Dear Mr. McCray Coates,

This letter is in regard to the I-26 exit ramp going to the Pratt & Whitney property. This ramp would be a great benefit to the Skyland Fire and Rescue by providing a much quicker response and another means of access to the location. As you know, during any emergency we try to give our best to the community at need and this will help us meet that need.

This access to the property from I-26 could also enhance any future growth to the property and/or surrounding areas. If you have any further questions or concerned, please let me know.

Sincerely,

Trevor C. Lance

Interim Fire Chief

Skyland Fire Rescue
