Dear Ms. Andre:

The Franklinton Board of Commissioners strongly supports the Mobility Hub Plan grant that is being developed by the seven communities and the State of North Carolina Department of Transportation. We believe that this grant, if approved, will effectively enhance mobility options, improve social equity, and increase the resilience of the transportation network, while improving the environment and stimulating economic growth along the S-Line Corridor.

Based on this belief, the Board has agreed to contribute \$30,000 in matching funds for the RAISE grant that will include \$150,000 for a mobility study for the Town of Franklinton. This grant will be used to develop a feasibility and site assessment for a mobility hub in Franklinton. We believe that Franklinton will be an excellent location for a passenger rail station.

Thank you for your technical assistance. We look forward to working with you, NCDOT and the other communities to move this project forward.

Sincerely,

Gregory Bethea,
Town Manager
