Subject: Letter of Support – North Carolina Department of Transportation FY2024–FY2026
USDOT PROTECT Application- North Carolina Sustainable Solutions for Transforming
flooding prediction to build Resilient infrastructure and Optimized operations through Next-
generation tools and Groundbreaking innovation, or **NC STRONG**.

Dear Secretary Duffy,

I, Allison Dahle, member of the North Carolina House of Representatives representing District 11, is pleased to support the North Carolina Department of Transportation's (NCDOT) application for the U.S. Department of Transportation's (USDOT) Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT) Program. Funding will improve and expand nationally recognized transportation-focused flood-resilience and -response tools that together allow for NCDOT, federal, state, local agencies, and the traveling public to more proactively prepare for, respond to, and recover from statewide flood threats. The application is titled North Carolina Sustainable Solutions for Transforming flooding prediction to build Resilient infrastructure and Optimized operations through Next-generation tools and Groundbreaking innovation, or **NC STRONG** for short.

These systems are essential for providing public safety and economic continuity during flood events. Together, they help determine and anticipate flood and storm surge impacts and identify critical assets at risk. By connecting hazard information before, during, and after hazardous

events, the framework informs emergency routing, inspection priorities, critical-corridor identification, and coordination among state and local agencies, emergency responders, businesses, and communities. Through this grant, NCDOT's suite of flood warning tools will strengthen North Carolina's ability to anticipate disruptions, reduce community isolation, maintain access to critical services and economic centers, prioritize resilient investments, and accelerate post-disaster recovery.

I am happy to support this application and respectfully encourage the Federal Highway Administration to fund the framework's progression that protects public safety, maintains critical access, reduces isolation, bolsters economic continuity, and improves resilient investment decisions.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Allison A. Dahle". The signature is fluid and cursive, with the first name "Allison" and last name "Dahle" clearly distinguishable.

Allison A. Dahle

District 11
