## Demographic Snapshot Excel Tool

## Select Block Groups and Census Tracts from the Study Area

A
In ArcGIS, select the block groups and census tracts from the study area to be included in the demographic analysis.
For each dataset below, open the ArcGIS attribute table, copy the block groups and census tracts, and paste them into the corresponding Excel tabs.

Start with an original version of this demographic tool, or clear block group and census tract level data before pasting Refer to the NCDOT Demographic Snapshot Tool Training Manual for further guidance

| Enter Data from "Calculated_ACS_2017_2021_Block_Group" dataset | Table contains 32 Block Groups |
| :---: | :---: |
| Enter Data from "Comparison_2007_2021_Block Group" dataset | Table contains 32 Block Groups |
| Enter Data from "Complete_ACS_2017_2021_Block_Group" dataset | Table contains 32 Block Groups |
| Enter Data from "Calculated_ACS_2017_2021_Census_Tract" dataset for Disability Data | Table contains 18 Census Tracts |

## Select Places and Counties for Comparison

Below, select the Places and Counties to be included in the demographic tables as a point of
comparison

| Places | Click on the dropdown arrows or begin typing in the white box to select a place or county. | Use the up and down arrows to revise the order in which your selections will appear on demographic tables. |  |
| :---: | :---: | :---: | :---: |
| Greensboro city |  |  |  |
| Add Place to Comparison |  |  |  |
| Counties | To add a selected place or county to the comparison, click the corresponding grey button. | Remove an individual selection or clear all selections using the indicated buttons to the |  |
| Buncombe County |  |  | Remove Selected Item |
| Add County to Comparison |  |  | Clear All Selections |

Prepare Demographic Tables
After study area data has been added (Step A) and comparison geographies have been selected (Step B), click the button below to format output tables to fit your data.

Historical ACS data is used to compare population changes from 2007 to 2021. The tables are linked to the Data tabs and will automatically populate once the Data tabs are completed. Once complete, you can copy the table and source directly into your report.

| Geography 2020 | ACS 2007-2011 Population* | ACS 2012-2016 Population | ACS 2017-2021 Population | Difference | Percent Change | Annualized Growth Rate |

| White, Non-Hispanic | Provided from the "WhiteNotHisLat" field in the CalculatedData dataset |
| Minority Population | Determined by subtracting White, Non-Hispanic from the Total Population |

## NCDOT Thresholds

The following thresholds have been established by NCDOT Community Studies for Minority Populations:
Any Block Group where 50 percent or more of the population is minority, or "majority minority," is considered to have a notable environmental justice (EJ) presence.
Any Block Group with a minority population at least ten percentage points higher than the county average would also have a notable EJ presence.

The ACS Census data should be used to calculate the poverty status. The tables are linked to the Data tabs and will automatically populate once the Data tabs are completed. Once complete, you can copy the table and source directly into your report.

| Geography | Population for whom Poverty Status is Determined | Below Poverty Level |  | Under 50\% of Poverty Level |  | Between 100\% and 149\% of Poverty Level |  | Meets Thresholds |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | \# | \% | \# | \% | \# | \% | 25\% | 5\% over County |

## NCDOT Thresholds

## The following thresholds have been established by NCDOT Community Studies for Poverty

Any Block Group where the percentage of the population in any of the poverty categories - Below Poverty Level, Very Poor, or Near Poor equals or exceeds 25 percent of the total population of that Block Group.
Any Block Group where the percentage of the population in any of the poverty categories - Below Poverty Level Very Poor, or Near Poor exceeds the county average by five percentage points or more.

## Limited English Proficiency (LEP)

The ACS Census data should be used to calculate the LEP populations. The tables are linked to the Data tabs and will automatically populate once the Data tabs are completed. Once complete, you can copy the table and source directly into your report.

| Geography | Total Adult Population, 18 years and older | Primary Language Group of Persons Who Speak English Less than Very Well |  |  |  |  |  |  |  | Meets Thresholds |  |

## Calculations

Total Population, 18 years Provided from the "PopADULT18YrsPlus" field in the CalculatedData dataset and older

Primary Language of
Persons Who Speak English Provided from the "SpkSpanADULTSpkEngLessThVerWell" field in the CalculatedData dataset Less than Very Well -
Spanish

## Primary Language of

Persons Who Speak English Provided from the "SpkIndoADULTSpkEngLessThVerWell" field in the CalculatedData datase
Less than Very Well - Other
Indo-Euro

Primary Language of
Persons Who Speak English Provided from the "SpkAsiaADULTSpkEngLessThVerWell" field in the CalculatedData dataset Less than Very Well
Asian/Pacific

Primary Language of
Persons Who Speak English Provided from the "SpkOthrADULTSpkEngLessThVerWell" field in the CalculatedData dataset Less than Very Well - Other

## NCDOT Thresholds

The following thresholds have been established by NCDOT Community Studies for LEP
LEP threshold - 1,000 adults speak English less than very well OR constitute more than 5 percent of the aggregate DSA population within a language group (with at least 50 adults).
Language assistance (LA) threshold - 50 or more adults of a Block Group's population within a language group who speak English less than very well.

## Zero-Car Households

The ACS Census data should be used to calculate zero-car households. The tables are linked to the Data tabs and will automatically populate once the Data tabs are completed. Once complete, you can copy the table and source directly into your report.

| Geography | Occupied Housing Units | No Vehicle Available |  | One Vehicle Available |  | Two or More Vehicles Available |  |
