

TYING PROPOSED CONCRETE PAVEMENT TO PROPOSED ASPHALT PAVEMENT:

(7-1-95)

SP7 R10

Tie the proposed concrete pavement on this project into proposed asphalt pavements in accordance with the detail shown in the plans and the following:

- (A) Bevel the end of the proposed concrete pavement on a 1:1 slope and eliminate the dowels. No direct payment will be made for beveling the ends of the proposed concrete pavement as such work will be included in the cost of the concrete pavement being constructed.

- (B) An asphalt connection will be required from the end of the proposed concrete pavement to the proposed asphalt pavement. Construct this connection in accordance with the details in the plans or as directed by the Engineer. The various asphalt and base course items used to make this connection will be paid for at the contract unit prices for the various items involved.
