

I. INSTRUCTIONS

1. The classification for grout type being submitted can be found in Section 1003 of the 2018 [*Standard Specifications for Roads and Structures?*](#)

II. SUPPLEMENTAL REQUIREMENTS

1. Provide a Safety Data Sheet (SDS).
2. Provide a Letter of Compliance stating at a minimum: the company name, product name, statement saying it meets the applicable specification(s) and the manufacturer's currently published physical properties and performance characteristics.
3. Provide a Technical Data Sheet stating at a minimum: product description, yield, technical information, mixing directions, finishing directions, curing, clean up and precaution/limitation(s).
4. Provide a minimum one-bag sample of the packaged grout product. Instructions for sending your sample will be provided once your product application has been processed and you receive an acknowledgement letter.
