

SADDLE BRANCH CONNECTOR:

(3-19-96) (Rev 7-18-06)

SP3 R05

Description

Construct saddle branch connectors in accordance with the details in the plans, Section 310 of the *Standard Specifications*, and the following:

Use a saddle patch made of 16 gauge steel or heavier meeting the same requirements as the steel used in the pipe, and shop welded it to the stub. After welding, galvanize the connector. Paint the cut edge of the hole in the pipe being intersected with a zinc rich paint.

Measurement and Payment

Saddle Branch Connector will be measured and paid for as the actual number of each of these items that have been incorporated into the completed and accepted work. Such price and payment will be full compensation for all materials, bolts, labor, and other incidentals necessary to complete the installation.

Payment will be made under:

Pay Item	Pay Unit
Saddle Branch Connector	Each
