinforcing Steel, Epoxy Coated, Dowel Assembly

General

Group: Steel **Status:** History
How Received: Material Receipt **Version:** 6.00
Metric/English: Both **From Date:** 09/04/2002 **To Date:** 09/04/2002
Facility Type: Rebar Coaters
Default Auth Lab: Physical Lab
Project Certification: Critical
MSG Responsibility: Structural Members

Methods of Acceptance

Pretest: Required
Alt ID Matching: No Match
Sample/Test: N/A
Approved List: N/A
Visual Inspection: N/A
Catalog Cut: N/A
Field Inspection: N/A
Small Quantity: If less than 100 Baskets
Other Reports: Domestic Steel Certification Required
M&T Form 310 required

| | |
|---|--|
| Certification: Required | |
| Type | Responsibility |
| 1: Certified Mill Test Report | <input checked="" type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |
| Other | <input checked="" type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |
| (None) | <input type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |

| Other | <input checked="" type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |
| (None) | <input type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |
| <input checked="" type="checkbox"/> M&T 913 Report (Steel) | |

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|---------------|------------------|-------------------------|------------------------|
| Verification | 9,000.00 | Project Personnel | M&T Lab |

Sample Comment: If there is NO M&T 913 form: Two - 30 inch samples, each size bar, each shipment.
If there is a M&T 913 form: No samples required.
Note: Only the epoxy coating is pretested. The bars still need a 913 Form or need to be tested for strength as above.

Technician Certifications: (None)

Test Formats

- Epoxy Coated Reinforcing Steel Test (Metric) - Version 2

Owning Lab: Physical Lab
IA Type: None

Metric/English Code: Metric
Sample/Test Remarks:

- Steel Alloy - Version 5

Owning Lab: Chemical Lab
IA Type: None

Metric/English Code: Both
Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|---------------|------------------|-------------------------|------------------------|
| Verification | 9,000.00 | Project Personnel | M&T Lab |

Sample Comment: If there is NO M&T 913 form:
 Two - 750 mm samples, each size bar, each shipment.
 If there is a M&T 913 form:
 No samples required.

Technician Certifications: (None)

Test Formats

- Reinforcing Steel Test (Metric) - Version 2

Owning Lab: Physical Lab

IA Type: None

Metric/English Code: Metric

Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 11/15/2006

Performed By: conv

| Verification | 20,000.00 | Project Personnel | M&T Lab |

Sample Comment: If there is NO M&T 913 form:
 Two - 30 inch samples, each size bar.
 If there is a M&T 913 form:
 No samples required.

Technician Certifications: (None)

Test Formats

- Steel Alloy - Version 5

Owning Lab: Chemical Lab
IA Type: None

Metric/English Code: Both
Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 11/15/2006

Performed By: conv

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|---------------|------------------|-------------------------|------------------------|
| Verification | 999,999.00 | Project Personnel | Project Personnel |

Sample Comment: 1 set of cylinders per day of operations, per strength requirements.
Technician Certifications: (None)

Test Formats

- Field Section Miscellaneous Test - Version 3

Owning Lab: Field Section
IA Type: None

Metric/English Code: Both
Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 01/01/1999

Performed By: rpace

Check In Comment: Changed to coincide with new project certification requirements. rkp

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|----------------------------|------------------|-------------------------|------------------------|
| Source Approval/Evaluation | 100,000,000.00 | Project Personnel | M&T Lab |

Sample Comment: Samples required per "Borrow Pit Sampling Manual". Sample size is 5-8 lbs. Sample Frequency is a minimum of 2 borings per acre.
 IA - One comparative test per 50,000 yd3.

Technician Certifications:

| Type | Certification(s) |
|----------------------------|---------------------------------|
| Density Other Conventional | Conventional Density Technician |
| Density Other Nuclear | ABC Nuclear Density Technician |
| Sampling | Borrow Pit Sampling Technician |

M&T 913 Report (Steel)

Inspection Type(s): Density Other Conventional & Nuclear

Small Quantity:

Other Reports: Density Report Required if used for Backfill; ABC Unit Weight Required - Conventional Density M&T 504, Nuclear Density M&T 514N

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|-------------------|------------------|-------------------------|------------------------|
| Quality Control | 2,000.00 | QC Tech | Producer/Supplier |
| Quality Assurance | 6,000.00 | M&T Lab | M&T Lab |
| Roadway Assurance | 2,500.00 | Project Personnel | M&T Lab |

Sample Comment: IA - One comparative test per 50000 yd3.

Technician Certifications:

| Type | Certification(s) |
|----------------------------|--|
| Density Other Conventional | Conventional Density Technician |
| Density Other Nuclear | ABC Nuclear Density Technician |
| Sampling | ABC Sampling Technician OR QC/QA Aggregate Sampling Technician |
| Testing | QC/QA Aggregate Testing Technician |

Test Formats

- Conventional Density Test 3 - Version 1

Owning Lab: Soils Lab

IA Type: None

Metric/English Code: English

Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 08/30/2013

Performed By: rpace

4. Test Report for Structural Steel (Metric) - Version 2

Owning Lab: Physical Lab

Metric/English Code: Metric

IA Type: None

Sample/Test Remarks:

Structural Timber (Board Feet)

General

| | | | |
|-------------------------------|----------------------------|-------------------|------------|
| Group: | Structural | Status: | Expired |
| How Received: | Material Receipt | Version: | 2.00 |
| Metric/English: | English | From Date: | 01/01/1999 |
| Facility Type: | (None) | To Date: | 12/31/2075 |
| Default Auth Lab: | Structural Members - Steel | | |
| Project Certification: | Critical | | |
| MSG Responsibility: | Structural Members | | |

Methods of Acceptance

| | |
|---------------------------|--|
| Pretest: | N/A |
| Alt ID Matching: | (None) |
| Sample/Test: | N/A |
| Approved List: | N/A |
| Visual Inspection: | N/A |
| Catalog Cut: | N/A |
| Field Inspection: | N/A |
| Small Quantity: | <input type="checkbox"/> |
| Other Reports: | Stamped by Contract Inspector and NC DOT Tagged; Prepayment Invoice Required |

| |
|--|
| Certification: Required |
| Type |
| 6: Supplier's Certification |
| (None) |
| (None) |
| <input type="checkbox"/> M&T 913 Report (Steel) |
| Responsibility |
| <input checked="" type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |
| <input type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |
| <input type="radio"/> M&T <input type="radio"/> RE <input type="radio"/> Both |

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|-----------------------------------|------------------|-------------------------|------------------------|
| Verification | 1,000.00 | M&T Lab | M&T Lab |
| Sample Comment: | Pretested | | |
| Technician Certifications: | (None) | | |

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 01/01/1999

Performed By: rpace

Check In Comment: Changed to coincide with new project certification requirements. rkp

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|---------------|------------------|-------------------------|------------------------|
| Acceptance | 100.00 | Project Personnel | M&T Lab |

Sample Comment: 1- 3lb sample in a sealed doubled plastic bag or a 1 gallon sealed plastic container per 100 tons.

Technician Certifications: (None)

Test Formats

- Cement Test - Version 19

Owning Lab: Chemical Lab
IA Type: None

Metric/English Code: Both
Sample/Test Remarks:

- Portland Cement Type I & II - Version 13

Owning Lab: Physical Lab
IA Type: None

Metric/English Code: English
Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 12/08/2007

Performed By: rpace
