

Have You Heard About PIP?

**Piedmont
Improvement
Program**

Thanks to a \$520 million Federal USDOT grant, the NCDOT Rail Division is making improvements to the railroad between Charlotte and Raleigh that will:

- make train travel more efficient and reliable, and improve safety for motorists and trains,
- enhance opportunities for job growth and commercial development, and
- better connect the economic regions of Raleigh and Charlotte and the cities, towns and communities in between.

All Piedmont Improvement Program (PIP) projects are scheduled to be completed by Fall 2017.

Passengers should expect some delays and train cancellations as we work to bring you a smoother ride and improved travel times.

Visit ncbytrain.org, like us on Facebook and follow us on Twitter for specific track work details affecting train service and schedules.

We apologize for the inconvenience and hope you continue to ride with us as we strive to improve our service.
