M&T 913 Report (Steel)

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|-------------------|------------------|-------------------------|------------------------|
| Acceptance | 2,500.00 | Project Personnel | M&T Lab |
| Density | 1,000.00 | Project Personnel | Project Personnel |
| IA - Comparative | 20,000.00 | M&T Field | M&T Lab |
| Quality Control | 2,000.00 | Producer/Supplier | Producer/Supplier |
| Quality Assurance | 6,000.00 | M&T Field | M&T Lab |

Sample Comment: Acceptance: 1 sample per 2500 Tons or fraction thereof. Small Quantity less than 2500 tons. QA: 1 sample per 6000 Tons
 QC: 1 sample per 2000 Tons IA: 1 sample per 20000 Tons Density: Refer to ABC Density Testing Manual.

Technician Certifications:

| Type | Certification(s) |
|----------------------------|--|
| Density Other Conventional | Conventional Density Technician |
| Density Other Nuclear | ABC Nuclear Density Technician |
| Sampling | ABC Sampling Technician OR QC/QA Aggregate Sampling Technician |
| Testing | QC/QA Aggregate Testing Technician |

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 02/18/2014 **Performed By:** rpace
Check In Comment: Changes to accept small quantity of 2500

Testing Requirements

| Test Category | Sample Frequency | Sampling Responsibility | Testing Responsibility |
|------------------|------------------|-------------------------|------------------------|
| Acceptance | 100.00 | Project Personnel | M&T Lab |
| IA - Comparative | 1,000.00 | M&T Field | M&T Lab |

Sample Comment: One - set of cylinders per each 100 cubic yards placed or fraction thereof.

Technician Certifications:

| Type | Certification(s) |
|----------|--|
| Sampling | Concrete Field Technician (Testing) OR Concrete Batch Technician (Batching) OR Concrete Mix Design Technician (Design) |

Test Formats

- Light Weight Concrete Compression - Version 2

Owning Lab: Physical Lab
IA Type: Concrete

Metric/English Code: English
Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 01/01/1999

4. Vinyl Fence Posts (Metric) - Version 6

Owning Lab: Chemical Lab

IA Type: None

Metric/English Code: Metric

Sample/Test Remarks:

Note: Although Visual Inspection is not the primary method of acceptance, a visual inspection is always required. The material may not be accepted if it fails a visual inspection.

Action Date: 01/03/2000

Performed By: rpace

Check In Comment: Anchor units will be checked for Chemistry on an Optional basis.
