Chapter 1 Applications

This User Guide will cover all steps in the Letting process and the applications/tools you will need to complete them. This first chapter will briefly explain each so that you will have a clearer understanding of what you need.

These are:

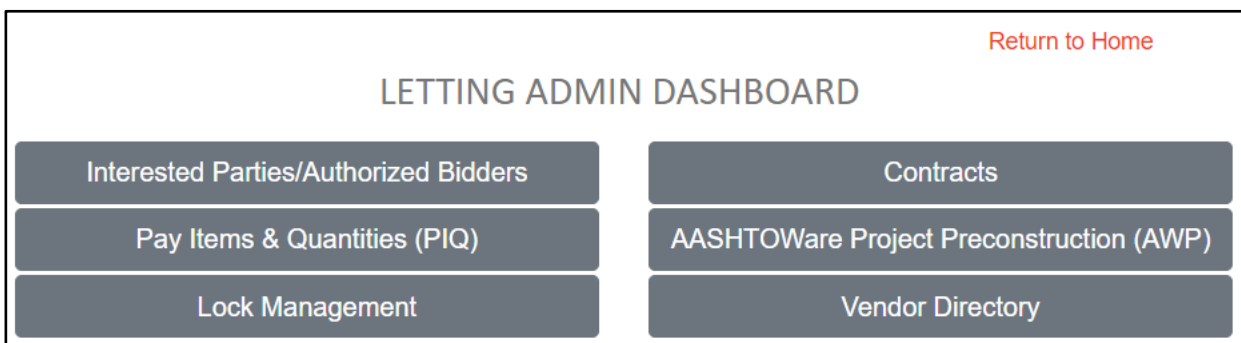

- The Letting Admin Dashboard
- AASHTOWare Project Preconstruction (AWP)
- AASHTOWare Project Bids Entry
- Bid Express (BIDX)

The Letting Admin Dashboard

The **Letting Admin Dashboard** provides a central location to access all systems required in the Letting Process.

The dashboard can be found on the NCDOT Preconstruction Projects Home page.

Step	Action	Result
1	In the address bar of your web browser, type HTTPS://CONNECT.NCDOT.GOV/SITE/PRECONSTRUCTION/PAGES/LADM.ASPX# and press Enter .	The Letting Admin Dashboard page will appear.

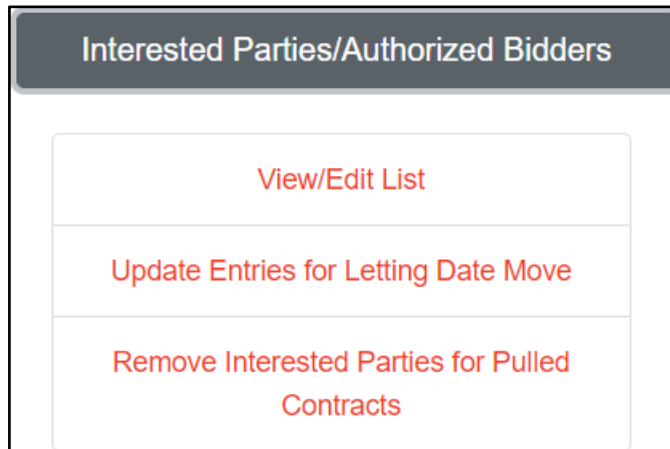

(Letting Admin Dashboard Page)

Continued on Following Page

The Letting Admin Dashboard

(continued)

You will have the same access that you have been assigned in **AASHTOWare Project Bids Entry**. Based on your level of access, some buttons may not be visible to you.

Interested Parties / Authorized Bidders

From the *View/Edit List* link, you can add firms to the list of Interested Parties. You will also be able to Export this form to Excel or Generate the BIDX file here.

The *Update Entries for Letting Date Move* link is provided because if you move a contract to a different letting (in AWP), you will need to update the interested parties registered for that contract to connect them to the correct letting.

When the advertisement for a contract is pulled/withdrawn in AASHTOWare Project Preconstruction, the interested parties & authorized bidders list entries for that contract need to be deleted. The *Remove Interested Parties for Pulled Contracts* link will allow you to remove the Interested Parties from the contract(s).

Pay Items & Quantities (PIQ)

This provides a quick link to the **Pay Items and Quantities** tool once you select a project from the list.

Continued on Following Page

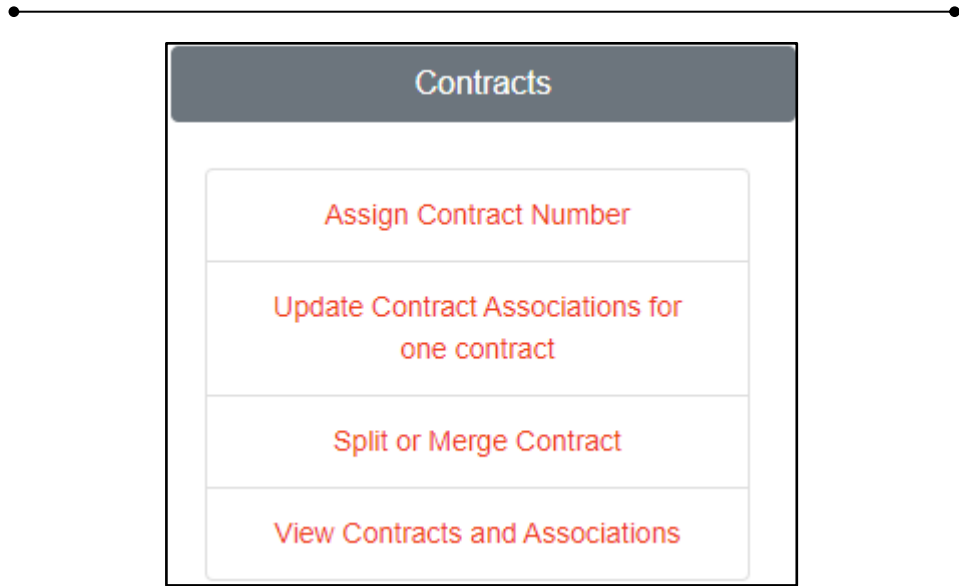

The Letting Admin Dashboard

(continued)

Lock Management

This feature will allow you to submit a request to unlock a locked Preconstruction project site. You will be able to search for a project site by Project ID, TIP, WBS or Project Description.

Contracts

This is where you will set up your contracts. You will be able to assign a contract number from the *Assign Contract Number* link.

From the *Update Contract Associations for one contract* link, you can update the projects or WBS values are associated with a contract.

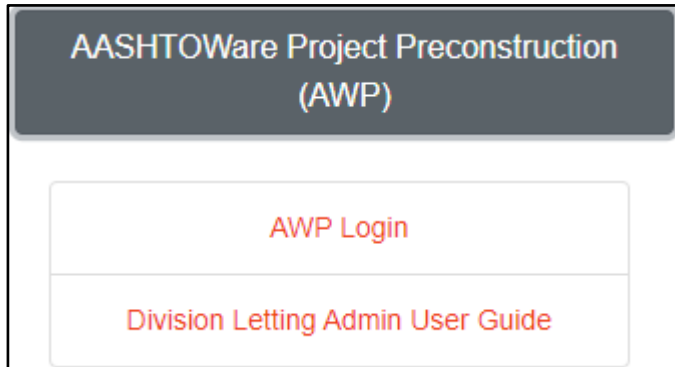

The *Split or Merge Contract* link is provided so that you can move projects between two contracts if necessary.

The *View Contracts and Associations* link is provided so that you can view contracts and the WBS values associated with them. You will be able to add additional WBS numbers here.

Continued on Following Page

The Letting Admin Dashboard

(continued)

AASHTOWare Project Preconstruction (AWP)

This is a direct link to the login page for **AASHTOWare Project Preconstruction (AWP)**.

You will also be able to download a copy of this **User Guide** from here.

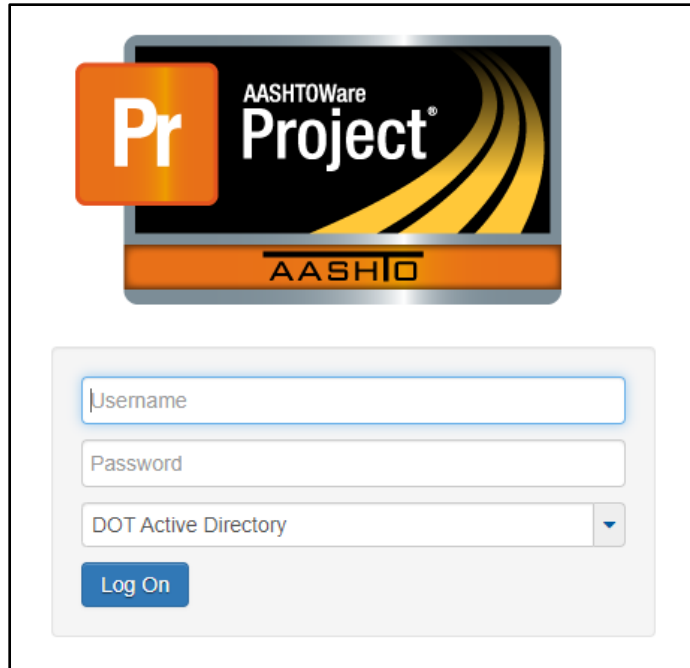

Vendor Directory

From here you can search the complete listing of certified and prequalified firms on the **Directory of Firms** web page.

AASHTOWare Project Preconstruction (AWP)

Logging In

Step	Action	Result
1	In the address bar of your web browser, type HTTPS://SPECS.SERVICES.NCDOT.GOV and press Enter .	The AASHTOWare Project Login window will appear.

(AASHTOWare Project Login Window)

NOTE: You will use the same Username / Password combination that you use to log into the NCDOT Domain.

2	Type the User ID you use to log on to your computer in the USERNAME field.	N/A
3	Type the Password you use to log on to your computer in the PASSWORD field.	N/A
4	Click the Log On button.	The AASHTOWare Project Dashboard window will appear.

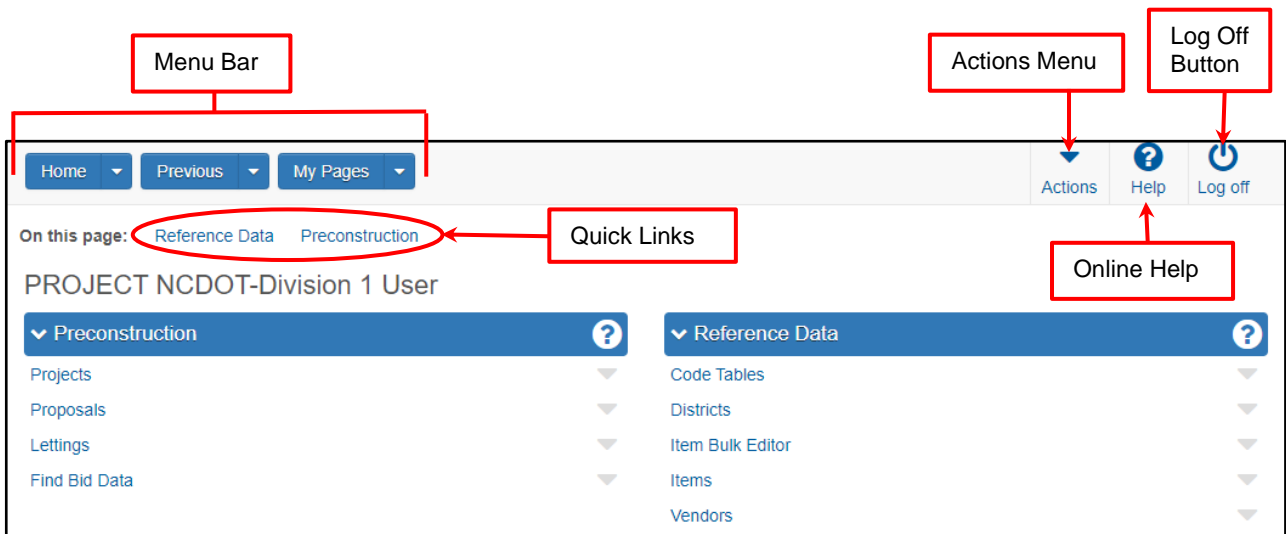

Continued on Following Page

AASHTOWare Project Preconstruction (AWP)

(continued)

NOTE: If you have changed your password and are experiencing issues, try rebooting your machine to make sure your new password is synced across all systems.

This is the first window you'll see when you log into the AASHTOWare application.

(AASHTOWare Project Dashboard)

AASHTOWare Project Preconstruction (AWP)

(continued)

(Menu Bar)

The Menu Bar

Clicking this button will take you back to the *AASHTOWare Project Dashboard*.

If you need to revisit any area that you have visited in your current session, click the down-arrow on the Previous Activity button to view your activity history. You'll be able to navigate directly to a page by clicking on its name in the list.

This button allows you to bookmark pages that you visit frequently.

To bookmark a page, see **Bookmarking a Page (My Pages)** on **Page 1-9**.

To remove a bookmarked page, see **Removing a Bookmark (My Pages)** on **Page 1-10**.

Actions Menu

The **Actions** menu is a list of shortcuts to functions that can be performed regardless of where you currently are in the system.

The options on this menu change depending on where you are in the system.

Online Help

Click this button to open **Online Help** for the application in a new browser window.

Log Off Button

Clicking this button will end the active session.

Continued on Following Page

AASHTOWare Project Preconstruction (AWP)

(continued)

Just beneath the Menu Bar are the **Quick Links**.

These are like breadcrumbs and map out where you are in the system.

(Quick Links)

NOTE: Reference Data is available only on the Dashboard.
This data is read only.

On the **Heading Bar** of each section, there is an arrow.

When the heading is expanded to reveal the contents beneath, the arrow points downward . This is the default.

(Preconstruction Menu Expanded)

If you click anywhere on the **Heading Bar**, the section will be collapsed, the arrow will be pointing to the right , and the contents will be hidden.

(Preconstruction Menu Collapsed)

This is a toggle. Click anywhere on the **Heading Bar** once again to expand the list.

Bookmarking a Page (My Pages)

In AASHTOWare Project Entry, when you are on a page that you need to revisit frequently, you will be able to bookmark it.

After a page is bookmarked, you will be able to access it from the My Pages button at the top of the page.

This can be done no matter where you are in the system.

When you are on the page you wish to bookmark:

Step	Action	Result
1	Click <i>the down arrow</i> on the right side of the MY PAGES button.	The REMEMBER THIS PAGE button will appear in the menu.

(My Pages button Drop-Down Menu)

2	Click the REMEMBER THIS PAGE button.	The <i>name of the page you are on</i> will appear in the list below the REMEMBER THIS PAGE button.
---	---	--

(My Pages button Drop-Down Menu with bookmarked page)

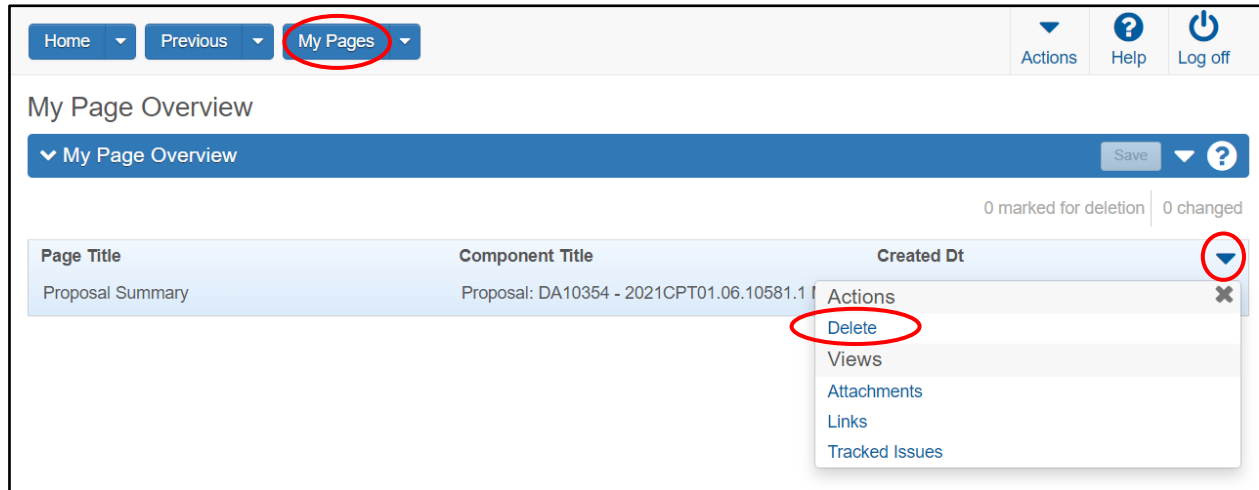

To go to this page again from anywhere in the system, you will be able to go here and click this link.

Removing a Bookmark (My Pages)

When you have bookmarked a page, but no longer need it, you will be able to remove it from the list of bookmarks.

This can be done no matter where you are in the system.

Step	Action	Result
1	Click the MY PAGES button. (Not the down arrow. The button itself)	The MY PAGE OVERVIEW page will appear. All bookmarked pages will appear.

(My Page Overview Page)

2	Click the drop-down arrow at the right side of the <i>page you wish to remove the bookmark from</i> .	A drop-down menu will appear.
3	Select DELETE from the menu.	The drop-down arrow will change to an undo arrow  . <i>A There are unsaved changes</i> message will appear above the Header Bar .

Continued on Following Page

Removing a Bookmark (My Pages)

(continued)

4	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
----------	---	--

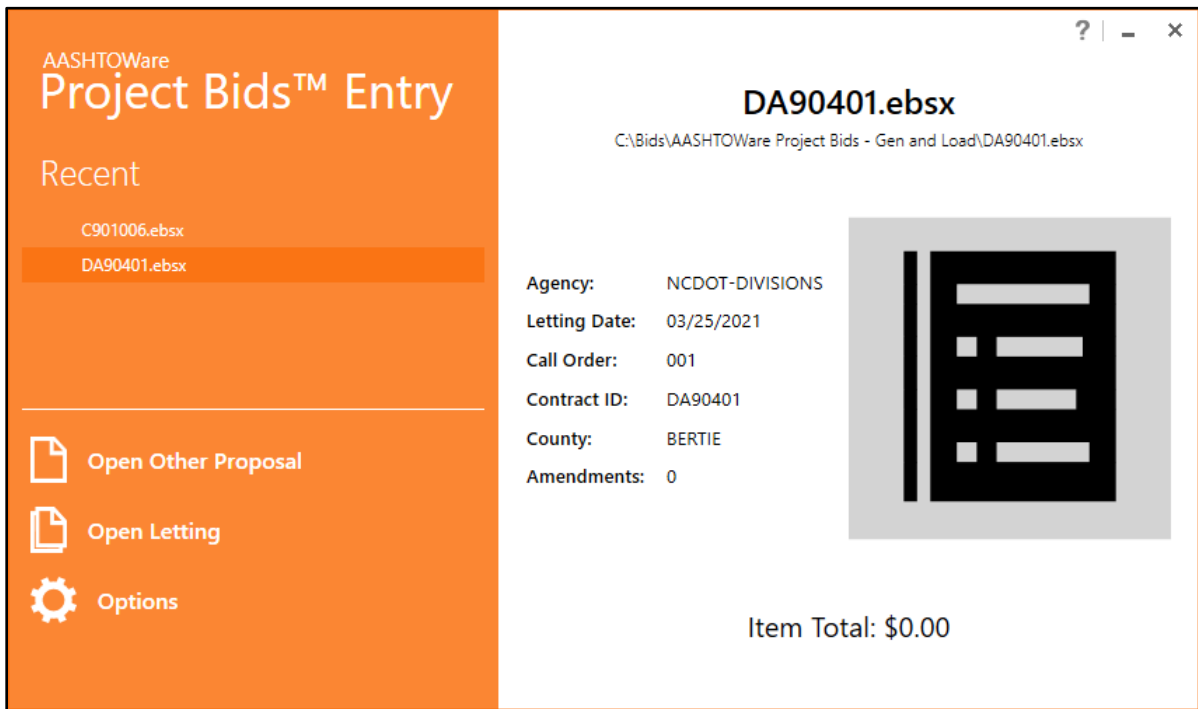

The bookmark has been successfully removed.

AASHTOWare Project Bids Entry

The **Project Bids Entry** application is designed for use by the highway agency for entering paper-based bid data into the proper LOAD files.

Project Bids Entry automatically reads electronic proposal files (and amendments), then allows you to enter a bidder identification code and bid data for that bidder.

The results are stored directly in the Flat Bid File rather than in a Project Bid file.

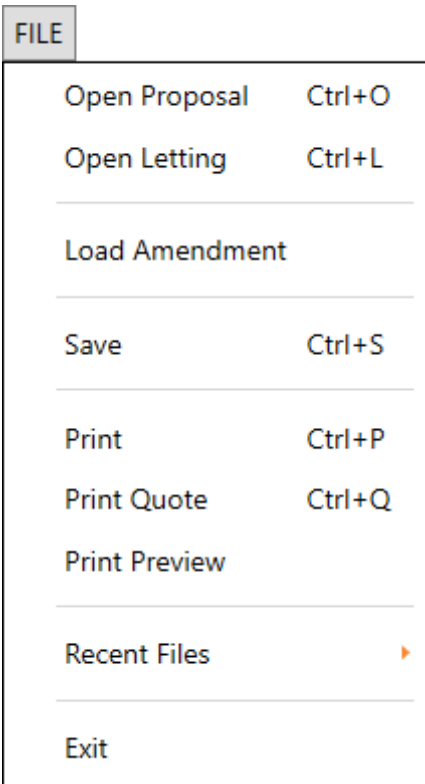

(Project Bids Entry Main Window)

Continued on Following Page

AASHTOWare Project Bids Entry

(continued)

The Menu Bar

The **File Drop-Down Menu** contains general file actions such as *Open Proposal*, *Open Letting*, *Save*, *Print Quote* and *Print*.

It also contains options to *Load Amendment* (Addendum) files, view one of several *Recent Files*, and customize printing with *Print Preview*. It also gives users an additional way to *Exit* the application.

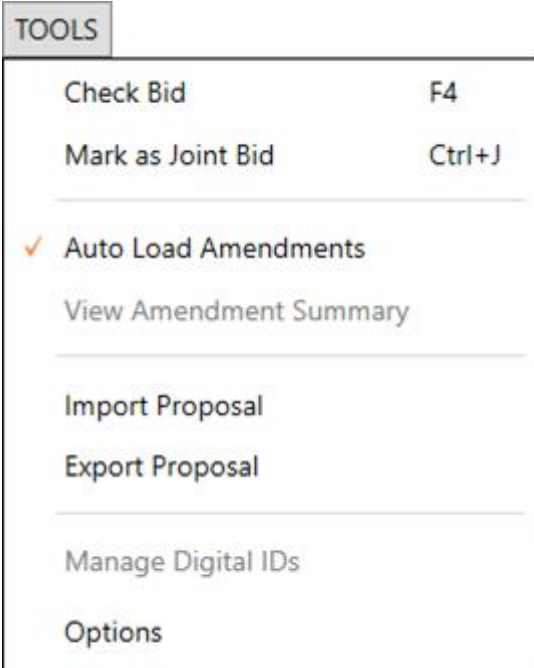

The **Edit Drop-Down Menu** contains the general text-edit options *Cut*, *Copy* and *Paste*.

Continued on Following Page

AASHTOWare Project Bids Entry

(continued)

The **Tools Drop-Down Menu** contains options for bid functions such as *Check Bid*, *Mark as Joint Bid*, *Auto Load Amendments*, and *View Amendment Summary*.

It also allows users to *Import* and *Export Proposal* files and contains *Options* for customization.

The **View Drop-Down Menu** allows you to choose if you would like to view the *Toolbar*, *Icon Labels*, or the *Status Bar*.

The **Help Drop-Down Menu** allows you to access an *Online Help* file. You will also be able to view a popup with general information about the application such as the current version number.

Continued on Following Page

AASHTOWare Project Bids Entry

(continued)

Toolbar Buttons

 **NOTE:** The buttons shown on the toolbar will change according to the function you are performing at the time.

 **Open Button:** This button opens a proposal file.

 **Load Amendment Button:** This button opens a proposal amendment file.

 **Save:** This button saves the proposal/bid.

 **Print:** This button prints the active document.

 **Check Bid:** This button checks the current bid.

 **Clear Bid:** This button clears the current bid.

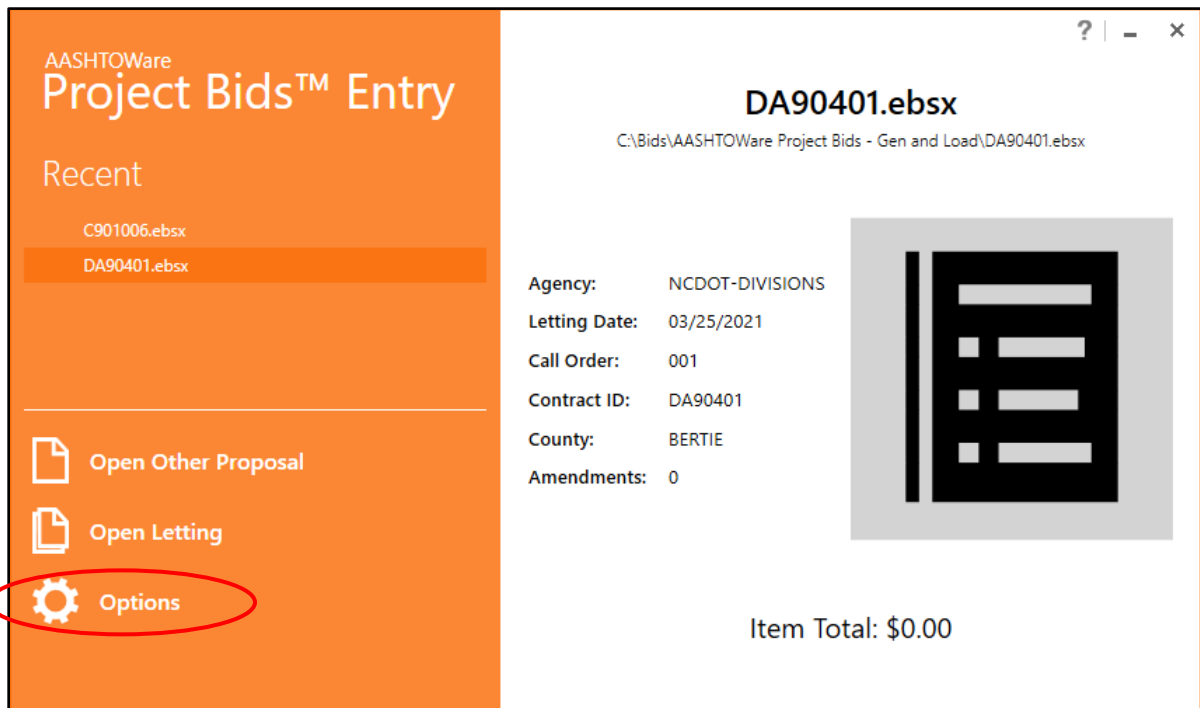

Setting Up AASHTOWare Project Bids Entry

The first time you open AASHTOWare Project Bids Entry on your machine, you will need to specify the Output Path.

From *your Desktop*:

Step	Action	Result
1	Double-click the AASHTOWare Project Bids Entry icon.	The Project Bids Entry application will appear.

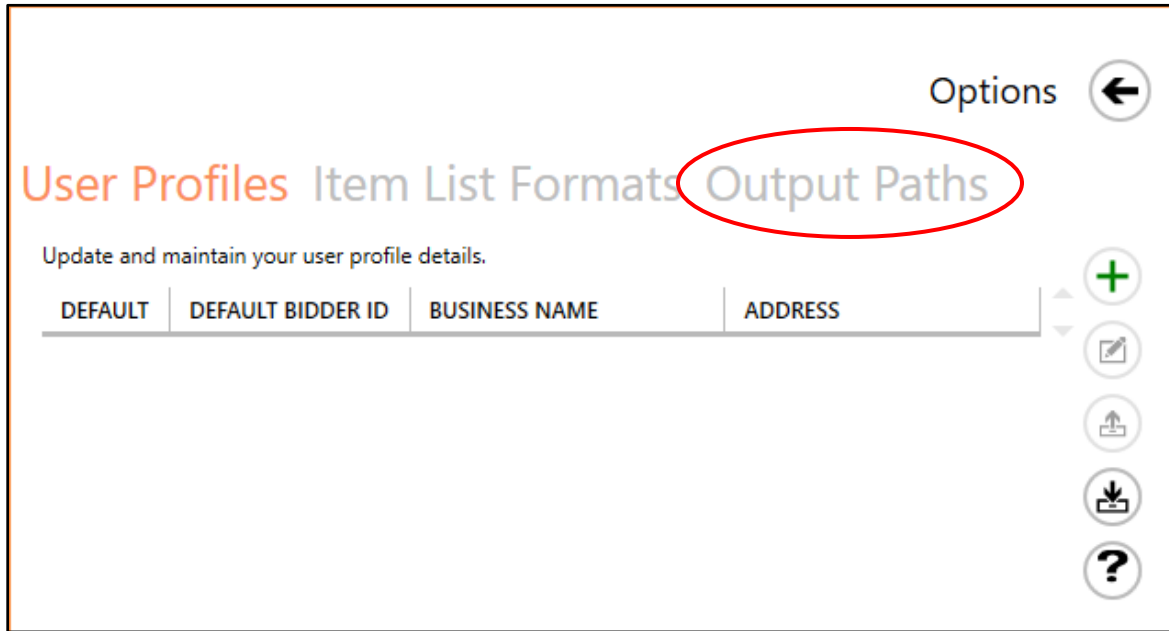

(Project Bids Entry Main Window)

Continued on Following Page

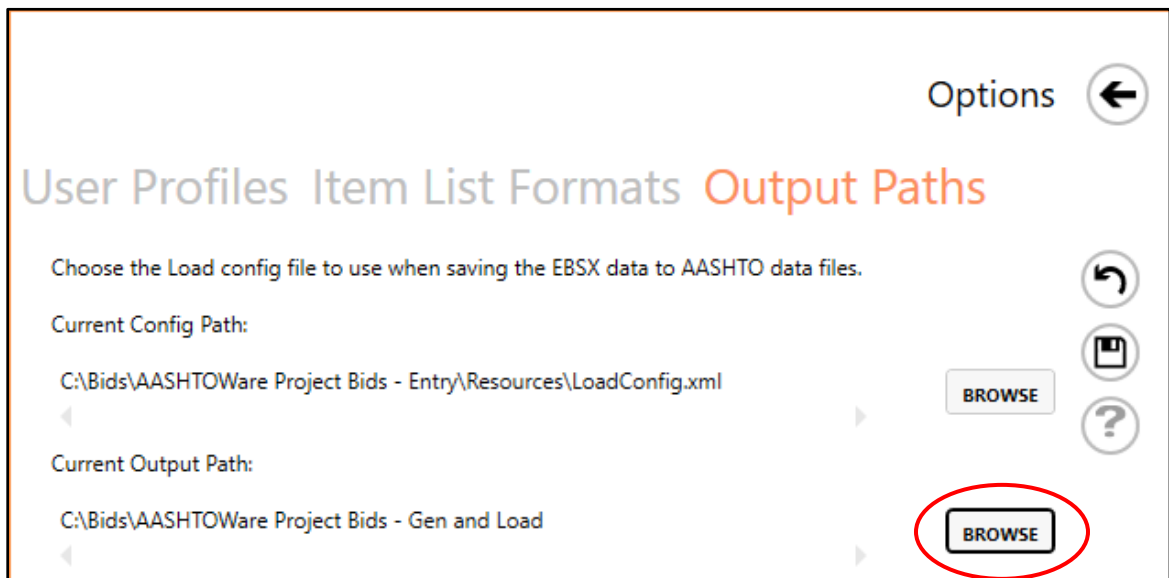

Setting Up AASHTOWare Project Bids Entry

(continued)

2	Click OPTIONS .	The Options panel will appear.
---	------------------------	---------------------------------------

3	Click OUTPUT PATHS .	The Output Paths panel will appear.
---	-----------------------------	--

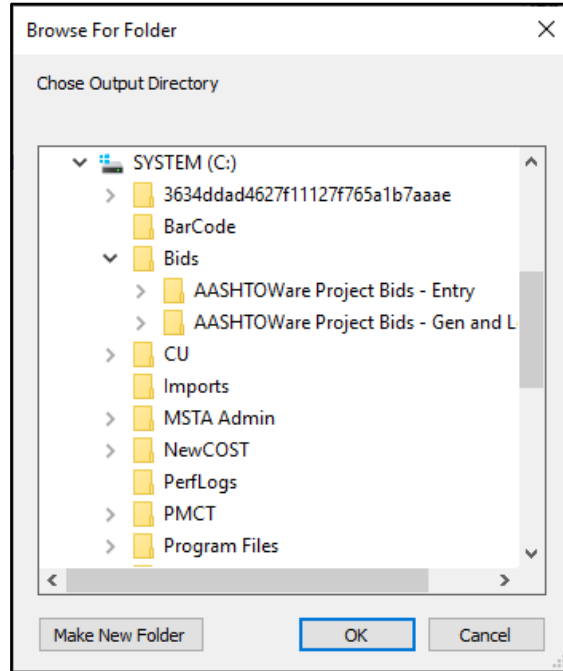

Continued on Following Page

Setting Up AASHTOWare Project Bids Entry

(continued)

4	Click the BROWSE button.	The following dialog will appear.
----------	---------------------------------	-----------------------------------

5	<p>Navigate to C:\Bids\AASHTOWare Project Bids – Gen and Load.</p> <p> NOTE: A shared network drive and directory may also be selected based on division preference.</p>	N/A
6	Click the OK button.	The specified path will appear in the CURRENT OUTPUT PATH field.
7	<p>Click the  SAVE EXPORT SETTINGS button.</p>	The export directory has been saved successfully.

Continued on Following Page

Setting Up AASHTOWare Project Bids Entry

(continued)

8	Click OPTIONS arrow to hide the panel.	An empty AASHTOWare Project Bids Entry window will remain.
---	---	---

At this point you will be able to:

- Close the window.
- Open a Proposal.
- Open a Letting.

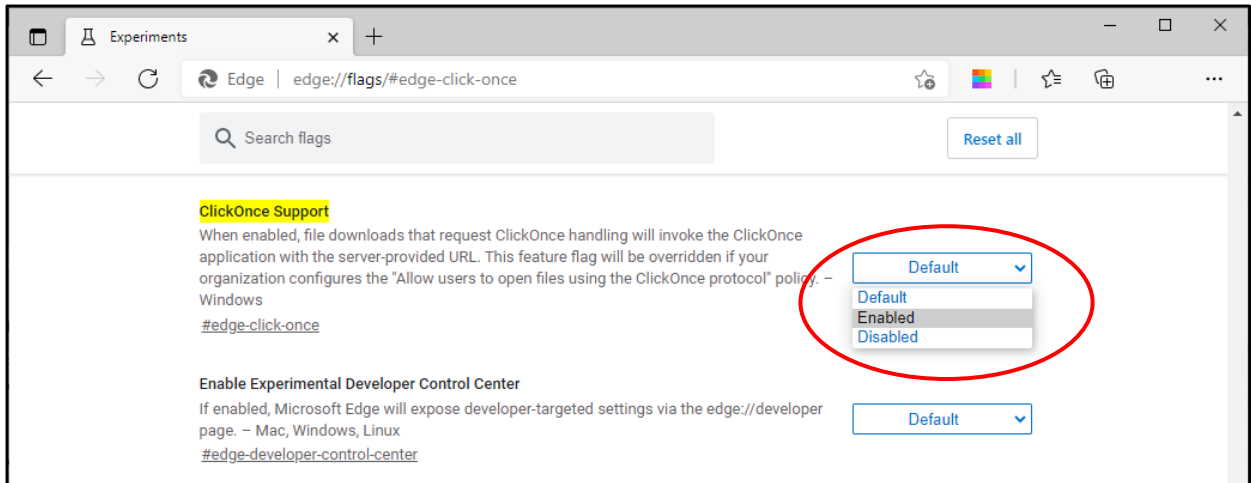

Bid Express

Setting Up Bid Express

Please ensure you have installed the latest **Microsoft Edge** browser before you enable click-once settings within the web browser.

From *your Desktop*:

Step	Action	Result
1	In the address bar of your web browser, type EDGE://FLAGS/#EDGE-CLICK-ONCE and press Enter .	The following page will appear.

2	Select Enabled from the drop-down list to the right of CLICKONCE SUPPORT .	This message will appear at the bottom of the page.
---	--	---

3	Click the RESTART button at the bottom of the page.	The Edge browser should close and reopen.
---	--	--

Continued on Following Page

Setting Up Bid Express

(continued)

You will return to the same page. Your settings have been saved.

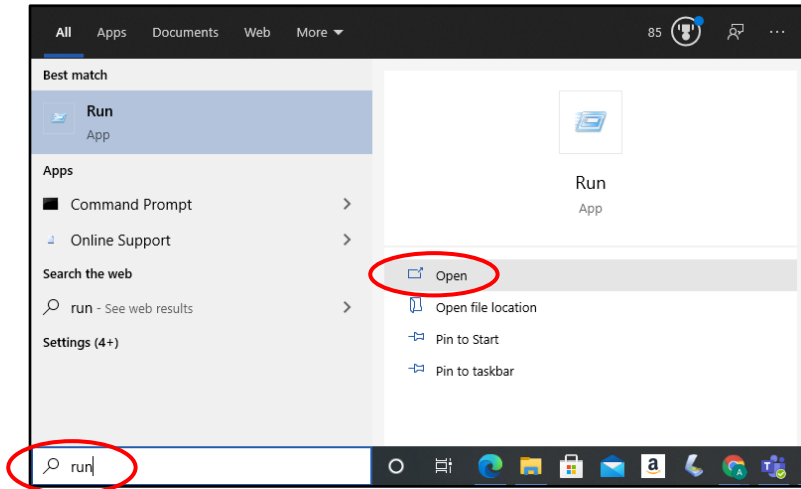

You have enabled **ClickOnce Support**.

To test: try downloading bids on WWW.BIDX.COM for a letting within the last 90 days.

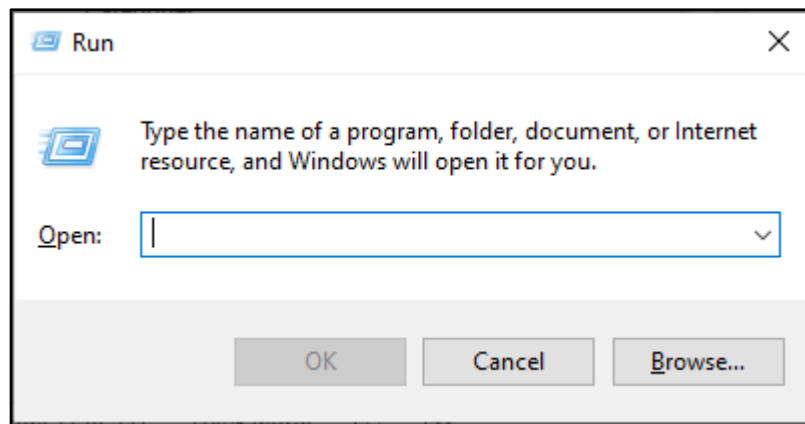

If you experience a Contact Application Vendor Error (BIDX)

From *your Desktop*:

Step	Action	Result
1	Type Run in the search bar and press Enter .	The Run application will appear.

2	Click Open .	The Run dialog will open.
---	---------------------	----------------------------------

3	Type %appdata% in the OPEN field.	N/A
4	Click the OK button.	The following window will appear.

Continued on Following Page

If you experience a Contact Application Vendor Error (BIDX)

(continued)

5	Click on the <i>AppData</i> folder.	N/A
6	Double-click on the <i>Local</i> or <i>Local Settings</i> folder. 📁 NOTE: This is a hidden folder.	N/A
7	Double-click on the <i>Apps</i> folder.	N/A
8	Delete the <i>2.0</i> folder.	The 2.0 folder will be deleted.

Once you have completed these steps, re-open Bids and retry.

Things to Know Before You Begin

Although the letting process will be relatively the same, the software that you are using has changed.

If you need assistance in AWP, please contact awphelp@ncdot.gov. This email has been set up specifically for your use.

While performing any procedure in this user guide, it is important to always leave your **CapsLock** key on. This way all information you type into the applications will have the same format and will be easier to search for.

 **NOTE:** All applications are case-sensitive.

Access to the different options available in an application will be based on **User ID**.

Based on your specific job function, you may see some windows and not others that are shown in this User Guide.

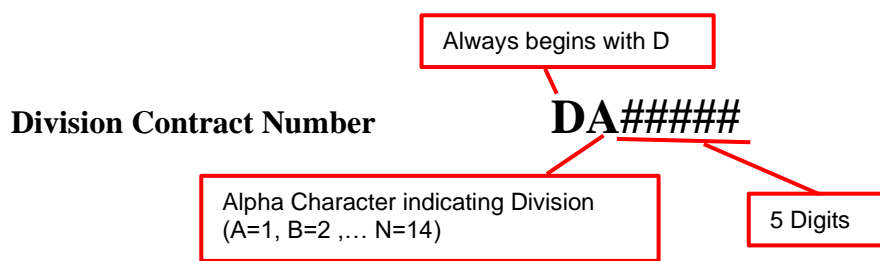

Chapter 2 Project Setup

Assigning a Contract Number

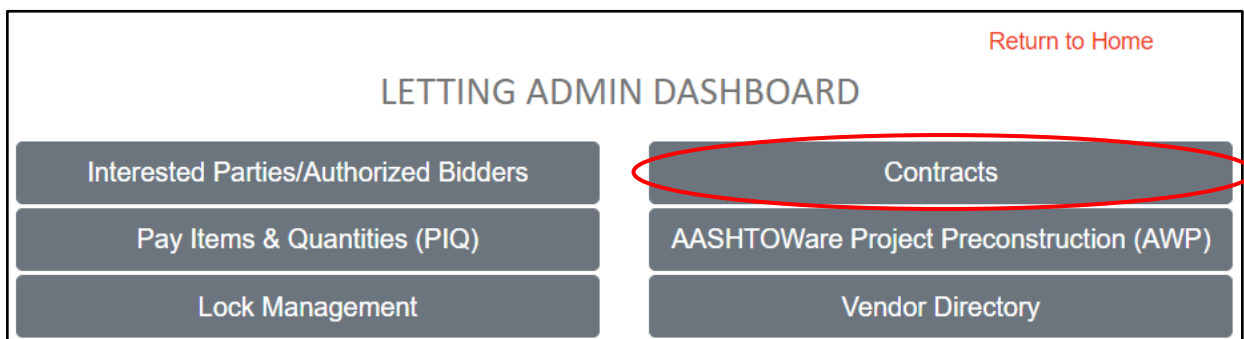

Here you will generate (or provide) a contract number for a contract you plan to let.

Contract Number Format

Contract numbering reflects the organization who will let the contract plus a sequential number.

Step	Action	Result
1	In the address bar of your web browser, type HTTPS://CONNECT.NCDOT.GOV/SITE/PR ECONSTRUCTION/PAGES/LADM.ASPX# and press Enter .	The Letting Admin Dashboard page will appear.

Continued on Following Page

Assigning a Contract Number

(continued)

2	Click the CONTRACTS button.	The list of options will appear.
3	Click the <i>Assign Contract Number</i> link.	The Assign Contract Number page will appear.

[Return to Home](#)

LETTING ADMIN DASHBOARD

Assign Contract Number

Indicate which organization will let this contract then either choose Generate Contract or Use Existing.

Let By:

Use existing contract number created with prior tool

Cancel
Generate Contract

4	Select <i>the organization</i> from the drop-down list in the LET BY field.	N/A
---	--	-----

NOTE: If a contract number has been created previously with another application, click the **USE EXISTING CONTRACT NUMBER CREATED WITH PRIOR TOOL** toggle. **A CONTRACT # field will appear. Type the contract number in this field.**

5	Click the GENERATE CONTRACT button. NOTE: If you used a previously generated contract number, click the USE EXISTING button.	A pop-up message will display indicating the new (or existing) number has been added.
---	--	---

Please make a note of this number. You will need it.

The number has now been saved in the master list, but it is not yet associated with any projects.

Continued on Following Page

Assigning a Contract Number

(continued)

6	Click the OK button.	The Identify Contract Associations page will appear.
----------	-----------------------------	---

After you have assigned a Contract Number, you need to identify one or more projects that will be let using this contract number.

Return to Home

LETTING ADMIN DASHBOARD

Identify Contract Associations

Identify the Precon site and WBS information to be associated with this contract. The WBS information will be stored in the Precon site for use with the Pay Items and Quantities tool later.

Let By: **Division 01**

No Preconstruction Site for project

New Contract Number: **DA10002**

Precon Site Name: Associate Project

Enter project until recognized, then press Associate

Division: County: TIP:

Actions	Construction WBS	Project ID
There are no records to show		

Cancel
Save and Exit

7	Type <i>the preconstruction project number you wish to associate with the new contract</i> in the PRECON SITE NAME field.	N/A
8	Click the ASSOCIATE PROJECT button.	The associated preconstruction project will appear at the bottom of the page.

Repeat **steps 7 & 8** for any additional preconstruction projects you wish to associate with the contract.

Continued on Following Page

Assigning a Contract Number

(continued)

If you wish to remove a preconstruction project from the contract, click the  **DELETE** icon under the preconstruction project record.

9	To add <i>a WBS number</i> to a preconstruction project, click the +ADD WBS button.	The New WBS dialog will appear.
----------	--	--

New WBS
×

Construction WBS:

Enter ONLY ONE Construction WBS

Funding source for this project

NOTE: This field would not accept any special character except dot (.) and space

Submit
Reset

10	Type <i>the WBS number</i> in the CONSTRUCTION WBS field.	N/A
11	Select <i>the preconstruction project you wish to associate this WBS with</i> from the drop-down list in the PROJECT field.	N/A
12	Click the SUBMIT button.	The WBS and associated preconstruction project ID will appear in ascending alphanumeric order.

Repeat **steps 9-12** to add additional WBS numbers.

Continued on Following Page

Assigning a Contract Number

(continued)

The WBS numbers you provide here will be stored in the Preconstruction project sites on SharePoint and made available for the **Pay Items and Quantities (PIQ)** tool so that they can be selected when pay items are added.

13	When you are finished, click the SAVE AND EXIT button.	The <i>Contract Associations saved</i> message will appear.
14	Click the OK button.	You will return to the Letting Admin Dashboard .

Updating Contract Associations for One Contract

If you want to update information for one contract, use this option. It will allow you to add or update the projects or WBS values that are associated with this contract.

From the **Letting Admin Dashboard**:

Step	Action	Result
1	Click the CONTRACTS button.	The list of options will appear.
2	Click the <i>Update Contract Associations for one contract</i> link.	The Update Contract Associations for one contract page will appear.

[Return to Home](#)

LETTING ADMIN DASHBOARD

Update Contract Associations for one contract

Enter contract number (not TIP or WBS) until recognized.

TIP: B-2500

Division: 01

County: Dare

🗑

Cancel
Save and Exit

To add additional projects to the contract:

5	Type <i>the Preconstruction site name (usually the TIP)</i> in the PRECON SITE NAME field.	N/A
6	Click the ASSOCIATE PROJECT button.	The associated project will appear at the bottom of the page.

Continued on Following Page

Updating Contract Associations for One Contract

(continued)

Repeat **steps 5 & 6** for each additional project.

To add additional WBS numbers to this project:

7	Click the +ADD WBS button.	The New WBS dialog will appear.
----------	-----------------------------------	--

New WBS ×

Construction WBS:

Enter ONLY ONE Construction WBS

Funding source for this project

NOTE: This field would not accept any special character except dot (.) and space

Submit
Reset

8	Type <i>the WBS number</i> in the CONSTRUCTION WBS field.	N/A
9	Click the SUBMIT button.	The WBS numbers will appear in ascending alphanumeric order.

Repeat **steps 7-9** for each additional WBS.

10	When you are finished adding projects and WBS numbers, click the SAVE AND EXIT button.	Your information has been saved.
-----------	---	----------------------------------

If **Pay Items and Quantities** have already been stored in a project and a change is made to the WBS values, an error message will appear.

For assistance in correcting the existing items to point to the corrected WBS values, contact Preconstructionhelp@ncdot.gov.

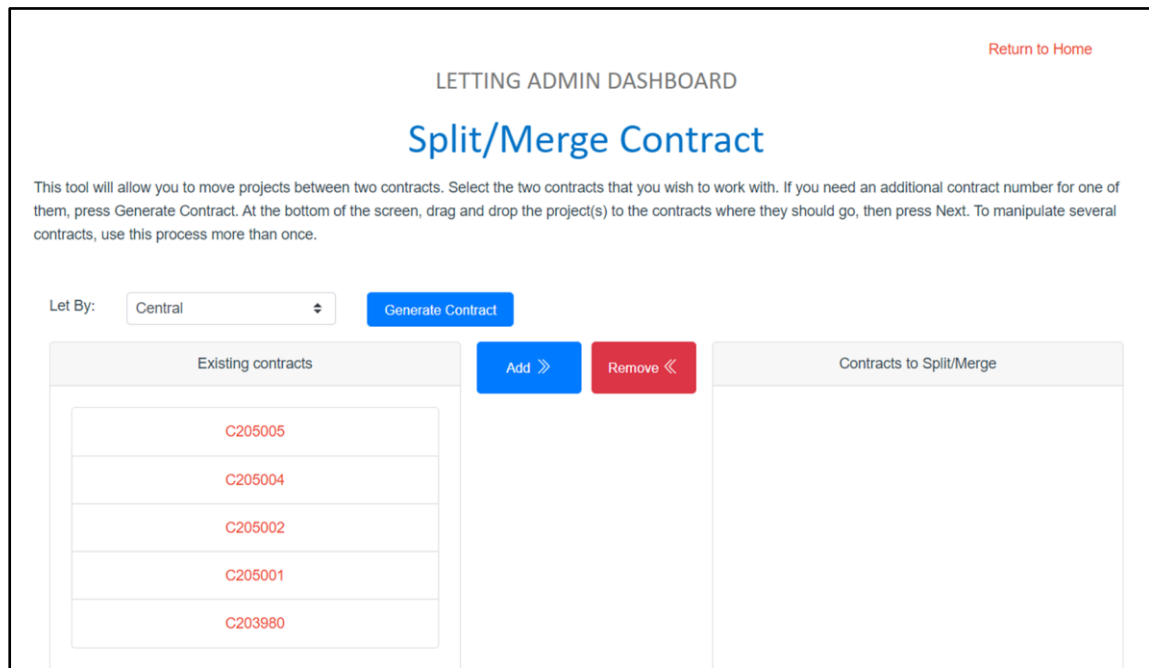

Spitting or Merging a Contract

This option allows you to move projects between two contracts. If you had previously defined a contract as containing multiple projects and now you need to split one or more of those off into another contract, or if you wish to combine projects in multiple contracts into one contract, this is the tool to use.

Existing Contracts

From the **Letting Admin Dashboard**:

Step	Action	Result
1	Click the CONTRACTS button.	The list of options will appear.
2	Click the <i>Split or Merge Contract</i> link.	The Split/Merge Contract page will appear.

3	Select <i>the organization</i> from the drop-down list in the LET BY field.	The list of existing contracts will appear in the left column.
4	You will be selecting 2 contracts. Click on <i>the first contract number</i> to select it.	N/A

Continued on Following Page

Spitting or Merging a Contract

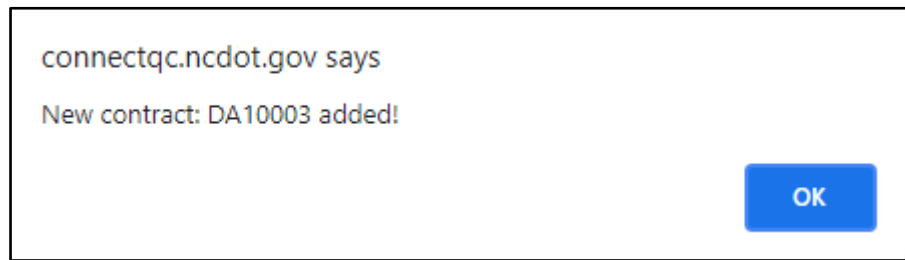

(continued)

5	Click the ADD button.	The selected contract will be moved to the right column.
6	Click on <i>the second contract number</i> to select it.	N/A
7	Click the ADD button.	The selected contract will be moved to the right column.

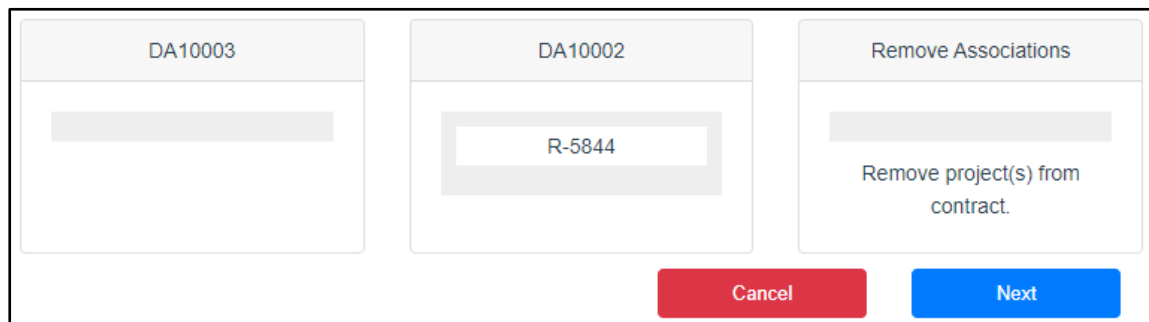

New Contract

If you are adding a **new** contract as the second contract:

6	Click the GENERATE CONTRACT button. 📁 NOTE: This is the new number that you intend to move the existing projects into.	The following message will appear, and the new contract will appear in the right column.
----------	---	--

Both contracts and the associated projects will appear at the bottom of the page.

Continued on Following Page

Spitting or Merging a Contract

(continued)

8	Drag and drop the projects to move them from one contract to another.	N/A
----------	---	-----

 **NOTE:** If you wish to remove the project associations completely, drag the projects under **REMOVE ASSOCIATIONS**.

9	When you are satisfied with your changes, click the NEXT button.	The Handle Contract Split/Merge page will appear.
----------	---	--

Each Contract will appear with the Projects listed beneath it. Underneath these, the associated WBS values will be listed, including their current alphabet letter assigned to correspond to the letters assigned in AASHTOWare Project Preconstruction (AWP).

Two toggles will appear beneath and slightly to the right.

1. Reorder/Relabel the WBS values.

 **NOTE:** If you already had the previous letter order set up in AWP, you may not want these WBS values reordered and relabeled. If you **DO** want the WBS values to be reordered & renamed, beginning from A, use this toggle. The letters will be left as they are unless this toggle is selected.

2. Use the previous contract number for export.

 **NOTE:** If you already have Projects set up in AWP using the previous contract number in the name, you may want to ensure that the Pay Items and Quantities tool continues to export the pay items using the old name, so they will import into AWP correctly. If you use this toggle, it will continue to use the other contract number for export, even though for reference purposes, the new contract number will be used. *If you have multiple projects involved and there are multiple answers for a given contract, contact PreconstructionHelp@ncdot.gov to specify exactly which contract # you would like used for the export for each of the projects.*

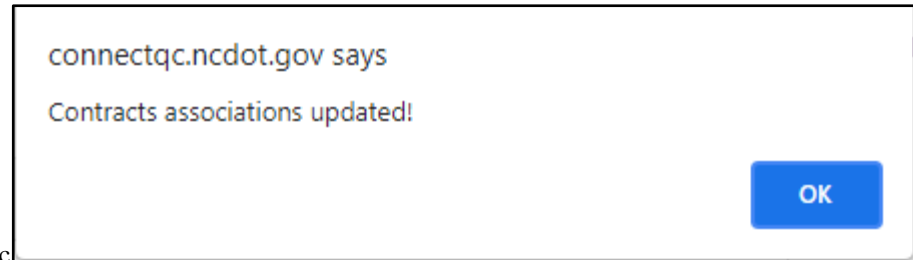

Continued on Following Page

Spitting or Merging a Contract

(continued)

10	After validating the results & making your selections, click the SAVE AND EXIT button.	The following message will appear.
-----------	---	------------------------------------

 **NOTE:** The Contract and WBS information used by the PIQ tool in each of the listed projects will also be updated.

11	Click the OK button.	You will return to the Letting Admin Dashboard page.
-----------	-----------------------------	---

Setting Up a Contract Cluster

A contract cluster is a way of offering different options to the bidders. For example, we could offer them project A and project B to bid on as separate projects, or they could choose to bid on them both combined into a new project (Project C). Project C would be what is referred to as a project cluster.

After the letting, you will know which contract numbers are needed.

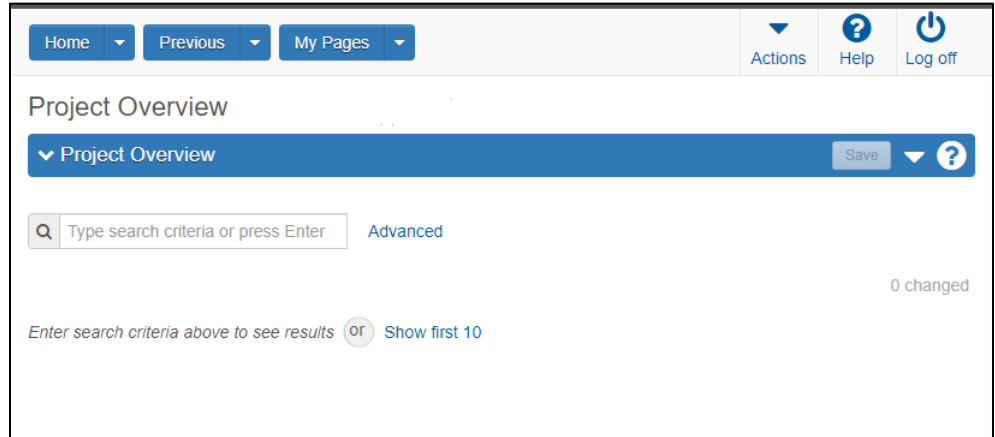

1. To create a new contract, see **Assigning a Contract Number** on **Page 2-1**.
2. To combine contracts (2 contracts at a time), see **Spitting or Merging a Contract** on **Page 2-9**.

 **NOTE:** At this time, the original numbering of the WBS values in each project should stay the same, so that they don't get numbered as if they are all in one project.

Finding a Project

From the *AASHTOWare Project Dashboard*:

Step	Action	Result
1	In the Preconstruction section, click PROJECTS .	The Project Overview page will appear.

2	The search filter requires 3 characters and will continue auto filtering the list as you type.
---	--

Criteria	Result
Project Number	The project
Partial Project Number	A list of projects that contain the criteria
WBS Number	The project(s) associated with the WBS Number
Partial WBS Number	List of projects that associated with a WBS that contains the criteria
TIP Number	The project(s) associated with the TIP Number
Partial TIP Number	List of projects that are associated with a TIP that contains the criteria
“State”	List of all state-funded projects
County / Partial County	List of projects associated with the county

3	Click on the PROJECT NUMBER you wish to open.	The project will open.
---	--	------------------------

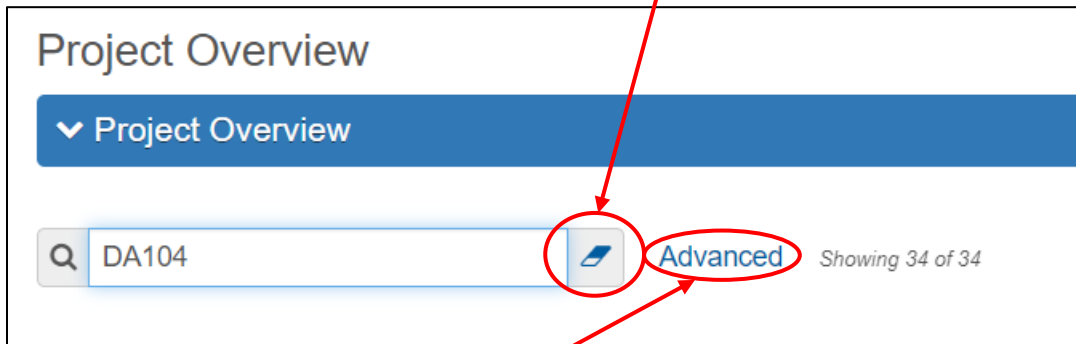

Continued on Following Page

Finding a Project

(continued)

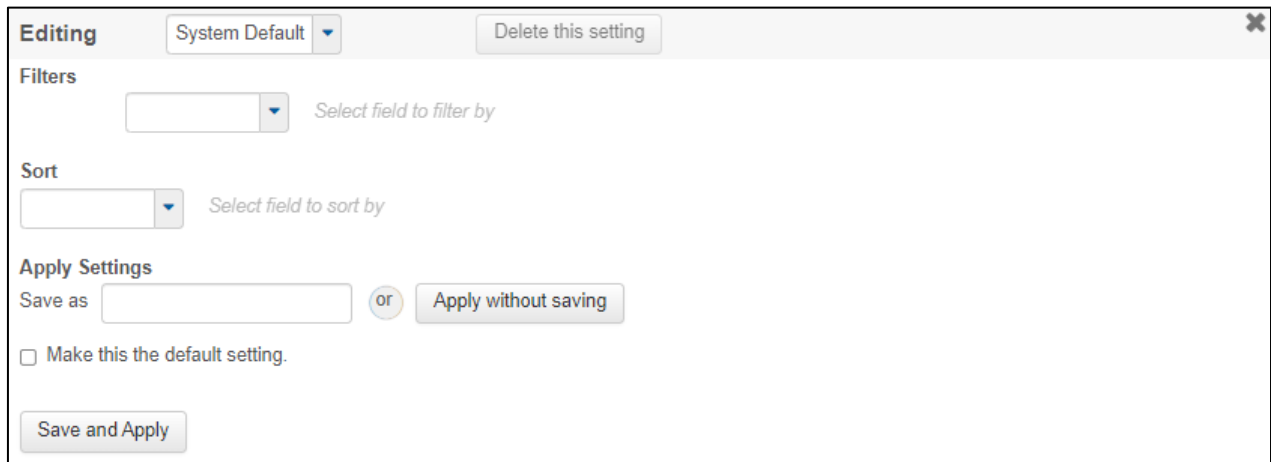

Clearing the Search & Filter Criteria

To clear the contents of the **SEARCH** box (and any other filter selections you have chosen), click the  **CLEAR** button to the right of the **SEARCH** box.

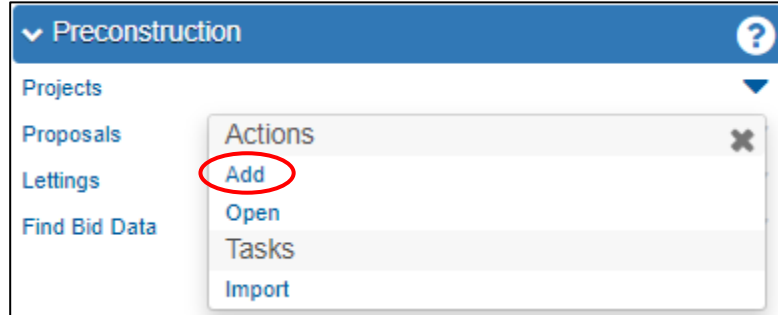

Advanced Search Options

Clicking the **ADVANCED** link provides more advanced search options.

Adding a Project

From the *AASHTOWare Project Dashboard*:

(Preconstruction Menu)

Step	Action	Result
1	In the Preconstruction section, click the drop-down arrow to the right of PROJECTS . 📁 NOTE: You can also perform this step from the Project Overview Page shown on Page 2-14 .	A menu will appear.
2	Click ADD .	The Add Project page will appear.

Project Number Format

The estimator is responsible for setting up projects for each section of the proposal. The projects will have the following naming convention:

NOTE: The contract number assigned in the **Letting Admin Dashboard** is used as the project number. This procedure is on **Page 2-1**.

The **Suffix** identifies the section of the project:

- ST** Structure projects
- RW** Roadway projects

3	Turn on CAPS LOCK by pressing the CapsLock key. All information entered into the system must be in ALL CAPS .	N/A
4	Type <i>the project number</i> in the PROJECT ID field. NOTE: Attach the following suffix if applicable: - ST (for Structure projects) - RW (for Roadway projects) This field will not be able to be changed after you save the project.	N/A

Continued on Following Page

Adding a Project

(continued)

5	Type <i>the county name and TIP number</i> in the PROJECT DESCRIPTION (COUNTY/TIP) field.	N/A
----------	--	-----

 **Helpful Hint**

 **NOTE:** No punctuation is needed in this field.
Example: JOHNSTON WAYNE B-4321

6	Type <i>a brief description</i> in the SHORT TYPE OF WORK field.	N/A
----------	---	-----

 **Helpful Hint**

Example: GRADING, DRAINAGE, PAVING & CULVERT

7	Type <i>the project location</i> in the LOCATION field.	N/A
----------	--	-----

 **Helpful Hint**

 **NOTE:** This is a **TO/FROM** type of description.
Example: I-40 FROM US-70 TO I-440

The **LOCATION** field can accommodate 120 characters.

8	Select the <i>specification year</i> from the drop-down list in the SPEC YEAR field.	N/A
9	Select <i>English</i> or <i>Metric</i> from the drop-down list in the UNIT SYSTEM field.	N/A
10	Type the <i>WBS number</i> in the WBS NUMBER field.	N/A
11	If applicable, type the <i>TIP Number</i> in the TIP 1 field. If there are additional TIP Numbers, type them in the remaining 3 TIP fields (TIP 2, TIP 3 and TIP 4)	N/A
12	Type the <i>federal aid number</i> in the FEDERAL/STATE PROJECT NUMBER field.  NOTE: If the project is state-funded, type STATE FUNDED in this field.	N/A

Continued on Following Page

Adding a Project

(continued)

13	Leave the CONTROLLING PROJECT check box unchecked.	N/A
14	If applicable, select <i>the federal aid prefix</i> from the drop-down list in the FEDERAL AID PREFIX field.	N/A

The **PRIMARY PROJECT COUNTY** and **PRIMARY PROJECT DIVISION** information will be added on the **COUNTIES** and **DIVISIONS** tabs.

The **PROJECT ITEM TOTAL** will be updated after items are added to the project.

15	Type <i>the name of the Quantity Estimator</i> in the QUANTITY ESTIMATOR field. (Format: First Initial Last Name without spaces i.e., JSMITH)	N/A
16	Type <i>the name of the Cost Estimator</i> in the COST ESTIMATOR field. (Format: First Initial Last Name without spaces i.e., JSMITH)	N/A

 **NOTE:** If you don't know who the *Quantity* or *Cost Estimators* are at this time, you will be able to edit these fields later.

17	Select <i>U (Urban)</i> , <i>R (Rural)</i> or <i>None</i> from the drop-down list in the URBAN/RURAL field.  NOTE: Leaving this field blank is equal to selecting <i>None</i> .	N/A
18	Type <i>the route number</i> in the ROUTE NUMBER field.	N/A
19	Select the <i>type of road</i> from the drop-down list in the TYPE OF ROAD field.	N/A

Continued on Following Page

Adding a Project

(continued)

20	Click the SAVE button in the Header Bar .	The project will be saved. The Project Number and Description will now appear in the Header Bar .
-----------	---	---

Helpful Hint

It is important that you save each time before going to another tab to prevent losing any entered data.

21	On the left side of the page, click on the Counties tab.	The Counties tab will appear.
-----------	---	--------------------------------------

(Add Project Page – Counties Tab)

Counties Tab

22	Click the NEW button.	A row will appear for the County.
23	Start typing <i>the County</i> in the COUNTY ID field	The county will appear in the result list.
24	Click on <i>the county in the result list</i> to select it.	The selected County will appear in the COUNTY ID field.

Continued on Following Page

Adding a Project

(continued)

25	Type <i>the percentage of the project that will be executed in the selected county</i> in the PCT field.	N/A
-----------	---	-----

If you have multiple counties, the sum of the percentages in the **PCT** fields should equal 100%

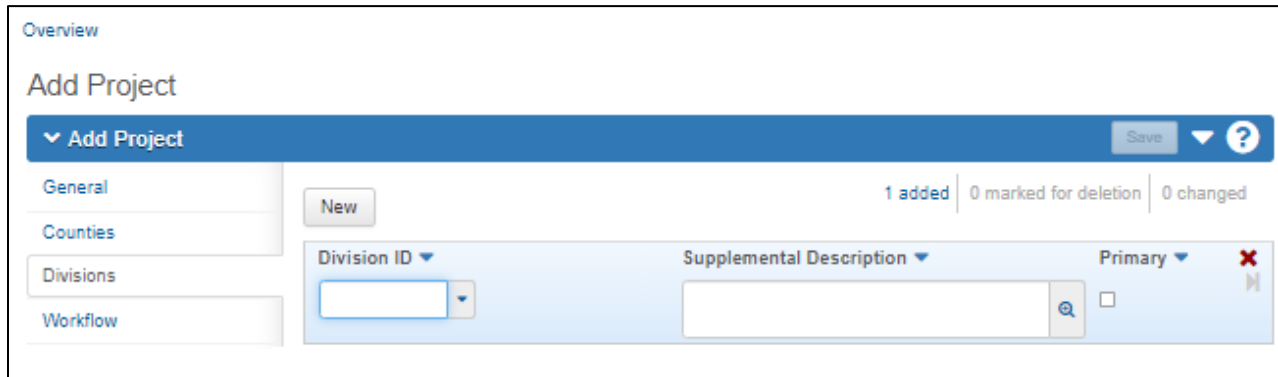

Repeat steps **22-25** for each county in which the project will be executed.

If you have more than one county, check the **PRIMARY** check box to indicate the primary county the project will be executed in.

26	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
-----------	---	--

Divisions Tab

27	On the left side of the page, click on the <i>Divisions</i> tab.	The Divisions tab will appear.
-----------	--	---------------------------------------

(Add Project Page – Divisions Tab)

28	Click the NEW button.	A row will appear for the Division .
-----------	------------------------------	---

Continued on Following Page

Adding a Project

(continued)

29	Click in the DIVISION ID field and press Enter . You can also start typing in this field and the results will auto filter in the drop-down.	A drop-down list of divisions will appear.
30	Select <i>the division</i> from the list.	The selected Division will appear in the DIVISION ID field.
31	Leave the SUPPLEMENTAL DESCRIPTION field blank. No additional description is needed.	N/A

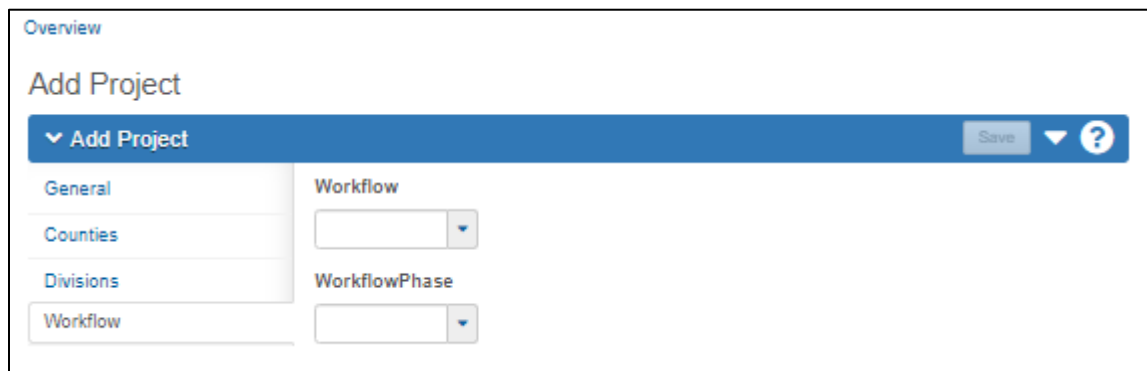

Repeat steps **28-31** for each division in which the project will be executed.

If you have more than one division, check the **PRIMARY** check box to indicate the division that will be managing the construction of the project.

32	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
----	---	--

Workflow Tab

33	On the left side of the page, click on the <i>Workflow</i> tab.	The Workflow tab will appear.
----	---	--------------------------------------

(Add Project Page – Workflow Tab)

Continued on Following Page

Adding a Project

(continued)

34	Select <i>NCDOT – Division Workflow</i> from the drop-down list in the WORKFLOW field.	Your selection will appear in the WORKFLOW field.
35	Select <i>DLADM</i> from the drop-down list in the WORKFLOW PHASE field.	Your selection will appear in the WORKFLOW PHASE field.
36	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

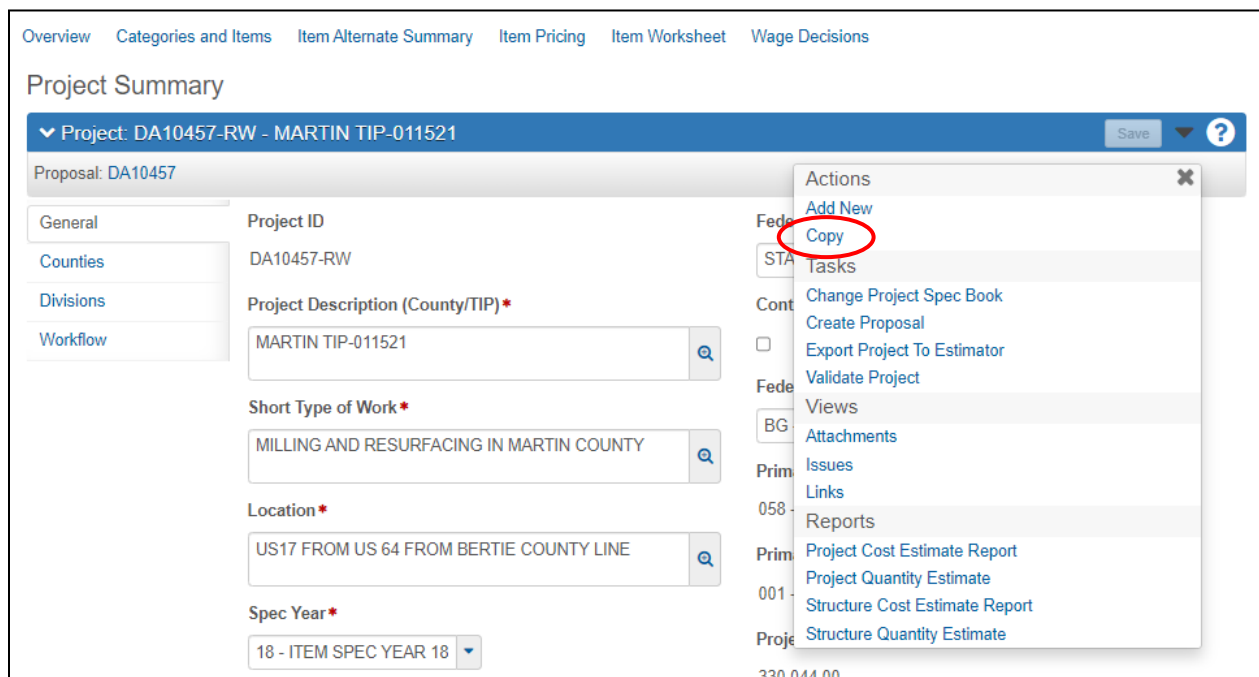

Copying a Project

When you have created one project (Roadway) for a proposal you will be able to copy the project and change the applicable information for the other sections (Structure/etc.).

You will also be able to copy any project if you are creating one that is similar in the future.

NOTE: If you have a culvert, wall, or bridge on your project, you must create a **RW** and a **ST** project.

From within a project, on the **Project Summary** page:

(Project Summary Page)

Step	Action	Result
1	From the drop-down arrow at the right side of the Header Bar select COPY .	The Copy Project window will appear.

Continued on Following Page

Copying a Project

(continued)

Overview

Copy Project

▼ Copy Project: DA10457-RW

3	Click the NEW button.	Category input fields will appear.
4	Type a 4-digit number in the CATEGORY ID field. Begin at 0001.	N/A
5	Type ROADWAY ITEMS in the CATEGORY DESCRIPTION field.	N/A
6	Select 0001 from the drop-down list in the PROPOSAL SECTION NUMBER field.	N/A

The value in the **PROPOSAL SECTION NUMBER** field, controls which fields will appear on the right side of the page.

7	Select RW from the drop-down list in the FEDERAL CONSTRUCTION CLASS field.	N/A
----------	--	-----

Continued on Following Page

Categories

(continued)

8	Select <i>RWI</i> from the drop-down list in the ROADWAY STRUCTURE ID field.	N/A
9	If applicable, select <i>the Major Federal Work Code</i> from the drop-down list in the MAJOR FEDERAL WORK CODE field.	N/A

 **NOTE:** The **MAJOR FEDERAL WORK CODE** field is used only for federally funded projects.

10	Leave the COMBINE LIKE CATEGORIES check box checked.	N/A
11	If applicable, select <i>Y</i> or <i>N</i> from the drop-down list in the CONSULTANT INDICATOR field.	N/A
12	Select <i>the Primary County</i> from the drop-down list in the PRIMARY COUNTY CODE field.	N/A

Helpful Hint

The following 3 fields (**steps 13-15**) are required for correct reporting of construction lane miles.

13	Select <i>the cross-section code</i> from the drop-down list in the CROSS SECTION CODE field.	N/A
14	Type <i>the roadway length in miles or km (not including length of structure)</i> in the LENGTH ALONG THE PROJECT (MILES/KILOMETERS) field.	N/A
15	Type the number of lanes in the NUMBER OF LANES field.	N/A
16	Once you have entered all information for this category, click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Continued on Following Page

Categories

(continued)

NOTE: If there is more than one structure on the project, a category will need to be set up for each structure.

Adding a Structure Category

From within a project, on the **Project Category and Item Summary** page, **Categories** tab:

Step	Action	Result
3	Click the NEW button.	Category input fields will appear.
4	Type a 4-digit number in the CATEGORY ID field. Begin at 0001.	N/A
5	Type STRUCTURE ITEMS in the CATEGORY DESCRIPTION field.	N/A
6	Select 0004 from the drop-down list in the PROPOSAL SECTION NUMBER field.	N/A

The value in the **PROPOSAL SECTION NUMBER** field, controls which fields will appear on the right side of the page.

7	Select ST from the drop-down list in the FEDERAL CONSTRUCTION CLASS field.	N/A
8	Select BR01 from the drop-down list in the ROADWAY STRUCTURE ID field. NOTE: Multiple bridges in the same project should be numbered sequentially. (BR01, BR02, BR03...)	N/A

NOTE: If part of the structure contains non-participating items, you will need to create a second Structure category.

In this category, the value in the **MAJOR FEDERAL WORK TYPE CODE** field should be **NP**.

The value in the **ROADWAY/STRUCTURE ID** field should remain the same as the original.

3	Click the FILL LIST button.	The project number will appear in the list next to each WBS number.
----------	------------------------------------	---

For projects with multiple WBS numbers, an ordinal letter suffix (beginning with A and ending with Z) will appear after the numeric portion of the project number.

If the contract has more than 26 WBS numbers, the last digit of the contract number will increment by one and the ordinal letter suffix starts over with A.

4	If you need to edit the project number, select the project from the list. The project information will appear in the fields at the bottom of the popup where it can be edited.	N/A
5	To generate the Import File, click the GENERATE IMPORT FILE button at the bottom of the popup.	A dialog will appear that will prompt you to save the file in a specific location.

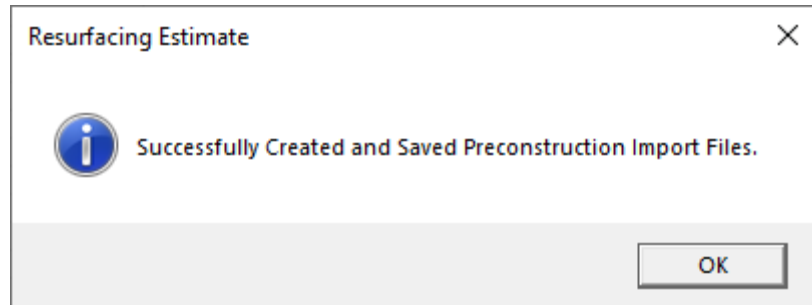

6	Select <i>the directory where you want to save the file</i> , then click the OK button.	The following message will appear.
----------	--	------------------------------------

Continued on Following Page

Exporting the Preconstruction File (from NC Resurfacing Estimate)

(continued)

A separate file will be created for each project in the estimate.

The files will be named **[Estimate File Name]_[WBS].xml**

NOTE: Because many types of payitems are combined, it is important to put extra emphasis on labeling all Generic Payitems with **Generic** clearly visible in the item description.

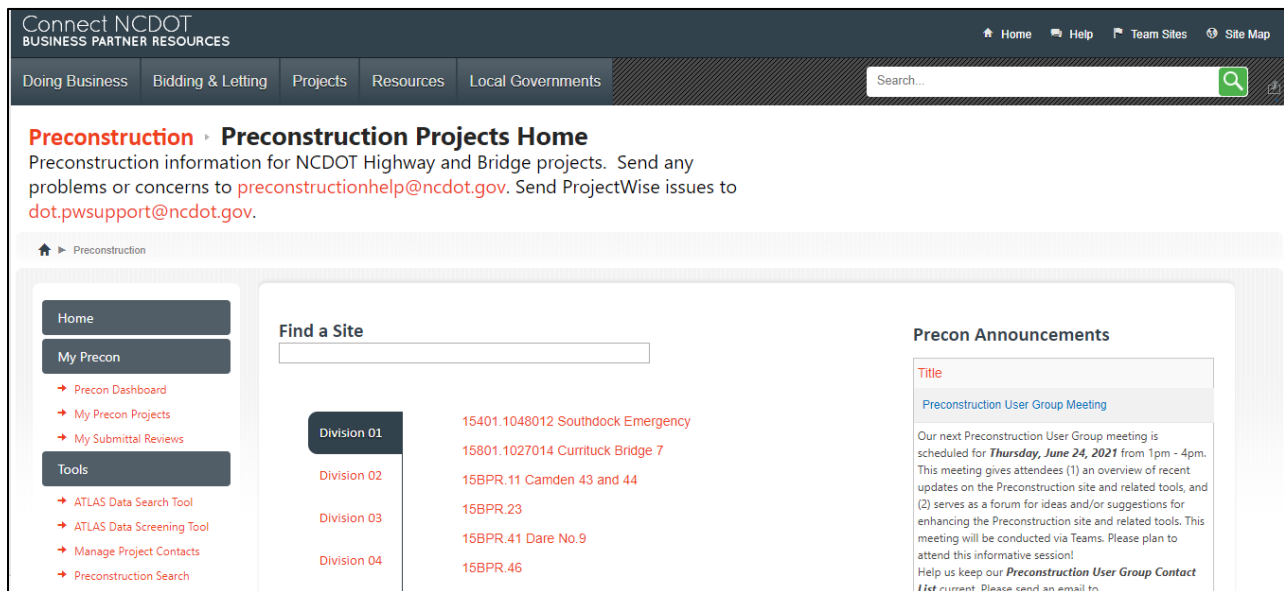

Exporting the Preconstruction File (from the PIQ Tool)

The Private Engineering Firms enter quantities and items using the **Pay Items and Quantities (PIQ)** tool.

You will be able to use this tool to export the preconstruction file for any projects that exist there.

To access the **PIQ** tool:

Step	Action	Result
1	In the address bar of your web browser, type CONNECT.NCDOT.GOV/SITE/PRECONSTRUCTION/PAGES/DEFAULT.ASPX and press  .	The following page will appear.

(Preconstruction Projects Home Page)

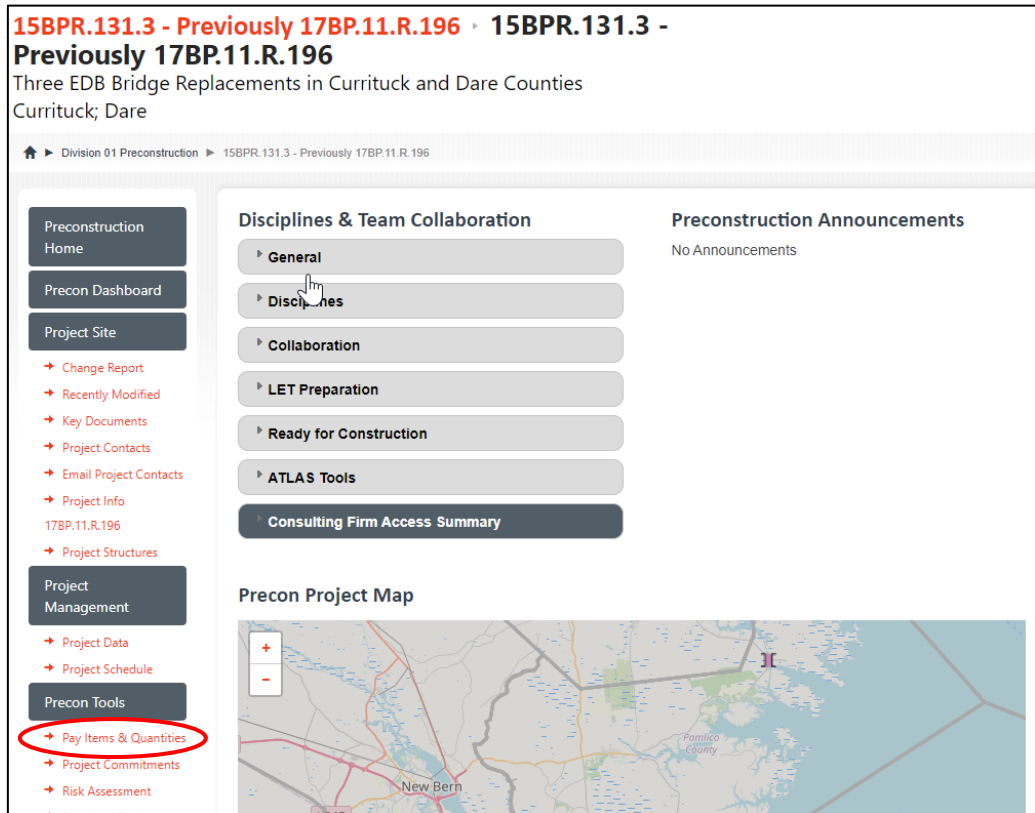

2	In the FIND A SITE field, type the TIP or WBS number. As soon as you start typing in this field the results will auto filter in the drop-down.	N/A
---	--	-----

Exporting the Preconstruction File (from the PIQ Tool)

(continued)

Export Pay Items and Quantities for 15BPR.131.3 - Previously 17BP.11.R.196

IMPORTANT: The letting administrator may choose to lock "all but structures" or "structures" when exporting the XML files to transition the work to AWP. Once locked in Preconstruction, any future updates to pay items & quantities for those disciplines must be handled in AWP.

Future Contract#:

Project Description:

County:

Division:

Discipline:

Export all non-Structures items as Roadway

If multiple WBS values will be associated with this contract, even if some are coming from another Preconstruction project site or a Resurfacing project, check here to ensure the output files are named correctly.

Check here, if you wish to override the WBS Suffix at the time of XML Export.

Generate XML Export
Save and Exit
Cancel

Questions or concerns about using this tool or the output files it generates. Contact Preconstructionhelp@ncdot.gov for assistance.

(Export Pay Items and Quantities Page)

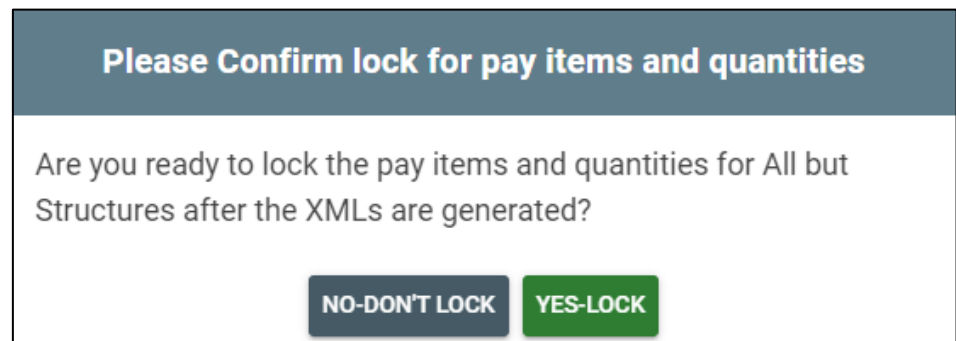

6	In the FUTURE CONTRACT# field, type <i>the contract number the items need to be exported to</i> .	N/A
7	In the DISCIPLINE field, you will be able to select <i>All but Structures</i> or <i>Structures</i> .	N/A

Continued on Following Page

Exporting the Preconstruction File (from the PIQ Tool)

(continued)

8	<p>If you want all items not in the Structures category to be exported as Roadway items, make sure the EXPORT ALL NON-STRUCTURES ITEMS AS ROADWAY check box is checked.</p> <p> NOTE: Division projects should only be using Roadway and Structure Items.</p>	N/A
9	<p>If the project contains multiple WBS numbers, make sure the IF MULTIPLE WBS VALUES WILL BE ASSOCIATED WITH THIS CONTRACT, EVEN IF SOME ARE COMING FROM ANOTHER PRECONSTRUCTION PROJECT SITE OR A RESURFACING PROJECT, CHECK HERE TO ENSURE THE OUTPUT FILES ARE NAMED CORRECTLY. check box is checked.</p>	N/A
10	<p>Click the GENERATE XML EXPORT button.</p>	<p>The following dialog will appear.</p>

Once the files are imported into AASHTOWare Project, it becomes the system of record, and all updates should be handled there.

Locking prevents having updates in 2 different systems.

11	<p>Click the YES-LOCK button.</p>	<p>The file(s) will be created in your download folder.</p>
----	--	---

Continued on Following Page

Exporting the Preconstruction File (from the PIQ Tool)

(continued)

If everything has been entered correctly, if there are multiple WBS numbers, multiple export files with the correct A, B, C... suffix should be created. They will be saved to your **DOWNLOADS** folder.

The file(s) will be in the format that AWP needs for the import. They won't need to be opened.

File Export Troubleshooting (PIQ Tool)

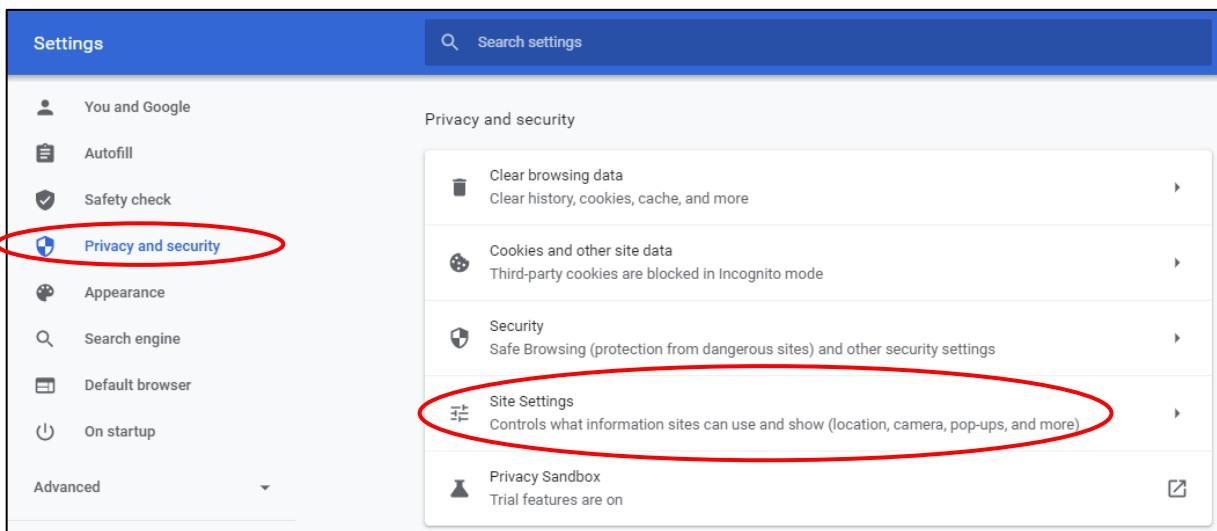

What if only one XML export file downloads?

If only one file downloads when multiple were expected, you will have to make a one-time setting change in your browser to permit multiple downloads without prompting in between.

You will need to tell your browser to trust the site: **connect.ncdot.gov** to download files to your computer.

In the Chrome browser, follow these steps:

Step	Action	Result
1	In the top, right corner of the browser, click the three vertical dots. 	The list of options will appear.
2	Select Settings from the list.	The Chrome Settings page will appear.
3	From the list of options on the left side of the page, select PRIVACY AND SECURITY .	N/A

4	From the list of options that appears, select SITE SETTINGS .	N/A
---	--	-----

You will be able to add/edit items from this page.

Adding Items to a Project Manually

From within a project, on the **Project Summary** page:

The screenshot shows the 'Project Summary' page for project 'DA10457-RW - MARTIN TIP-011521'. The navigation bar at the top includes 'Overview', 'Categories and Items', 'Item Alternate Summary', 'Item Pricing', 'Item Worksheet' (circled in red), and 'Wage Decisions'. The page content is organized into a sidebar with 'General', 'Counties', 'Divisions', and 'Workflow' tabs. The main area contains several form fields: 'Project ID' (DA10457-RW), 'Project Description (County/TIP)*' (MARTIN TIP-011521), 'Short Type of Work*' (MILLING AND RESURFACING IN MARTIN COUNTY), 'Location*' (US17 FROM US 64 FROM BERTIE COUNTY LINE), and 'Spec Year*' (18 - ITEM SPEC YEAR 18). On the right side, there are fields for 'Federal/State Project Number*' (STATE FUNDED), 'Controlling Project' (checkbox), 'Federal Aid Prefix' (BG - BUILD GRANT), 'Primary Project County ID' (058 - MARTIN), 'Primary Project Division ID' (001 - DIVISION 1), and 'Project Item Total' (330,044.00).

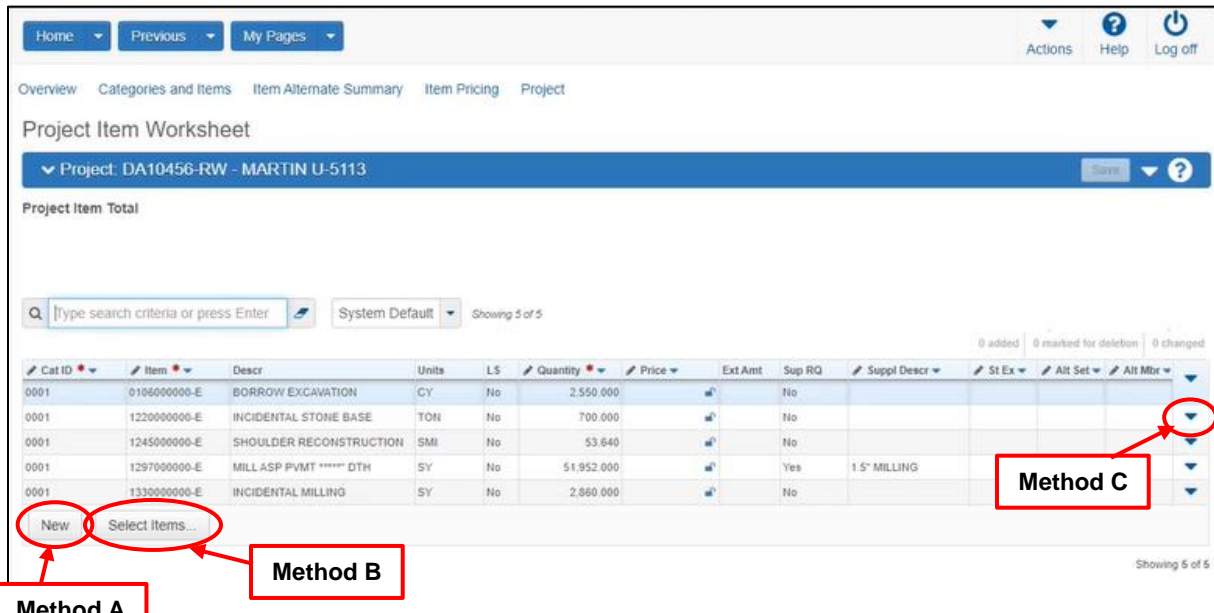

(Project Summary Page)

Step	Action	Result
1	Click the ITEM WORKSHEET Quick Link.	The Project Item Worksheet page will appear.

Continued on Following Page

Adding Items to a Project Manually

(continued)

(Project Item Worksheet Page)

At this point there are three ways you can add items. (Steps 2-7)

- A. Clicking the **NEW** button at the bottom of the list.
- B. Clicking the **SELECT ITEMS** button. (from filtered list)
- C. Adding a row and populating information for a single line item.

Use **A & C** for a few items. Use **B** if you are adding many items.

Method A

2	Click the NEW button at the bottom of the page.	A blank row will appear.
----------	--	--------------------------

3	<p>Double-click in the CAT ID field.</p> <p>Press the Enter key.</p>	<p>The SEARCH box will appear.</p> <p>A list of categories will appear.</p>
----------	--	--

Continued on Following Page

Adding Items to a Project Manually

(continued)

4	Click on the <i>category</i> to select it.	The selected category will appear in the CATEGORY ID field.
5	Double-click in the ITEM field.	The SEARCH box will appear.
6	Type <i>all or part of the item name or number</i> in the SEARCH box.	The list of items will auto filter from the criteria typed in the SEARCH box.

📁 **NOTE:** For generic items, include **generic** before your criteria.

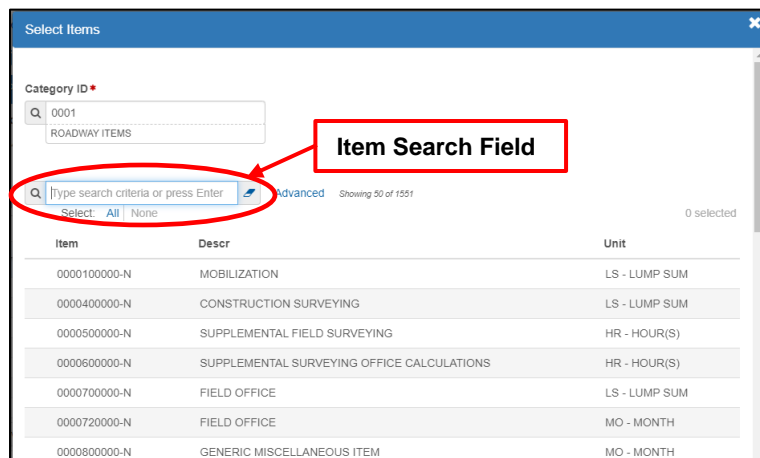

📁 **NOTE:** All **Force Account Items** begin with 9.

7	Click on <i>the row containing the item you wish to select</i> .	The item information will be populated into the remaining fields.
----------	--	---

Method B

Use this method if you have several items to add.

2	Click the SELECT ITEMS button at the bottom of the page.	The Select Items dialog will appear.
----------	---	---

(Select Items Dialog)

Continued on Following Page

Adding Items to a Project Manually

(continued)

3	Click in the CATEGORY ID field.	A list of categories will appear.
4	Click on the <i>category</i> to select it.	The selected category will appear in the CATEGORY ID field.
5	Type <i>all or part of the item name or number</i> in the ITEM SEARCH field.	The list of items will auto filter from the criteria typed in the ITEM SEARCH field.

📁 **NOTE:** For generic items, include **generic** before your criteria.

📁 **NOTE:** All **Force Account Items** begin with 9.

6	Click on the row containing the item you wish to select to the left of the item number.	A green check will appear to the left of the selected item.
----------	---	---

📁 **NOTE:** You may select as many items as are applicable before proceeding.

7	Click the ADD TO PROJECT button.	The item(s) will be added to the project. The QUANTITY field will appear highlighted.
----------	---	---

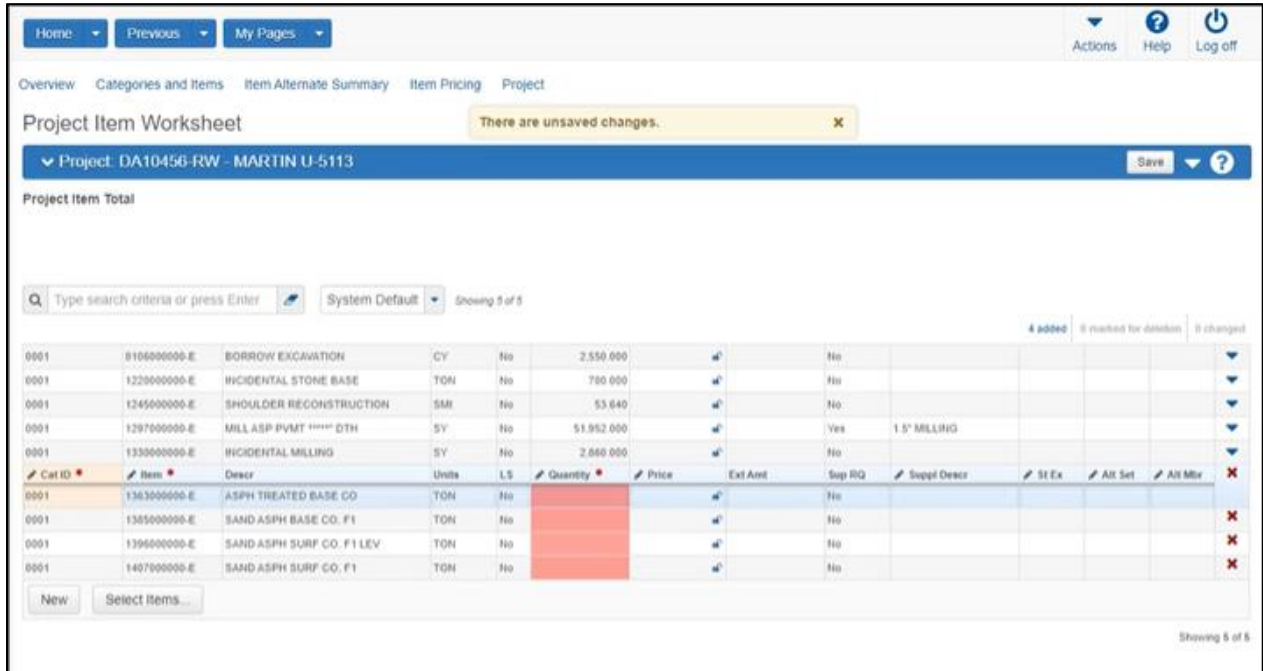

You will have to complete entry for all added items before you can save.

This means that if you have added a large quantity of items at once, you will have to enter all the quantities and supplemental descriptions (if applicable) before saving.

8	<p>Double click in the QUANTITY field or press Enter.</p>	<p>The following popup will appear.</p>

9	<p>Type the <i>quantity of the item</i> in the field provided and press Enter.</p>	<p>The popup will close, and the quantity will appear in the QUANTITY field.</p>
---	---	---

Continued on Following Page

Adding Items to a Project Manually

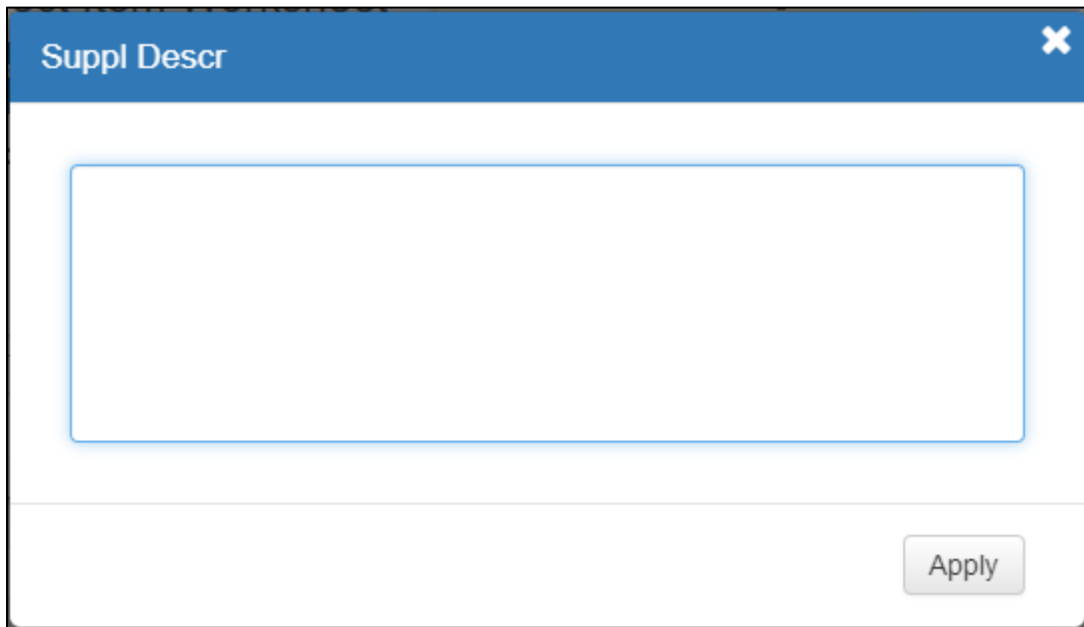

(continued)

Generic, Skeleton (Fill in the Blank), & Force Account Items

If you are adding a generic or force account item, you will also need to fill the **SUPPLEMENTAL DESCRIPTION (SUPPL DESCR)** field.

This is indicated by a **YES** in the **SUP RQ** field.

10	If you are adding a generic item, double-click in the SUPPL DESCR field.	The following popup will appear.
-----------	---	----------------------------------

11	Type <i>the supplemental description of the item</i> in the field. (80 characters)	N/A
-----------	--	-----

Force Account Items

For force account items, this should be in the following format:

MAT \$XX, LAB \$XX, EQUIP \$XX or

XXSF AT \$XX.XX PER SF (or XXM2 AT \$XX.XX PER M2)

i.e., **MAT \$2,500, LAB \$500, EQUIP \$500**

or **12.5M2 AT \$125.27 PER M2.**

Continued on Following Page

Adding Items to a Project Manually

(continued)

12	Click the APPLY button.	The supplemental description will appear in the SUPPL DESCR field.
13	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

 **NOTE:** If you are working on a project with a lot of items, save your edits before loading the next 50 items. With so many items, the system may not be able to keep up with your edits unless you save frequently.

The items will be sorted based on item number.

 **NOTE:** For like items with supplemental descriptions to combine in the proposal and reports, the supplemental descriptions must match exactly. (This includes spaces and punctuation.)

Repeat this procedure to add additional items.

Copying an Item

This procedure is useful when you have Generic or Skeleton items.

You will be able to copy an existing item and change the Supplemental Description.

From within a project, on the **Project Summary** page:

The screenshot shows the 'Project Summary' page with the following details:

Repeat this procedure for any additional items you wish to delete.

If you wish to **Undo** a deletion, you can click the  icon at the end of the deleted row. **You must do this before you save changes.**

4	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
----------	---	--

Editing Item Information

If you do not want to delete an item, you only need to edit it, you will be able to double-click the field you wish to edit and change the value in the field.

Be sure to save your changes before continuing.

Alternate Items

In certain situations, contractors are given the option of selecting between multiple items to bid. The way to indicate this is with the **ALTERNATE CODE** field.

The **Alternate Code** is used to differentiate between groups of alternates and alternates within a group. The first two characters identify the **alternate group**, and the third character identifies the **alternate number**.

For example, to define two items as alternates for one another, the user would enter **AA1** in the **ALT CODE** field for the first item and **AA2** in the **ALT CODE** field for the second item. The fact that both codes begin with **AA** indicates that a bidder should choose among them.

If a contractor is allowed to choose between 3 different items, for each **ITEM NUMBER**, the **ALTERNATE CODE** fields need to be filled with codes **XX1**, **XX2**, and **XX3**.

Item Number Example (Single)	Alternate Code Example
0312000000-E	AA1
0315000000-E	AA2
Item Number Example (Group)	Alternate Code Example
0315000000-E	AB1
0316000000-E	AB1
0376000000-E	AB2
0377000000-E	AB2

If the project contains **Alternate Items**, they will need to be set up.

From within a project, on the **Project Summary** page:

Continued on Following Page

Alternate Items

(continued)

Step	Action	Result
1	Click the CATEGORIES AND ITEMS quick link.	The Project Category and Item Summary page will appear.

The screenshot shows the 'Project Category and Item Summary' page for project 'DA10457-RW - MARTIN TIP-011521'. The left sidebar has tabs for 'General', 'Categories', 'Item Alternate Sets' (circled in red), and 'Items'. The main content area is divided into two columns. The left column contains fields for Project ID (DA10457-RW), Project Description (County/TIP) (MARTIN TIP-011521), Short Type of Work (MILLING AND RESURFACING IN MARTIN COUNTY), Location (US17 FROM US 64 FROM BERTIE COUNTY LINE), Spec Year (18 - ITEM SPEC YEAR 18), Unit System (English), and WBS Number. The right column contains fields for Federal/State Project Number (STATE FUNDED), Controlling Project (checkbox), Federal Aid Prefix (BG - BUILD GRANT), Primary Project County ID (058 - MARTIN), Primary Project Division ID (001 - DIVISION 1), Project Item Total (330,044.00), and Quantity Estimator (MBOLAND).

(Project Category and Item Summary Page – General Tab)

2	Click the Item Alternate Sets tab.	The Item Alternate Sets tab will appear.
---	---	---

Partial TIP Number	List of proposals that are associated with a TIP that contains the criteria
County / Partial County	List of proposals associated with the county

3	Click on the PROPOSAL NUMBER you wish to open.	The proposal will open.
---	---	-------------------------

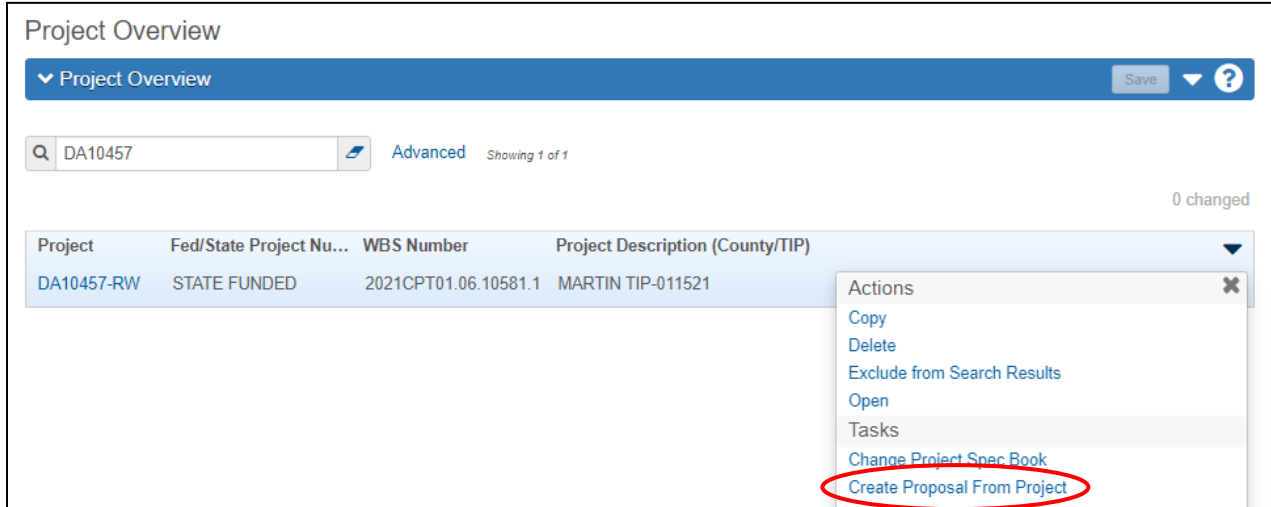

Creating a Proposal From a Project

IMPORTANT

We only recommend doing this process only if you have one WBS number.

Follow the procedure for **Finding a Project** on **Page 2-14**.

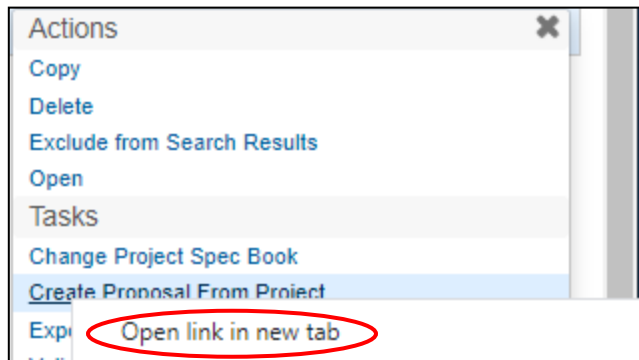

From the *Project Overview* page:

Step	Action	Result
1	From the drop-down arrow at the right side of the project you are creating the proposal from select CREATE PROPOSAL FROM PROJECT .	The Create Proposal From Project page will appear.

Helpful Hint

Instead of selecting **CREATE PROPOSAL FROM PROJECT**, right-click on it and select **OPEN LINK IN NEW TAB**. This way, you will be able to copy and paste information from one tab to the other.

Continued on Following Page

Creating a Proposal From a Project

(continued)

(Create Proposal From Project Page)

2	<p>The number of the project you have just copied will appear in the PROPOSAL ID field.</p> <p>Overwrite all or part of this number with <i>the number of the proposal you are creating</i> from this project.</p>	N/A
---	---	-----

NOTE: Remember to remove the **-ST** or **-RW** suffix.

Continued on Following Page

Creating a Proposal From a Project

(continued)

On the **General** tab, information from the project will be carried over into the following fields. You will be able to change them.

COUNTY, TIP

PRIMARY COUNTY

PRIMARY DIVISION

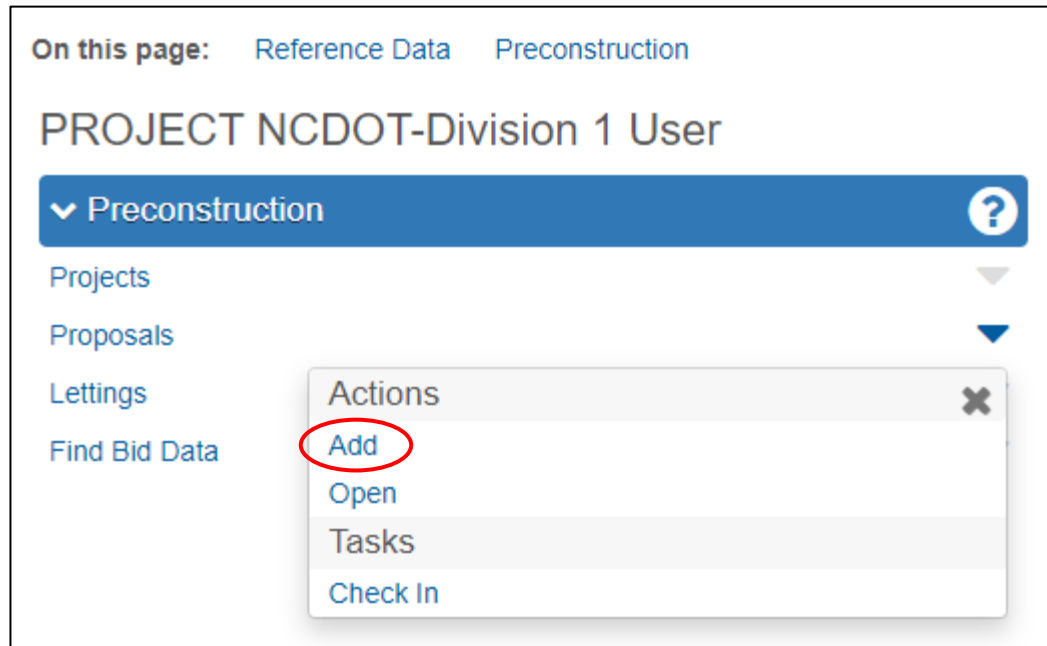

For instructions on completing all fields beginning with the **General** tab, consult the procedure beginning on **Page 4-6**.

3	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
---	---	--

Adding a Proposal

Once all line items and quantities have been completely entered, you must create a proposal. Once a proposal is built, it will be ready for final check, final cost estimation, and entering of contract times.

From the *AASHTOWare Project Dashboard*:

(Preconstruction Menu)

Step	Action	Result
1	In the Preconstruction section, click the drop-down arrow to the right of PROPOSALS . 📁 NOTE: You can also perform this step from the Proposal Overview Page shown on Page 4-1 .	A menu will appear.
2	Click ADD .	The Add Proposal page will appear.

(continued)

11	Leave the REJECTED check box unchecked.	N/A
12	If applicable, type the <i>previous contract number</i> in the PREVIOUS ID field.	N/A
13	Select the <i>primary county</i> from the drop-down list in the PRIMARY COUNTY field.	N/A
14	Select the <i>primary division</i> from the drop-down list in the PRIMARY DIVISION field.	N/A

Cluster Indicator

Whenever proposals are clustered for bidding, the projects involved will be copied and the additional suffix “C” appended to the project number (e.g., D00001-RWC).

The cluster indicator is four characters long. The first two characters will identify the cluster group. The last two characters identify the entire cluster sequence (00) or indicate the individual proposals sequentially (beginning with 01).

Cluster Indicator for entire cluster sequence:

XX00

Cluster Indicator for individual proposal within cluster:

XX01

NOTE: Once a clustered proposal has been created, any changes to the information in individual projects will also have to be made in the corresponding projects that make up the clustered proposal.

15	If the proposal is part of a cluster, type <i>the cluster indicator</i> in the CLUSTER INDICATOR field.	N/A
-----------	--	-----

(continued)

 **Helpful Hint**

Once this section is complete, it is helpful to go to **Pricing Items** on **Page 4-30** to check for the following:

- Make sure no items are listed outside of a section.
- Check all **LS** items to make sure they rolled up together, so quantity equals 1.00.
- Check all generic and skeleton (fill in the blank) items to make sure they combined properly. (If not, correct the supplemental descriptions to match exactly.)

Contract Times

36	Click the PROPOSAL Quick Link at the top of the window.	The Proposal Summary window will appear.
37	On the left side of the page, click on the Time tab.	The Time tab will appear.

 **Helpful Hint**

Refer to **Appendix A - Contract Times** on **Page A-1** for a list of contract times.

38	Click the NEW button.	A set of fields will appear.
-----------	------------------------------	------------------------------

The projects from the copied proposal have not been copied.

You will be able to add projects here.

From here, check and correct proposal data by following the steps in **Adding a Proposal on Page 4-5**.

If you wish to copy a proposal that is linked to a **Letting**, you must first unlink it from the **Letting** before it can be copied.

The procedures for **Unlinking a Proposal From a Letting** are on **Page 5-8**.

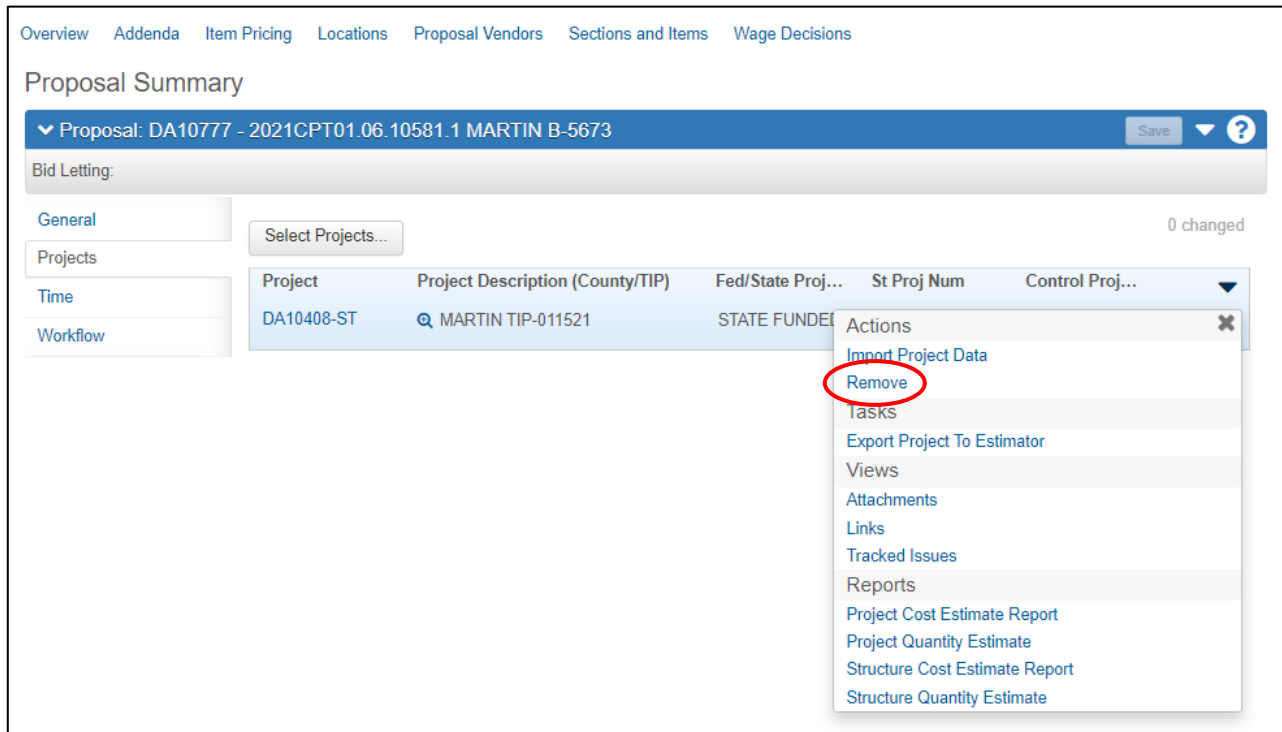

After that you will be able to re-link the correct proposal to the letting (**Linking Proposals to the Letting on Page 5-4**) and if necessary, delete the extraneous proposal (**Deleting a Proposal on Page 4-35**).

Removing a Project from a Proposal

If a project has been added by mistake, you can disconnect it from the proposal by doing the following:

Follow the procedure for **Finding a Proposal** on **Page 4-1**.

From the *Proposal Summary* page:

Step	Action	Result
1	Click the drop-down arrow on the right side of the project.	A drop-down menu will appear.
2	Select, REMOVE .	A <i>Save Complete</i> message will appear above the Header Bar .

This will disassociate the selected project from the proposal.

Pricing Items

From the *AASHTOWare Project Dashboard*:

Manual Pricing

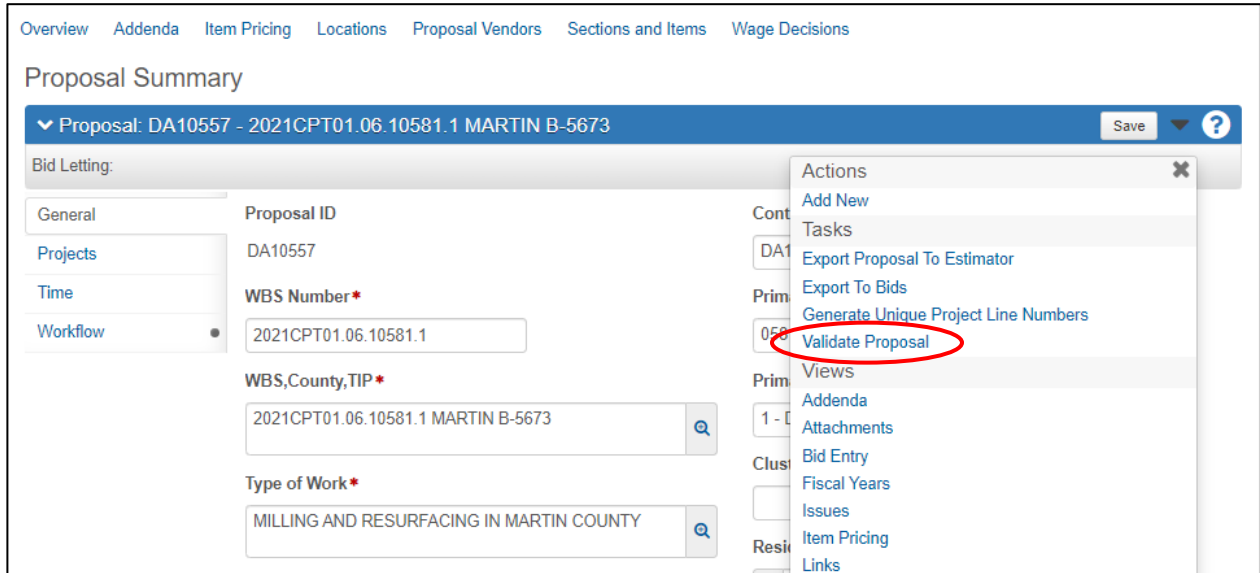

5	Expand the first proposal section by clicking the  arrow to the left of the ID field.	The list of items in the section will appear.
6	If there are empty price fields, type <i>the price for the item</i> in the PRICE field. Repeat for each remaining item.	The EXT AMT field will be calculated.

If the proposal contains multiple sections, repeat steps 5 and 6 for each section.

7	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
---	---	--

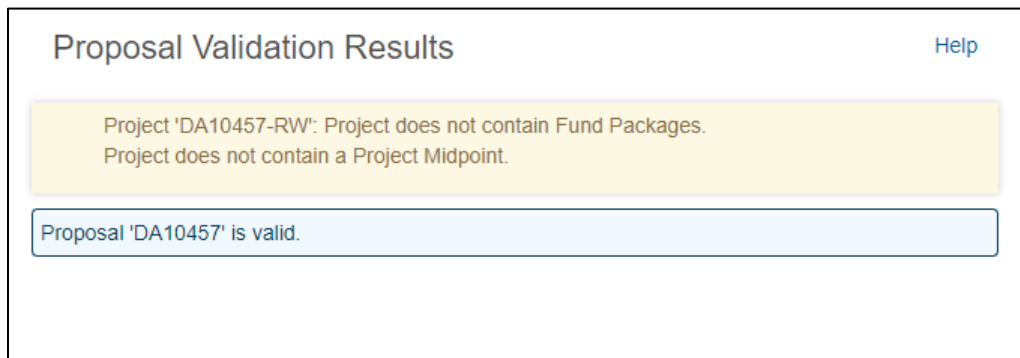

Validating a Proposal

From within a proposal, on the **Proposal Summary** page:

(Proposal Summary Page)

Step	Action	Result
1	From the drop-down arrow at the right side of the Header Bar select Validate Proposal .	The Proposal Validation Results popup will appear.

(Proposal Validation Results Popup)

Continued on Following Page

Validating a Proposal

(continued)

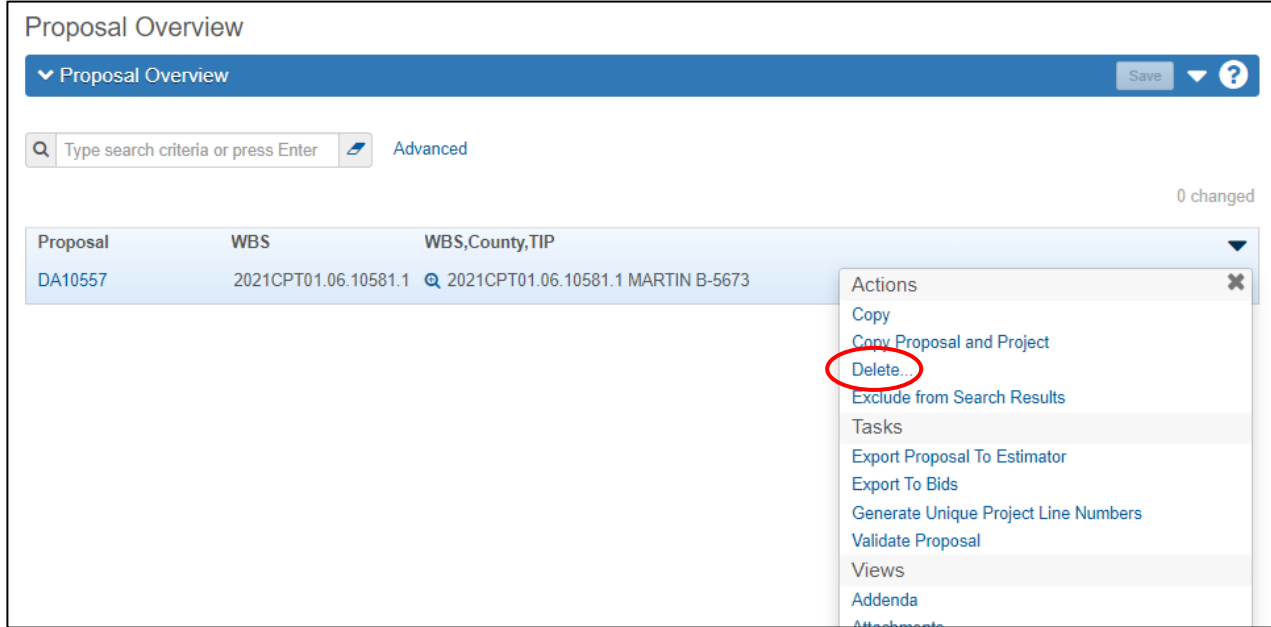

Proposal Validation has run, and the proposal has been checked for errors. Any errors that are found will be displayed in this popup.

The following types of messages can be ignored:

- Project Midpoint
 - Fund Packages – We use WBS numbers.
-

Deleting a Proposal

From the **Proposal Overview** page:

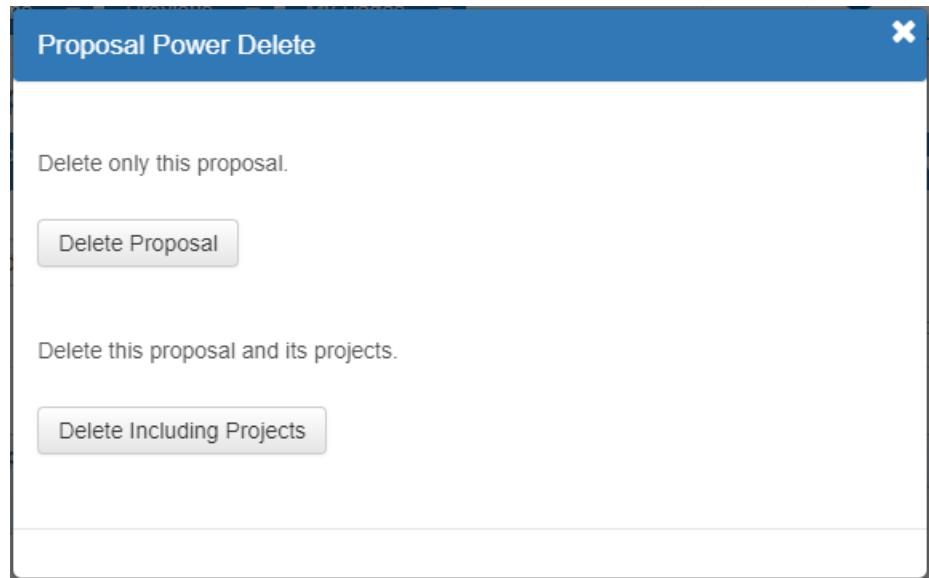

(Proposal Overview Page)

Step	Action	Result
1	From the drop-down arrow at the right side of the <i>proposal you wish to delete</i> select DELETE .	The Proposal Power Delete dialog will appear.

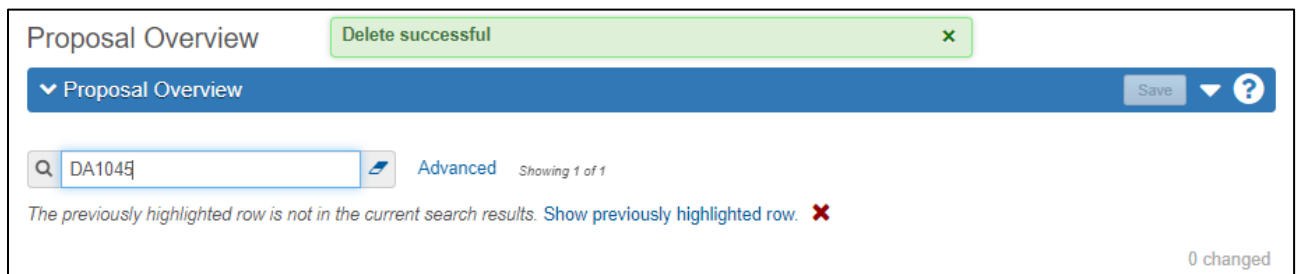

Continued on Following Page

Deleting a Proposal

(continued)

<p>2</p>	<p>If you wish to delete only the proposal, click the DELETE PROPOSAL button.</p> <p>If you wish to delete the proposal and all projects associated with it, click the DELETE INCLUDING PROJECTS button.</p>	<p>The proposal will be removed from the list and a <i>Delete Successful</i> message will appear above the Header Bar.</p>

6	<p>Type <i>the date one business day before the letting date</i> in the BIDDERS LIST CUTOFF DATE field.</p> <p> NOTE: If you click the CALENDAR button, a popup calendar will allow you to select the date so that it appears in the field.</p>	N/A
7	<p>Type <i>the letting time</i> in the LETTING TIME field.</p> <p> NOTE: Use the format H:MM PM</p> <p style="padding-left: 40px;">For example: 10:00 AM 2:00 PM 1:45 PM</p>	N/A

 **NOTE:** Do not include any extraneous punctuation in the letting time. (NO PERIODS)

8	<p>Select SCHD (Scheduled) from the drop-down list in the LETTING STATUS field.</p>	N/A
9	<p>Click the SAVE button in the Header Bar.</p>	<p>The project will be saved. The Bid Letting Number will now appear in the Header Bar.</p>

Linking Proposals to the Letting

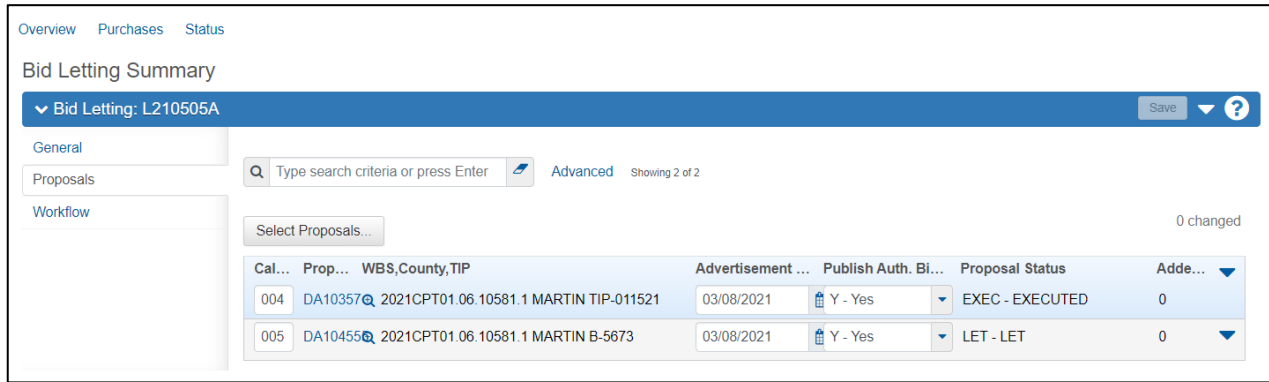

You will select the proposals that will be linked to the letting on this tab.

10	<p>Click on the Proposals tab.</p>	<p>The Proposals tab will appear.</p>
-----------	---	--

Continued on Following Page

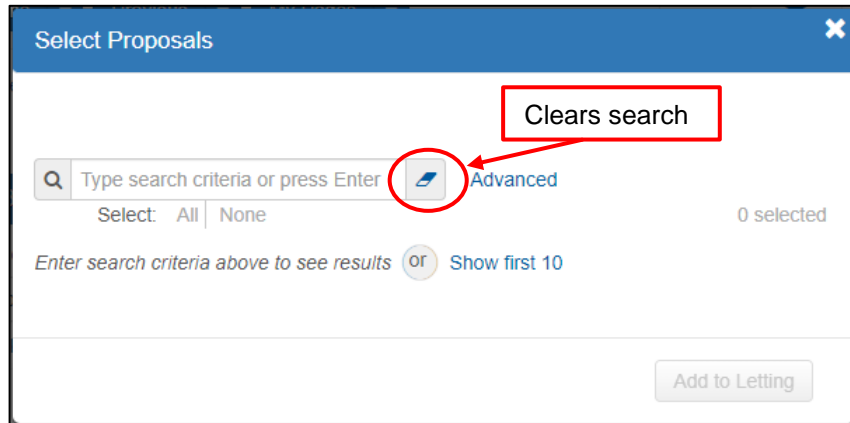

Creating a Letting

(continued)

(Letting Proposals Tab)

11	Click the SELECT PROPOSALS button.	The Select Proposals dialog will appear.
-----------	--	--

12	The search filter requires 3 characters and will continue auto filtering the list as you type. (See Finding a Proposal on Page 4-1 .)	
13	Click on the PROPOSAL NUMBER(S) you wish to add to the letting.	A green check mark will appear to the right of the selected proposal(s).

Continued on Following Page

Creating a Letting

(continued)

14	Click the ADD TO LETTING button.	The proposal(s) will be added to the letting.
-----------	---	---

Repeat steps **11 – 14** until all proposals have been added.

15	Type <i>the call number</i> in the CALL NUMBER field. ☞ NOTE: These numbers will be sequential and will begin at 001 . i.e., 001, 002, 003 , etc.	N/A
-----------	--	-----

At this point you will skip the **PUBLISH AUTH. BIDDERS** and **PROPOSAL STATUS** fields.

You will be editing this field later in the Letting process. The instructions for this are found in **Setting the Publish Authorized Bidders Field** on **Page 9-1**.

Only type a date in the **ADVERTISEMENT DATE** field when the proposal is ready for advertisement. You can also do this from the proposal itself.

16	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
-----------	---	--

If you need to remove a proposal from the letting, follow the procedure for **Unlinking a Proposal From a Letting** on **Page 5-8**.

If you wish to copy a proposal that is linked to a **Letting**, you must first unlink it from the **Letting** before it can be copied.

The procedures for **Copying A Proposal** are on **Page 4-25**.

After that you will be able to re-link the correct proposal to the letting (**Linking Proposals to the Letting** on **Page 5-4**) and if necessary, delete the extraneous proposal (**Deleting a Proposal** on **Page 4-35**).

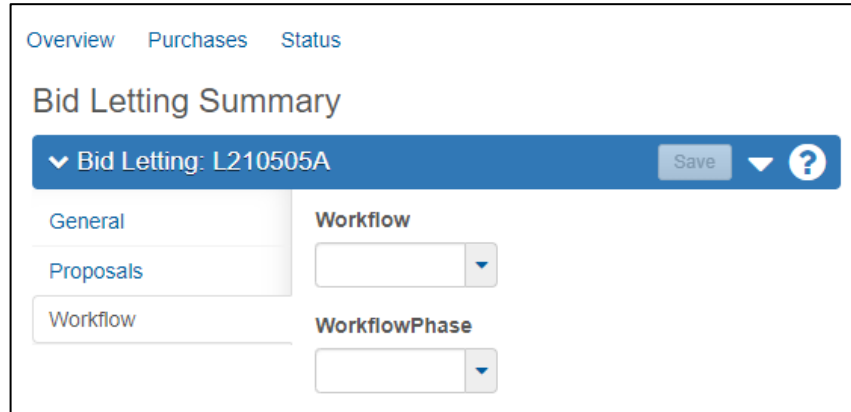

Continued on Following Page

Creating a Letting

(continued)

Workflow Tab

17	Click on the Workflow tab.	The Workflow tab will appear.
-----------	-----------------------------------	--------------------------------------

(Letting Workflow Tab)

18	Select <i>NCDOT – Division Workflow</i> from the drop-down list in the WORKFLOW field.	Your selection will appear in the WORKFLOW field.
19	Select <i>Process Bids</i> from the drop-down list in the WORKFLOW PHASE field.	Your selection will appear in the WORKFLOW PHASE field.
20	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Unlinking a Proposal From a Letting

There may be an occasion when a proposal is pulled to be advertised at a later date. Under these circumstances, you will need to unlink the proposal after it has already been set up and linked to a letting.

To unlink a proposal, do the following:

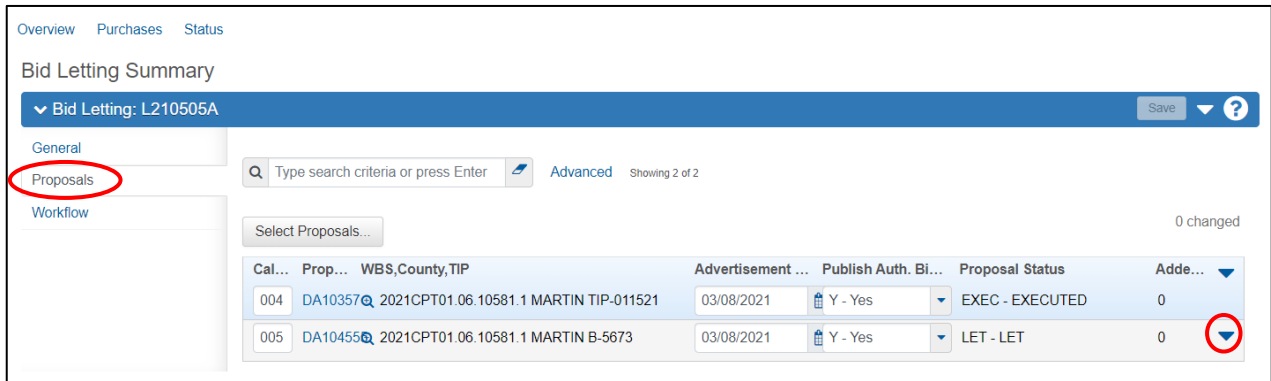

⚠ IMPORTANT!

Please **DO NOT** perform this procedure unless you are certain you wish to unlink a proposal from a letting.

Follow the procedure for **Finding a Letting** on **Page 5-1**.

From the **Bid Letting Summary** page:

Step	Action	Result
1	Click on the Proposals tab.	The Proposals tab will appear.

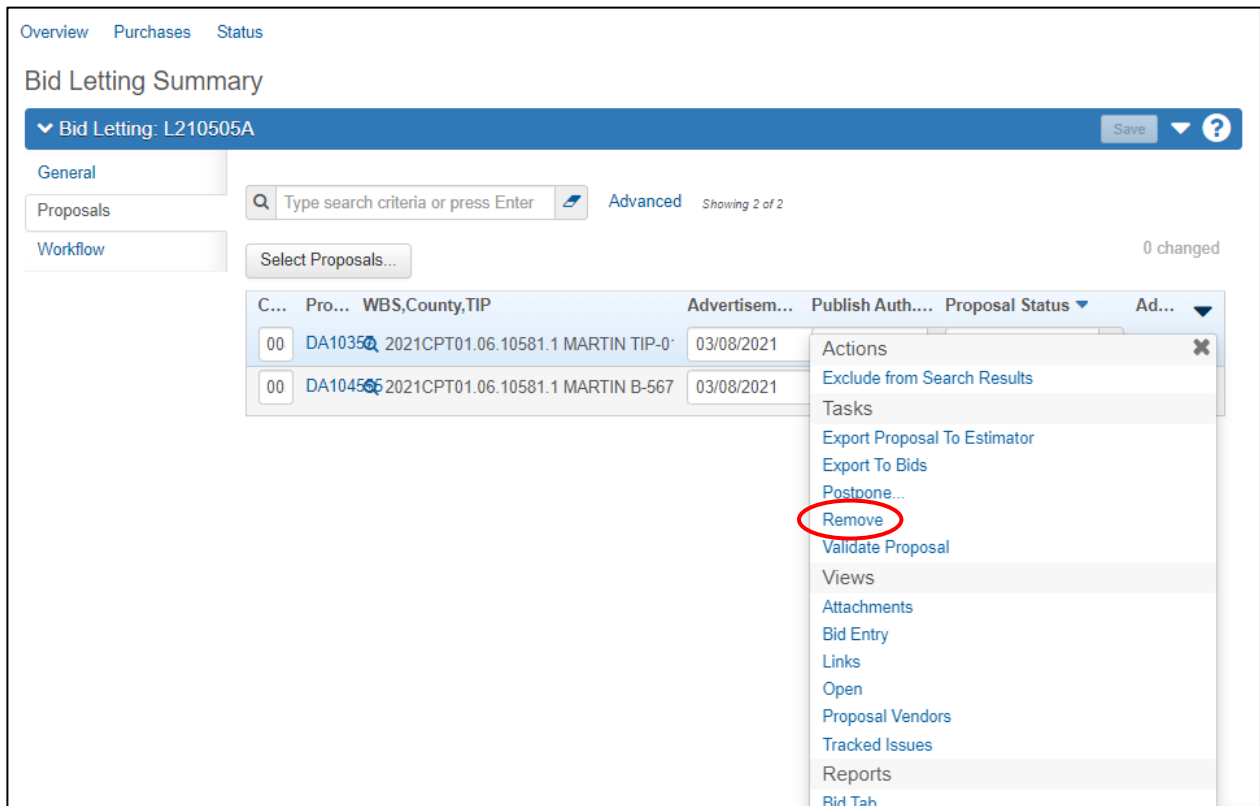

(Bid Letting Summary – Proposals Tab)

2	Click the drop-down arrow to the right of the proposal you wish to unlink.	A menu will appear.
---	--	---------------------

Continued on Following Page

Unlinking a Proposal From a Letting

(continued)

3	Verify that this is the correct proposal, (check the call order number), then select REMOVE from the menu.	The proposal will be removed and placed back in the list of available proposals.
----------	---	--

This process will not actually **delete** the proposal. It will simply remove the selected proposal from the letting list. You will still be able to access the proposal after you run this process.

Chapter 6 Wage Decisions

Finding a Reference Wage Decision

From the *AASHTOWare Project Dashboard*:

Step	Action	Result
1	In the REFERENCE DATA section, click on WAGE DECISIONS .	The Wage Decision Overview page will appear.

The screenshot shows the 'Wage Decisions' page in the AASHTOWare Project Dashboard. At the top, there is a search bar with the placeholder text 'Type search criteria or press Enter'. A red circle highlights this search bar, and a red box labeled 'Search Filter' points to it. Below the search bar, there is a table with the following columns: Decision Num, Constr Type, Issuing Auth, Mod Descr, and Publication Dt. The table contains several rows of data, including decision numbers like BLD_NC20230020 and BLD_NC20230021, construction types like '3 - BUILDING', and various dates. A '0 changed' indicator is visible in the top right corner of the table area.

2	The search filter requires 3 characters and will continue auto filtering the list as you type.
---	--

Criteria	Result
Decision Number	The unique identifier of the Reference Wage Decision Decision Numbers will contain a prefix denoting what construction type they are: HWY Highway BLD Building HVY Heavy
Partial Decision Number	A list of Reference Wage Decisions that contain the criteria
Publication Date	The date the associated record is published or scheduled to be published

Continued on Following Page

7	Click the down arrow on the right side of the craft code you wish to view.	A menu will appear.
8	Select OPEN from the menu.	The Wage Decision Classifications Basic window will appear.

At the bottom of the page, in the **Wage Decision Basic Details** section, all details for the selected craft code will appear.

Viewing a Wage Decision in a Proposal

Follow the procedure for **Finding a Proposal** on **Page 4-1**.

From the *Proposal Summary* page:

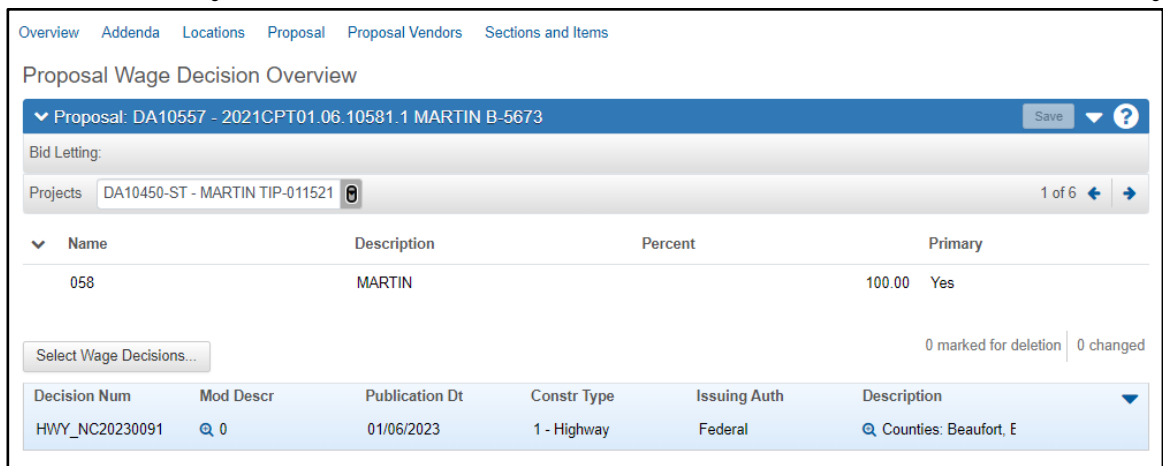

The screenshot shows the 'Proposal Summary' page. At the top, there is a navigation bar with several links: Overview, Addenda, Item Pricing, Locations, Proposal Vendors, Sections and Items, and Wage Decisions. The 'Wage Decisions' link is circled in red. Below the navigation bar, the page title is 'Proposal Summary'. A blue header bar contains the text 'Proposal: DA10557 - 2021CPT01.06.10581.1 MARTIN B-5673' and a 'Save' button. Below this, there is a 'Bid Letting:' section. The main content area is divided into two columns. The left column has a sidebar with tabs: General, Projects, Time, and Workflow. The right column contains various form fields: Proposal ID (DA10557), Contract ID (DA10557), WBS Number (2021CPT01.06.10581.1), Primary County (058 - MARTIN), WBS, County, TIP (2021CPT01.06.10581.1 MARTIN B-5673), Primary Division (1 - DIVISION 1), Type of Work (MILLING AND RESURFACING IN MARTIN COUNTY), Cluster Indicator, Location (US 17 FROM US 64 FROM BERTIE COUNTY LINE), Resident Engineer (Begin typing to search or press Enter), Proposal Item Total (330,044.00), Goal Type (DBE - DISADVANTAGED BUSINESS ENTERPRISE), Route Type (USR - US ROUTE), and Goal Percent.

Step	Action	Result
1	Click the WAGE DECISIONS link at the top of the window.	The Proposal Wage Decision Overview page will appear.

Continued on Following Page

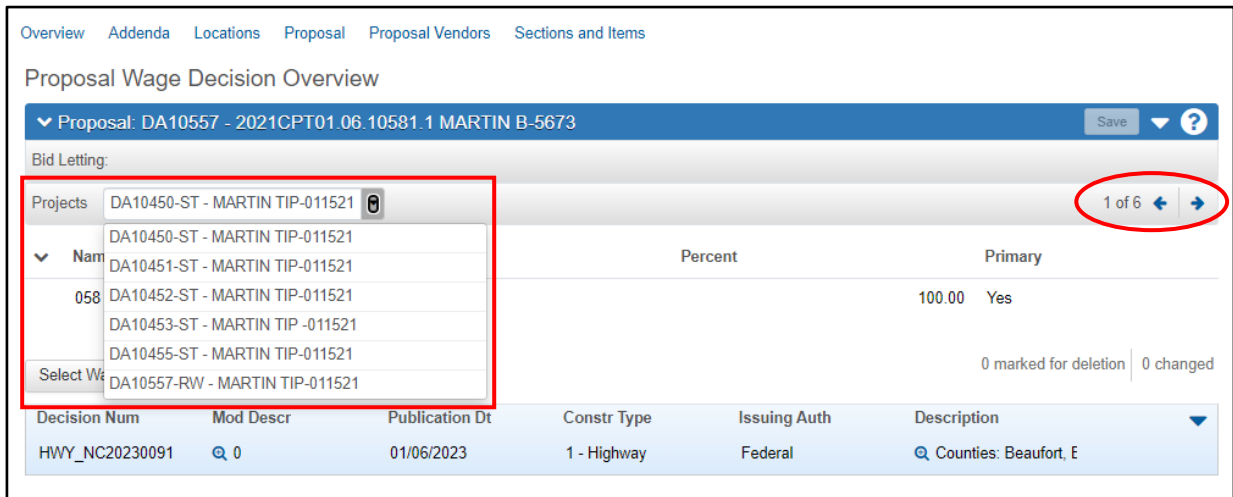

Viewing a Wage Decision in a Proposal

(continued)

The wage decisions have been added to every project in the proposal.

You will be able to view each project from the **PROJECTS** drop-down list or by clicking the navigation arrows.

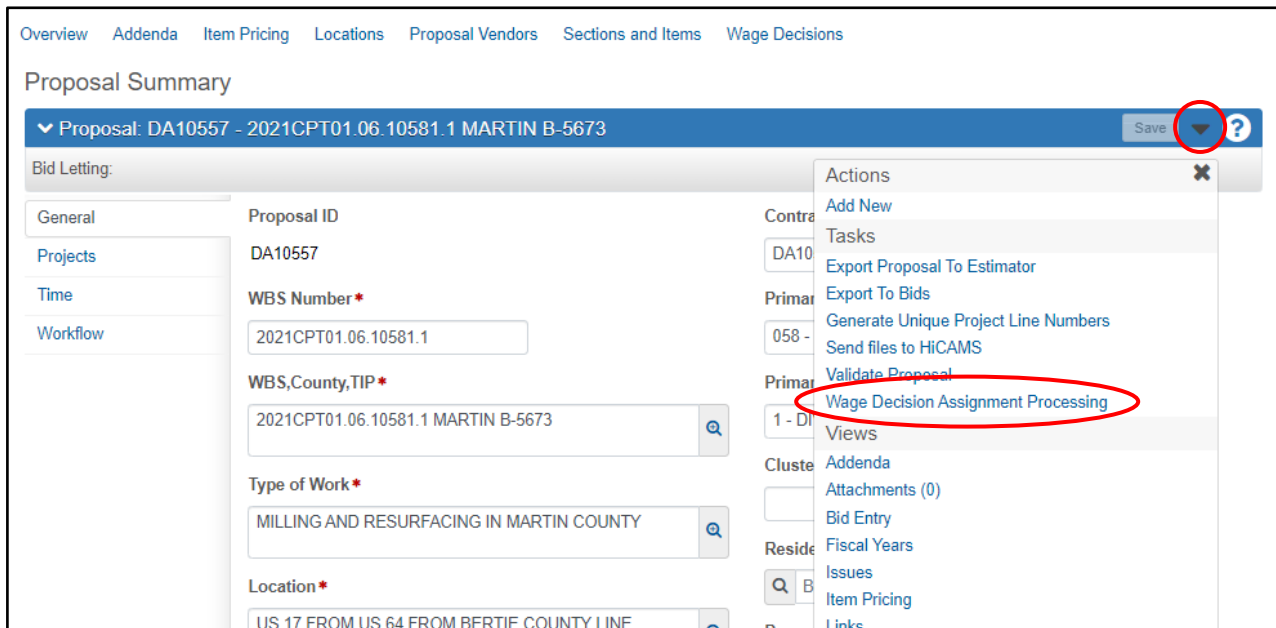

Assigning a Wage Decision to a Proposal/Project from the Proposal

In order to assign a wage decision to a proposal:

- The proposal must have at least one project with at least one County assigned to it.
- The Letting Date must be later than the Wage Decision Date.

Follow the procedure for **Finding a Proposal** on **Page 4-1**.

From the *Proposal Summary* page:

Step	Action	Result
1	Click the down arrow on the right side of the Title Bar.	A drop-down menu will appear.
2	Select WAGE DECISION ASSIGNMENT PROCESSING from the menu.	The Execute Process page will appear.

Continued on Following Page

Assigning a Wage Decision to a Proposal/Project from the Proposal

(continued)

The screenshot shows a web interface titled "Execute Process" with a sub-header "Execute Process - Wage Decision Assignment Processing". There is an "Execute" button and a help icon. Below this is a "Settings" section with a "Set Parameters" dropdown and "3 of 4" steps. The "Letting Date" field is highlighted with a red circle and contains a calendar icon. Below the date field are three sections: "Include Highway Wage Decisions" (checked), "Include Heavy Wage Decisions" (unchecked), and "Include Building Wage Decisions" (unchecked).

3	Type <i>the Letting Date</i> in the LETTING DATE field. (or select it from the  calendar)	N/A
----------	---	-----

NOTE: By default, the **INCLUDE HIGHWAY WAGE DECISIONS** check box is checked. This will add the appropriate *Highway Wage Decisions* to all projects in the proposal

4	If applicable, check the INCLUDE HEAVY WAGE DECISIONS check box.	N/A
5	If applicable, check the INCLUDE BUILDING WAGE DECISIONS check box.	N/A
6	Click the EXECUTE button.	The results of the process will appear in a new browser tab.

Chapter 7 Advertisement

Before an advertisement for a letting can be generated, you must confirm the following:

- A. The bid letting you wish to advertise has been set up in AWP.
- B. You have created a letting proposal for each proposal that will be advertised.
- C. All **Workflow Phases** have been changed to **Process Bids**. (First in the **Letting**, then in the associated **Proposals** that will be advertised.)

Changing the Workflow Phase

Follow the procedure for **Finding a Letting** on **Page 5-1**.

From the *Bid Letting Summary* page:

The screenshot shows the 'Bid Letting Summary' page for 'Bid Letting: L210505A'. On the left sidebar, the 'Workflow' tab is highlighted with a red circle. The main content area displays several fields: 'Bid Letting ID' (L210505A), 'Letting Time' (2:00 PM), 'Letting Date' (05/05/2021), 'Letting Status' (SCHD - SCHEDULED), and 'Bidders List Cutoff Date' (05/04/2021). A 'Save' button and a help icon are visible in the top right of the main content area.

In the Letting

Step	Action	Result
1	On the left side of the page, click on the Workflow tab.	The Workflow tab will appear.

Deleting a File

If you upload a file by mistake or if you want to delete the file in order to replace it with a different version, you can delete it.

Select **DELETE** from the menu that appears when you click the three dots next to the word **OPEN**.

The following error message will appear.

Click **OK** and the file will be deleted.

Adjusting Estimate Prices After Advertisement & Before Letting

Follow the procedure for **Finding a Proposal** on **Page 4-1**.

From the *Proposal Summary* page:

Step	Action	Result
1	Click the <i>Item Pricing</i> Quick Link.	The Price Proposal Items window will appear.

(Price Proposal Items Page)

2	Expand the section containing the item by clicking the  arrow.	N/A
3	Navigate to the item and change the amount in the PRICE field.	N/A
4	Press the Tab key to move the cursor from the edited field.	The SAVE button will become enabled.
5	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Chapter 8 Bid Preparation

Creating the EBSX File for One Proposal

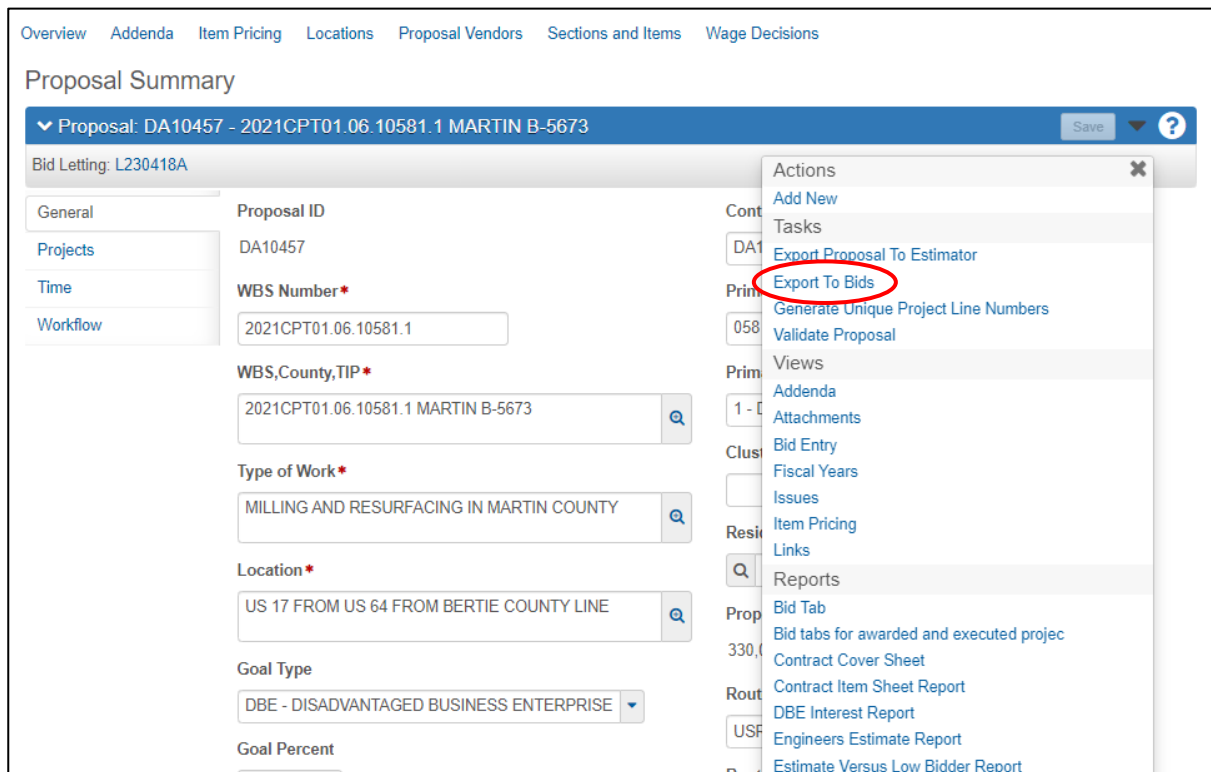

The EBSX file is used by contractors to enter their bids using the **Project Bids Bid** application. It allows them to electronically submit bids and DBE/MBE/WBE information.

Division personnel also use the EBSX file to enter paper bids into the **Project Bids Entry** application.

Beginning with Advertisements on or after November 1, 2024, EBSX files will need to be posted to the Connect letting site like CSDU posts their EBSX files with each letting. You will still load them to Bid Express. This gives bidding contractors one method for downloading bid files for all NCDOT lettings. It also allows us to support bidding contractors more quickly on Division lettings.

Follow the procedure for **Finding a Proposal on Page 4-1**.

From the *Proposal Summary* page:

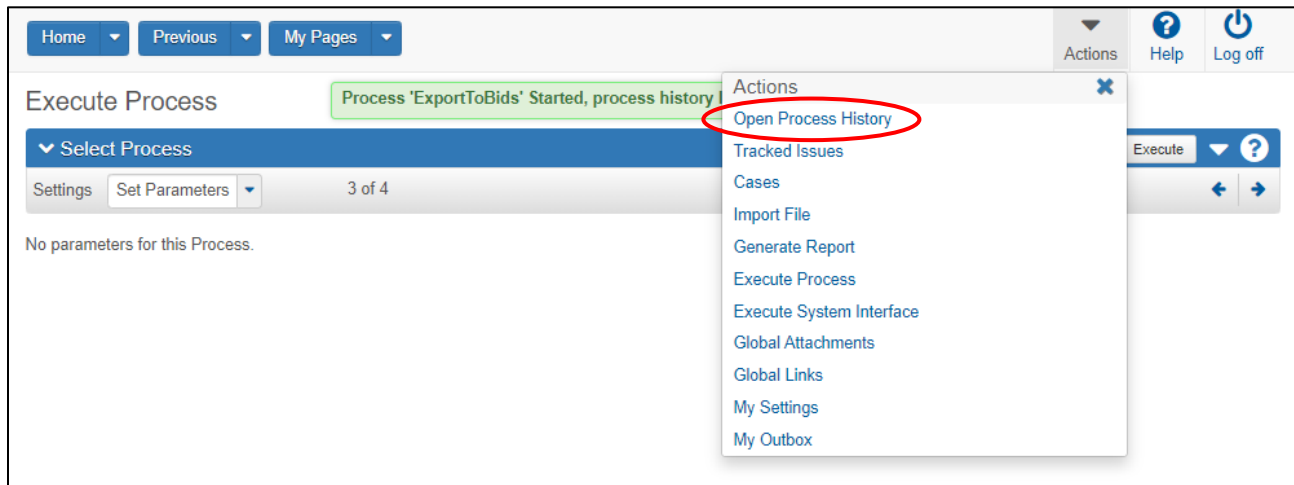

Continued on Following Page

Creating the EBSX File for One Proposal

(continued)

Step	Action	Result
1	From the drop-down arrow at the right side of the Header Bar select <i>Export to Bids</i> .	The Execute Process page will appear.
2	Click the EXECUTE button.	This will launch the process.

Now you'll need to go to the **Process History** page to see if the process was successful.

Checking the Status of the EBSX File

3	From the ACTIONS menu at the top of the window, select <i>Open Process History</i> .	The Process History Overview page will appear.
4	Locate the process you have just executed. 📁 NOTE: Processes will be displayed with the most recent at the top of the page. Currently running processes will appear at the bottom until they have finished running.	

Continued on Following Page

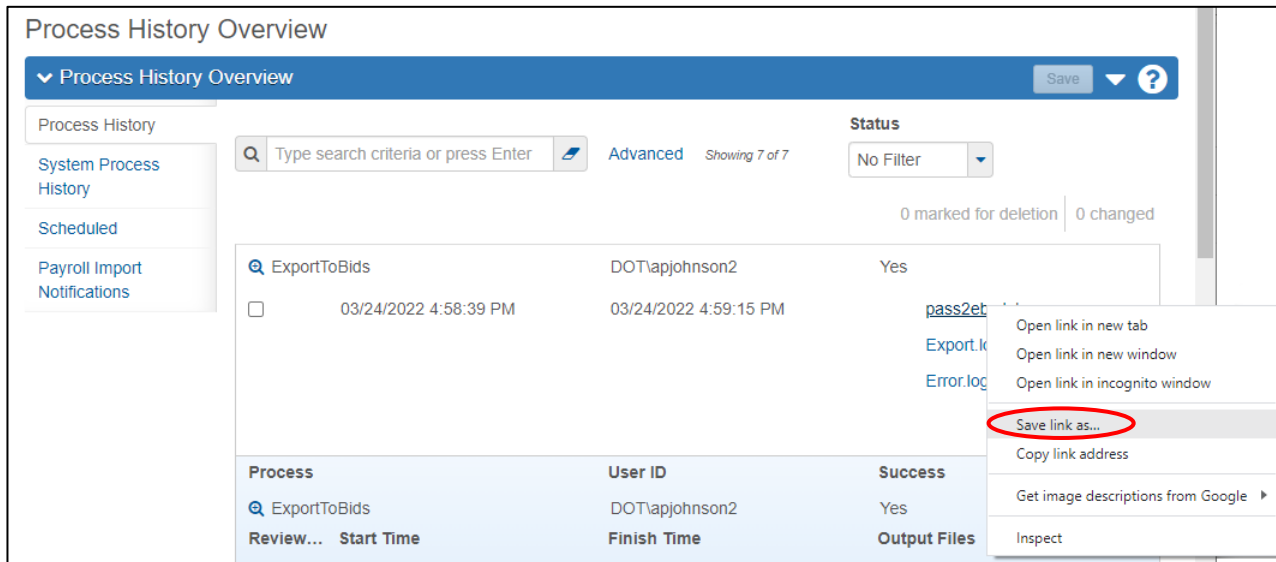

Creating the EBSX File for One Proposal

(continued)

There are 3 files that will be generated. These are:

Pass2ebs.txt	This is the file needed to generate the EBSX file.
Export.log	The only purpose of this file is to let you know if the export has completed successfully.
Error.log	This file will list any errors found during the export process.

NOTE: The **Export.log** and **Error.log** files are for information only.

5	In the OUTPUT FILES section, right-click on the pass2ebs.txt file.	A right-click menu will appear.
6	Select Save link as... from the drop-down menu.	The Save As dialog will appear.

Continued on Following Page

Creating the EBSX File for One Proposal

(continued)

<p>7</p>	<p>In the Save As dialog, navigate to C:\Bids\AASHTOWare Project Bids – Gen and Load.</p> <p>NOTE: If you have Project Bid Entry installed on our computer, you will have this directory by default.</p>	<p>N/A</p>
<p>8</p>	<p>Click the SAVE button.</p> <p>NOTE: Do not change the file name.</p>	<p>The pass2ebs.txt file will be saved to your C:\Bids\AASHTOWare Project Bids – Gen and Load directory.</p>

If the **C:\Bids\AASHTOWare Project Bids – Gen and Load** directory already contains a **Pass2ebs.txt** file, either delete it or overwrite it.

When you are finished working with the files on the **Process History Overview** page, you can delete them by following the procedure for **Deleting a Process** on **Page 13-1**.

18	Close the Command Prompt window.	You have successfully created an *.EBSX file for each proposal in the letting.
-----------	---	---

The DBE_NC.BIN File

The **DBE_NC.BIN** file contains a listing of DBE/MBE/WBE firms. It is used with the **EBSX** file in **Project Bids Bid** and must be placed in the same folder as the **EBSX** file.

The Central Letting Admins/CSDU Staff will be creating and posting the DBE_NC.BIN files here weekly.

https://connect.ncdot.gov/letting/DBE%20Files/DBE_NC.bin

You will need to post this link as an Alert on your Bid Express Letting Page.

Chapter 9 Interested Parties / Authorized Bidders

Setting the Publish Authorized Bidders Field

The **PUBLISH AUTHORIZED BIDDERS** field will allow contractors to sign themselves up so that they are able to bid on a proposal.

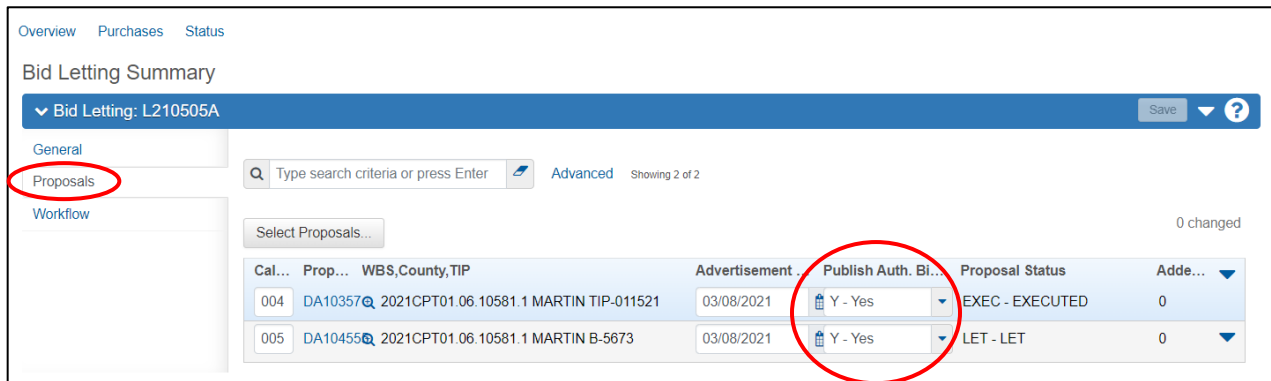

Yes = Public.

No = Internal only.

Follow the procedure for **Finding a Letting** on **Page 5-1**.

From the **Bid Letting Summary** page:

Step	Action	Result
1	Click on the Proposals tab.	The Proposals tab will appear.

2	Select Yes or No from the drop-down list in the PUBLISH AUTH. BIDDERS field for each proposal.	N/A
---	---	-----

Yes will publish the list to the Public site & Letting Admin Dashboard. **No** will keep it internal, publishing it only to the Letting Admin Dashboard. If this field is left blank, it will not appear on either site.

Setting the Publish Authorized Bidders Field

(continued)

3	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
---	---	--

Adding a Firm

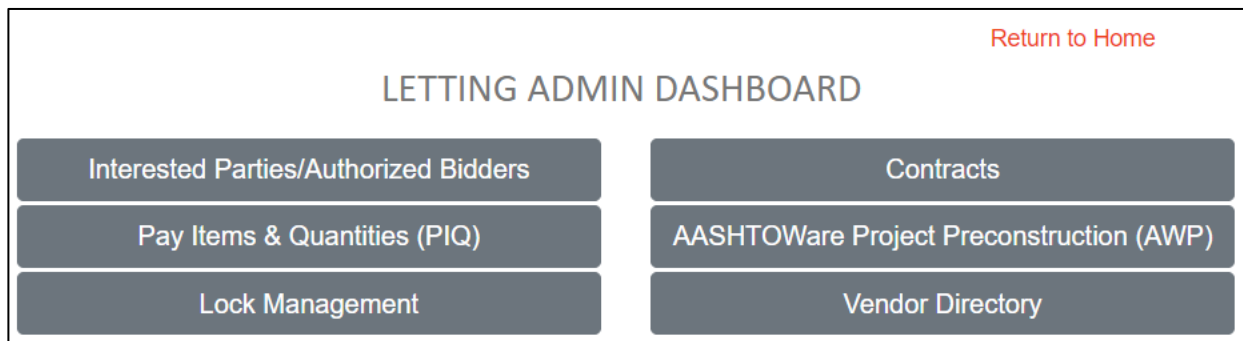

Usually, firms will add themselves through a link on **the Bidding & Letting** pages. You can do this on the firm’s behalf if needed.

If you have any questions concerning Interested Parties/Authorized Bidders, contact interestedpartieshelp@ncdot.gov.

To add a firm to the list, perform the following steps:

From the Letting Admin Dashboard

Step	Action	Result
1	In the address bar of your web browser, type HTTPS://CONNECT.NCDOT.GOV/SITE/PR ECONSTRUCTION/PAGES/LADM.ASPX# and press Enter .	The Letting Admin Dashboard page will appear.

2	Click the INTERESTED PARTIES / AUTHORIZED BIDDERS button.	The list of options will appear.
3	Click the <i>View/Edit List</i> link.	The Interested Parties (Admin) page will appear.

Filtering & Sorting

To **filter** the Interested Parties list to show only entries relative to a given letting, contract, firm, let date, etc., select the relevant filter from the drop-down list in the field beneath the **ADD FIRM** button, then type the value to filter on in the **SEARCH** field.

To **sort** the list by a given column, click on the up and down arrows next to that column name to order the list by those values in ascending or descending order.

Add interested parties/authorized bidders directly using **Add firm**. Use checkboxes and column headers to filter and sort the view as desired.

Important! Generate a BIDX file for each upcoming letting and upload it into BIDX to enable authorized bidders to upload their bids. Do this at least weekly for each upcoming letting for that specific letting.

Contract	Letting	Call Order	Let Date	Firm Name	HiCAMS	Contact Name	Contact Email	Contact Phone	Business Type	Contractor Type	Authorized Bidder
C204700	L230523	001	2023-05-23	A & B PAVING CORPORATION	9659	SB	ext-sbasu@ncdot.gov			N	fal

To see entries from past lettings, unselect the **SHOW ONLY UPCOMING LETS** checkbox.

This checkbox will not appear if you are accessing this page from the **Advertised and Anticipated Lets** list.

To limit the list shown to authorized bidders only, select the **SHOW ONLY AUTHORIZED BIDDERS** checkbox.

Exporting to Excel

To print off a portion of the list, or to combine it with other information for some custom reporting, download a portion of the list to an Excel file.

From the **Letting Admin Dashboard**:

Step	Action	Result
1	Click the INTERESTED PARTIES / AUTHORIZED BIDDERS button.	The list of options will appear.
2	Click the <i>View/Edit List</i> link.	The Interested Parties (Admin) page will appear.

[Return to Letting Admin Dashboard](#)

You will be able to edit, save and print the downloaded Excel file as you choose.

Generating the BIDX Control File

Firms interested in bidding can add themselves to the Interested Parties / Authorized Bidders list. To tell **Bid Express** to accept bids from these firms, the letting administrator needs to generate a control file for each letting & upload it into **Bid Express**. This file tells **Bid Express** which firms to accept bids from.

From the **Letting Admin Dashboard**:

Step	Action	Result
1	Click the INTERESTED PARTIES / AUTHORIZED BIDDERS button.	The list of options will appear.
2	Click the <i>View/Edit List</i> link.	The Interested Parties (Admin) page will appear.

LETTING ADMIN DASHBOARD

Generate BIDX Authorized Bidders Control File

Contracts for which bidders are present in the Interested Parties list are shown below. Mark contracts to exclude from the control file for this letting, then press Generate BIDX File. (Exclude contracts that will not be bid electronically through BIDX, such as Ferry, Design Build, and some emergency contracts.)

Letting ID: Let Date:

NOTE: After downloading the file, you will need to upload it to Bid Express (bidx.com) to allow registered contractors to bid.

4	Select <i>the Letting Number</i> from the drop-down list in the LETTING ID field.	A list of contracts associated with the Letting will appear.
5	If there are any contracts you wish to exclude from the BIDX file , click the check box to the right of the contract number.	The selected contracts will be excluded from the BIDX Control File .

NOTE: If the contract is not going to receive electronic bids in BIDX, then you should not generate & then upload the list of authorized bidders for it.

6	Click the GENERATE BIDX FILE button.	The BIDX Control File will be downloaded to your Downloads folder.
----------	---	--

This is the file needed to upload into BID Express to authorize the specified bidders to submit bids on contracts in that letting.

Continued on Following Page

Generating the BIDX Control File

(continued)

How Often Does This Need to Happen?

To enable new bidders to upload their bids to Bid Express, Letting Admins need to generate the BIDX control file for each upcoming letting at least once a week AND upload it into Bid Express to authorize specific bidders to submit their bids. It is also recommended that you do this on the day of the letting to ensure that last minute bidders are able to upload their bids.

Since prequalifications expire at the end of the month, completing this process at the beginning of each month ensures that disqualified bidders are removed.

Prequalification Changes

At the time the bidders added themselves to the list, a check was made of their prequalification status in SAP. If they were qualified to bid on the selected contracts, they were entered into the list as authorized bidders for those contracts. When the BIDX file is generated, the system will re-check that prequalification status.

In the time between the initial sign up and BIDX file generation, if a firm has lost its prequalification status and are no longer qualified to bid on that contract, the entry in the Interested Parties list will be changed to show that firm is not an authorized bidder.

An email will be sent to the contact specified in the Interested parties list for this firm for this letting, indicating for which contract(s) their bidder status has changed.

The public display of the interested parties/authorized bidders for this letting on the Bidding & Letting pages will be updated to show this firm as an interested party but no longer an authorized bidder.

Updating Entries for Letting Date Move

If a contract advertisement is extended, or if a contract is put on hold & reinstated later in a different letting, the Letting Administrator needs to ensure that firms who previously expressed an interest in, or an intent to bid on that contract, are reconnected. The **Interested Parties** list entries will need to have the let date updated for these contracts.

After the changes are made in AWP, do the following:

From the **Letting Admin Dashboard**:

Step	Action	Result
1	Click the INTERESTED PARTIES / AUTHORIZED BIDDERS button.	The list of options will appear.
2	Click the <i>Update Entries for Letting Date Move</i> link.	The Update Entries for Letting Date Move page will appear.

[Return to Home](#)

LETTING ADMIN DASHBOARD

Update Entries for Letting Date Move

When the advertisement for a contract is extended in AASHTOWare Project Preconstruction, the interested parties & authorized bidders list entries for that contract need to be updated to the correct letting to keep them in synch.

Select the contract that has been extended, then choose **Update & Exit** to update the entries to the current information that is in AWP for the contract (proposal).

Note: If a contract has been withdrawn, no updates are needed.

Contract:

Chapter 10 Addenda

Occasionally, after a proposal has been advertised and the files are in the contractor’s hands to enter bids, changes may need to be made to the status of an item, quantity, or any information that was originally sent out. To facilitate these changes, NCDOT uses an addendum process to amend the information that was distributed to the contractors.

Creating an Addendum for Adding a New Item

Follow the procedure for **Finding a Proposal** on **Page 4-1**.

From the *Proposal Summary* page:

(Proposal Summary – Workflow Tab)

Step	Action	Result
1	On the left side of the page, click on the Workflow tab.	The Workflow tab will appear.
2	Select <i>NCDOT – Division Workflow</i> from the drop-down list in the WORKFLOW field.	Your selection will appear in the WORKFLOW field.
3	Select <i>Manage Addenda</i> from the drop-down list in the WORKFLOW PHASE field.	Your selection will appear in the WORKFLOW PHASE field.

Continued on Following Page

Creating an Addendum for Adding a New Item

(continued)

4	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
----------	---	--

An additional message will appear in blue just beneath the Header bar.

5	Click the <i>Addenda</i> quick link.	The Addendum Summary page will appear.
----------	--------------------------------------	---

An empty record will appear on the page.

Press the **NEW** button to add additional records.

6	Type ADD ITEM in the DESCRIPTION field. 📁 NOTE: The contractors will be able to see this information.	N/A
7	Type <i>any comments about the addendum</i> in the COMMENTS field. 📁 NOTE: This information is hidden from contractors.	N/A
8	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Once the addendum is saved, it will be automatically numbered.

9	Click the <i>Proposal</i> Quick Link at the top of the page.	The Proposal Summary page will appear.
----------	--	---

Continued on Following Page

Creating an Addendum for Adding a New Item

(continued)

To view items in the proposal, click the **SECTIONS AND ITEMS** Quick Link, then select the **Proposal Items** tab.

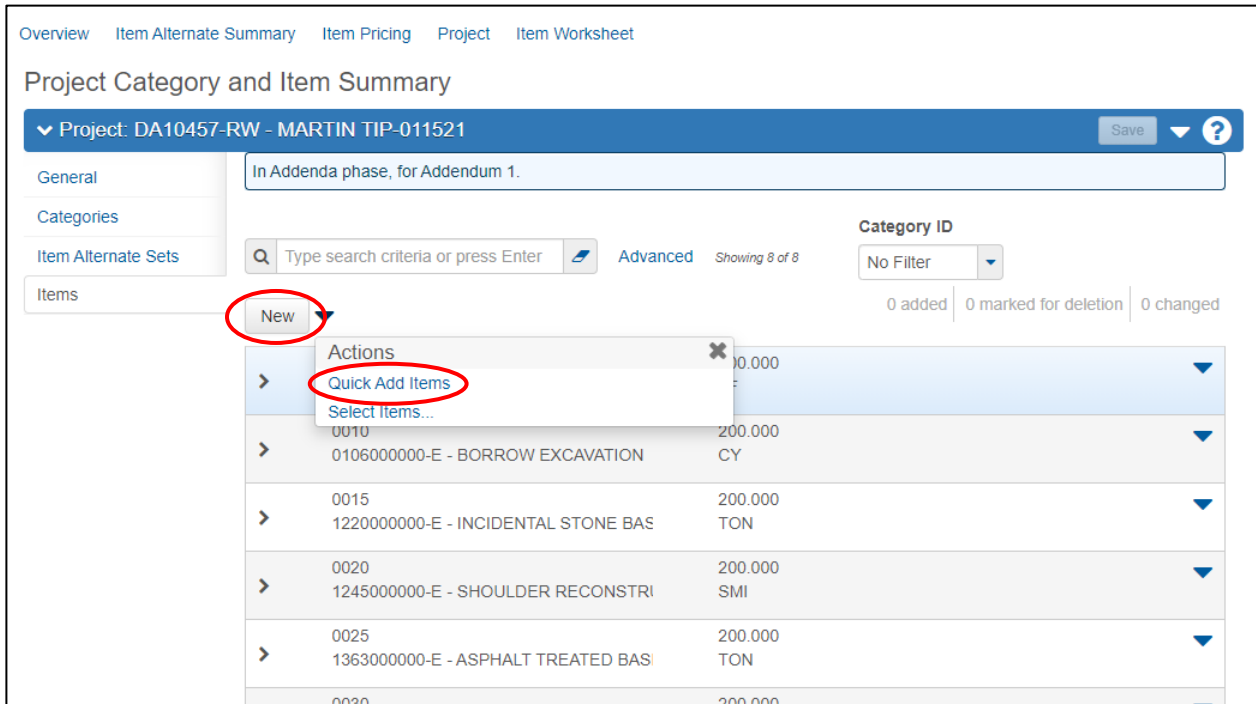

When you are adding an item, you will be able to see which number is last so that you can assign the next line number to the new item.

10	Click on the Projects tab.	The Projects tab will appear.
11	Click on <i>the project to which you wish to add items.</i>	The Project Summary page will appear.
12	Click the <i>Categories and Items</i> Quick Link.	The Project Category and Item Summary page will appear.

Creating an Addendum for Adding a New Item

(continued)

29	Expand the proposal section by clicking the  arrow.	The list of items in the section will appear.
30	Navigate to the newly added item.	N/A
31	Type <i>the price of the item</i> in the PRICE field and  out of that field.	N/A
32	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Creating an Addendum for Item Modification

If an item in the proposal has been distributed to contractors and needs to be modified, an addendum for item modification should be created and distributed to all proposal/planholders. It will modify the previous addendum item for that proposal line number.

Follow the procedure for **Finding a Proposal** on **Page 4-1**.

From the *Proposal Summary* page:

The screenshot shows the 'Proposal Summary' page with the 'Workflow' tab selected. The top navigation bar includes 'Overview', 'Addenda', 'Item Pricing', 'Locations', 'Proposal Vendors', 'Sections and Items', and 'Wage Decisions'. The main header displays 'Proposal: DA10457 - 2021CPT01.06.10581.1 MARTIN B-5673' and 'Bid Letting: L230418A'. On the left, a sidebar lists 'General', 'Projects', 'Time', and 'Workflow'. The 'Workflow' section contains two dropdown menus: 'Workflow' set to 'NCDOT-Division Workflow' and 'WorkflowPhase' set to 'Manage Addenda'. A 'Save' button is visible in the top right of the main content area.

(Proposal Summary – Workflow Tab)

Step	Action	Result
1	On the left side of the page, click on the Workflow tab.	The Workflow tab will appear.
2	Select <i>NCDOT – Division Workflow</i> from the drop-down list in the WORKFLOW field.	Your selection will appear in the WORKFLOW field.
3	Select <i>Manage Addenda</i> from the drop-down list in the WORKFLOW PHASE field.	Your selection will appear in the WORKFLOW PHASE field.
4	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

An additional message will appear in blue just beneath the **Header Bar**.

Continued on Following Page

Creating an Addendum for Item Modification

(continued)

5	Click the <i>Addenda</i> quick link.	The Addendum Summary page will appear.
----------	--------------------------------------	---

An empty record will appear on the page.

Press the **NEW** button to add additional records.

6	Type MODIFY ITEM in the DESCRIPTION field. 📁 NOTE: The contractors will be able to see this information.	N/A
7	Type <i>any comments about the addendum</i> in the COMMENTS field. 📁 NOTE: This information is hidden from contractors.	N/A
8	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Once the addendum is saved, it will be automatically numbered.

To view items in the proposal, click the **Proposal Items** tab.

Since you are changing an existing item, you will be able to get the line number here.

Continued on Following Page

Creating an Addendum for Item Modification

(continued)

From the **Proposal Summary** page:

9	Click on the Projects tab.	The Projects tab will appear.
10	Click on <i>the project containing the items you wish to modify</i> .	The Project Summary page will appear.
11	Click the <i>Item Worksheet</i> Quick Link	The Project Item Worksheet page will appear.
12	On the row containing the item, double-click in the field that needs to be modified.	N/A
13	Edit the contents of the field.	N/A

Repeat steps **12 & 13** for each additional field that requires modification.

14	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
-----------	---	--

Creating an Addendum for Item Removal

If an item in the proposal has been distributed to contractors and needs to be removed, an addendum for item removal should be created and distributed to all proposal planholders. It will remove the previous addendum item for that proposal line number.

Follow the procedure for **Finding a Proposal** on **Page 4-1**.

From the *Proposal Summary* page:

The screenshot shows the 'Proposal Summary' page for proposal DA10457 - 2021CPT01.06.10581.1 MARTIN B-5673. The 'Workflow' tab is selected in the left-hand navigation menu. In the main content area, the 'Workflow' dropdown is set to 'NCDOT-Division Workflow' and the 'WorkflowPhase' dropdown is set to 'Manage Addenda'. A 'Save' button is visible in the top right corner of the form area.

(Proposal Summary – Workflow Tab)

Step	Action	Result
1	On the left side of the page, click on the Workflow tab.	The Workflow tab will appear.
2	Select <i>NCDOT – Division Workflow</i> from the drop-down list in the WORKFLOW field.	Your selection will appear in the WORKFLOW field.
3	Select <i>Manage Addenda</i> from the drop-down list in the WORKFLOW PHASE field.	Your selection will appear in the WORKFLOW PHASE field.
4	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Continued on Following Page

Creating an Addendum for Item Removal

(continued)

An additional message will appear in blue just beneath the Header bar.

5	Click the <i>Addenda</i> quick link.	The Addendum Summary page will appear.
----------	--------------------------------------	---

An empty record will appear on the page.

Press the **NEW** button to add additional records.

6	Type REMOVE ITEM in the DESCRIPTION field. 📁 NOTE: The contractors will be able to see this information.	N/A
7	Type <i>any comments about the addendum</i> in the COMMENTS field. 📁 NOTE: This information is hidden from contractors.	N/A
8	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Once the addendum is saved, it will be automatically numbered.

Continued on Following Page

Creating an Addendum for Item Removal

(continued)

9	Click the <i>Proposal</i> Quick Link.	The Proposal Summary page will appear.
10	Click on the Projects tab.	The Projects tab will appear.
11	Click on <i>the project containing item(s) you wish to remove</i> .	The Project Summary page will appear.
12	Click the <i>Item Worksheet</i> Quick Link.	The Project Item Worksheet page will appear.
13	At the right side of the row containing the item you wish to delete, click the drop-down arrow.	A menu will appear.

14	Click the trash can icon (<i>Delete</i>) on the drop-down menu.	The row will appear greyed out.
15	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar and the item will be deleted.

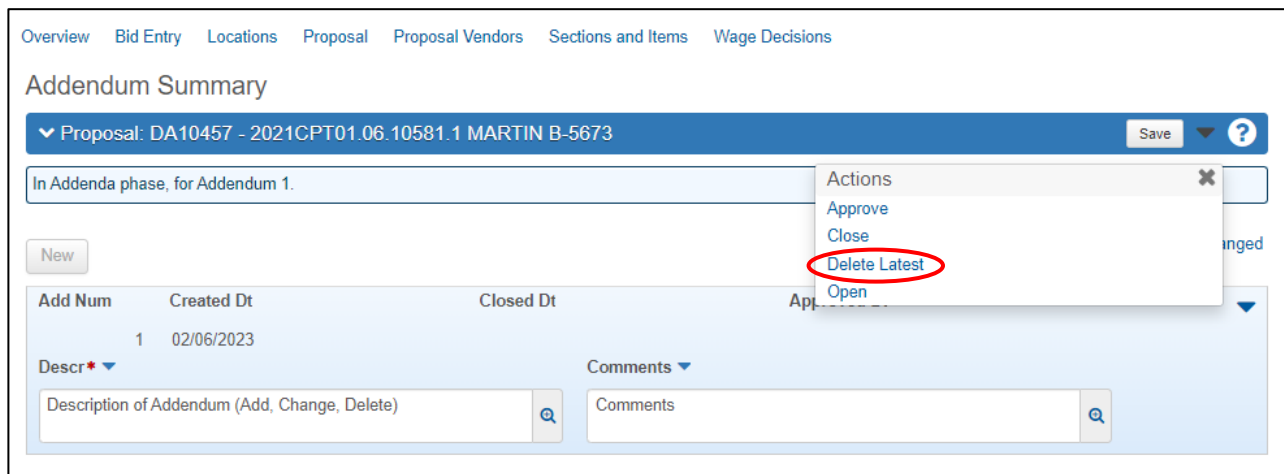

Deleting an Addendum

Follow the procedure for **Finding a Proposal on Page 4-1**.
 From the *Proposal Summary* page:

(Proposal Summary – Quick Links)

Step	Action	Result
1	Click the <i>Addenda</i> Quick Link at the top of the page.	The Addendum Summary page will appear.

(Addendum Summary Page)

2	From the drop-down arrow at the right side of the Header Bar select <i>Delete Latest</i> .	An Addendum Successfully Deleted message will appear above the Header Bar .
---	---	---

Continued on Following Page

Deleting an Addendum

(continued)

Deleting an Addendum will automatically switch into the Addenda Workflow Phase.

3	Click the <i>Proposal</i> Quick Link at the top of the page.	The Proposal Summary page will appear.
4	On the left side of the page, click on the Workflow tab.	The Workflow tab will appear.
5	Select <i>NCDOT – Division Workflow</i> from the drop-down list in the WORKFLOW field.	Your selection will appear in the WORKFLOW field.
6	Select <i>Process Bids</i> from the drop-down list in the WORKFLOW PHASE field.	Your selection will appear in the WORKFLOW PHASE field.
7	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Closing & Approving an Addendum

Once you have made all the changes you are submitting in the addendum, you need to close it.

Follow the procedure for **Finding a Proposal on Page 4-1**.

From the *Proposal Summary* page:

Step	Action	Result
1	Click the <i>Addenda</i> Quick Link at the top of the page.	The Addendum Summary page will appear.
2	From the drop-down arrow at the right side of the Header Bar select <i>Approve</i> .	The addenda will be closed and approved. The current date will appear in the CLOSED DT and APPROVED DT fields.

Once the addendum has been closed, you will need to go back and reset the Workflow to get out of the Addenda Phase.

3	Click the <i>Proposal</i> Quick Link at the top of the page.	The Proposal Summary page will appear.
4	On the left side of the page, click on the Workflow tab.	The Workflow tab will appear.
5	Select <i>NCDOT – Division Workflow</i> from the drop-down list in the WORKFLOW field.	Your selection will appear in the WORKFLOW field.
6	Select <i>Process Bids</i> from the drop-down list in the WORKFLOW PHASE field.	Your selection will appear in the WORKFLOW PHASE field.

Continued on Following Page

Closing & Approving an Addendum

(continued)

7	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .
---	---	--

The blue Addenda message just beneath the **Header bar** will disappear because you are no longer in Addenda Phase.

Completing the Addenda Process

After the addenda have been prepared, you are ready to distribute these changes to the contractors. This process will be the same as creating the EBSX file. The only difference is that the files created will have the addendum number as their extension.

From the *AASHTOWare Project Dashboard*:

Step	Action	Result
1	Click on <i>Lettings</i> .	The Bid Letting Overview page will appear.

Bid Letting Overview

▼ Bid Letting Overview

Completing the Addenda Process

(continued)

4	Click on the Proposals tab.	The Proposals tab will appear.
----------	------------------------------------	---------------------------------------

(Letting Proposals Tab)

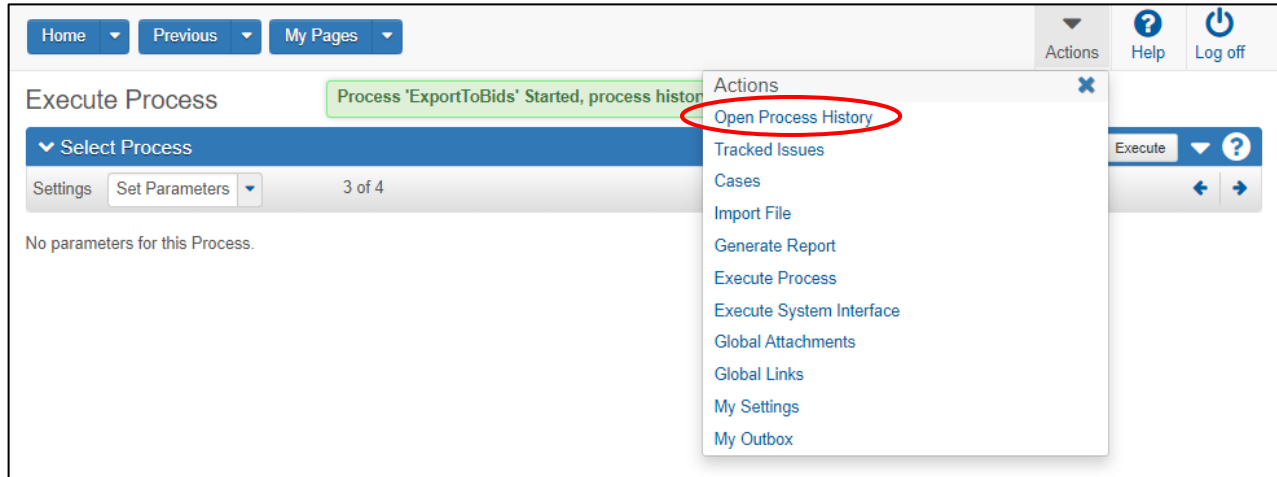

5	From the drop-down arrow at the right side of the row containing the Proposal which contains the addenda select Export To Bids .	The Execute Process page will appear.
6	Click the EXECUTE button.	This will launch the process.

Continued on Following Page

Completing the Addenda Process

(continued)

Now you'll need to go to the **Process History** page to see if the process was successful.

Checking the Status of the EBSX File

7	From the ACTIONS menu at the top of the window, select <i>Open Process History</i> .	The Process History Overview page will appear.
8	Locate the process you have just executed. 📁 NOTE: Processes will be displayed with the most recent at the top of the page. Currently running processes will appear at the bottom until they have finished running.	

There are 3 files that will be generated. These are:

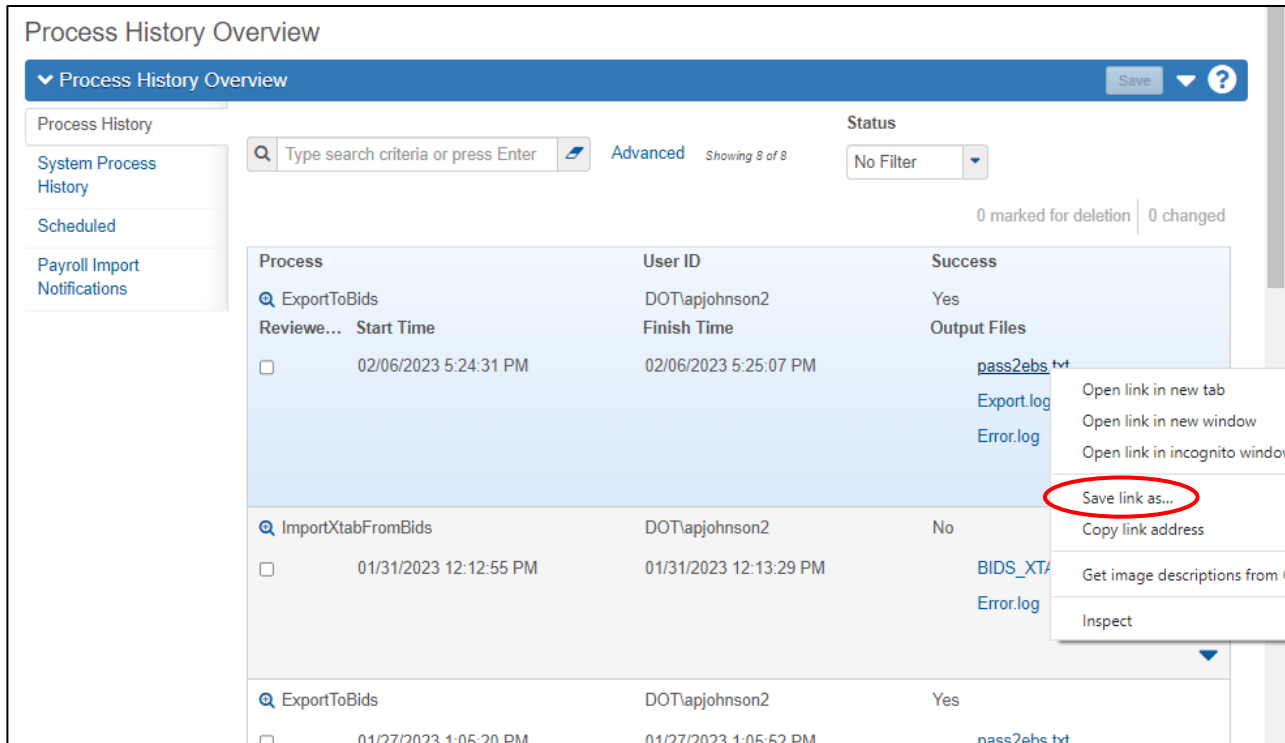

Pass2ebs.txt	This is the file needed to generate the EBSX file.
Export.log	The only purpose of this file is to let you know if the export has completed successfully.
Error.log	This file will list any errors found during the export process.

📁 **NOTE:** The **Export.log** and **Error.log** files are for information only.

Continued on Following Page

Completing the Addenda Process

(continued)

9	In the OUTPUT FILES section, right-click on the pass2ebs.txt file.	A right-click menu will appear.
10	Select Save link as... from the drop-down menu.	The Save As dialog will appear.

Continued on Following Page

Completing the Addenda Process

(continued)

<p>11</p>	<p>In the Save As dialog, navigate to C:\Bids\AASHTOWare Project Bids – Gen and Load.</p> <p> NOTE: If you have Project Bid Entry installed on our computer, you will have this directory by default.</p>	<p>N/A</p>
<p>12</p>	<p>Click the SAVE button.</p> <p> NOTE: Do not change the file name.</p>	<p>The pass2ebs.txt file will be saved to your C:\Bids\AASHTOWare Project Bids – Gen and Load directory.</p>

If the **C:\Bids\AASHTOWare Project Bids – Gen and Load** directory already contains a **Pass2ebs.txt** file, either delete it or overwrite it.

When you are finished working with the files on the **Process History Overview** page, you can delete them by following the procedure for **Deleting a Process** on **Page 13-1**.

Continued on Following Page

Completing the Addenda Process

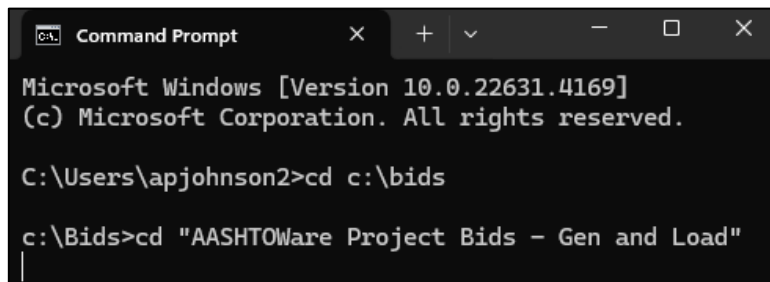

(continued)

Command Prompt

13	<p>At this point you will open the command prompt window.</p> <p> NOTE: If it is not listed in a menu or a shortcut, type command in the Windows search box in your taskbar. It should appear first.</p>	<p>The Command Prompt window will appear.</p>
-----------	---	--

14	Type cd c:\bids and press the Enter key.	You've changed the current directory to c:\Bids .
15	Type cd a and press Tab . (Not Enter)	The first directory beginning with A will be displayed
16	Continue to press Tab until the AASHTOWare Project Bids – Gen and Load directory is displayed in the command prompt.	

17	<p>Press Enter.</p> <p>The directory will change to c:\Bids\AASHTOWare Project Bids – Gen and Load.</p>	<p>You've changed the current directory to c:\Bids\AASHTOWare Project Bids – Gen and Load.</p>
-----------	---	---

Continued on Following Page

Completing the Addenda Process

(continued)

18	Type gen and press Enter .	The generate process will run.
-----------	--	---------------------------------------

The file created by this process will have the following format:

19	Close the Command Prompt window.	You have successfully created the addendum *.EBSX File.
-----------	---	--

NOTE: The original .ebsx file created at advertisement along with any previous addendum files must be in your current working directory **C:\Bids\AASHTOWare Project Bids – Gen and Load**.

IMPORTANT!

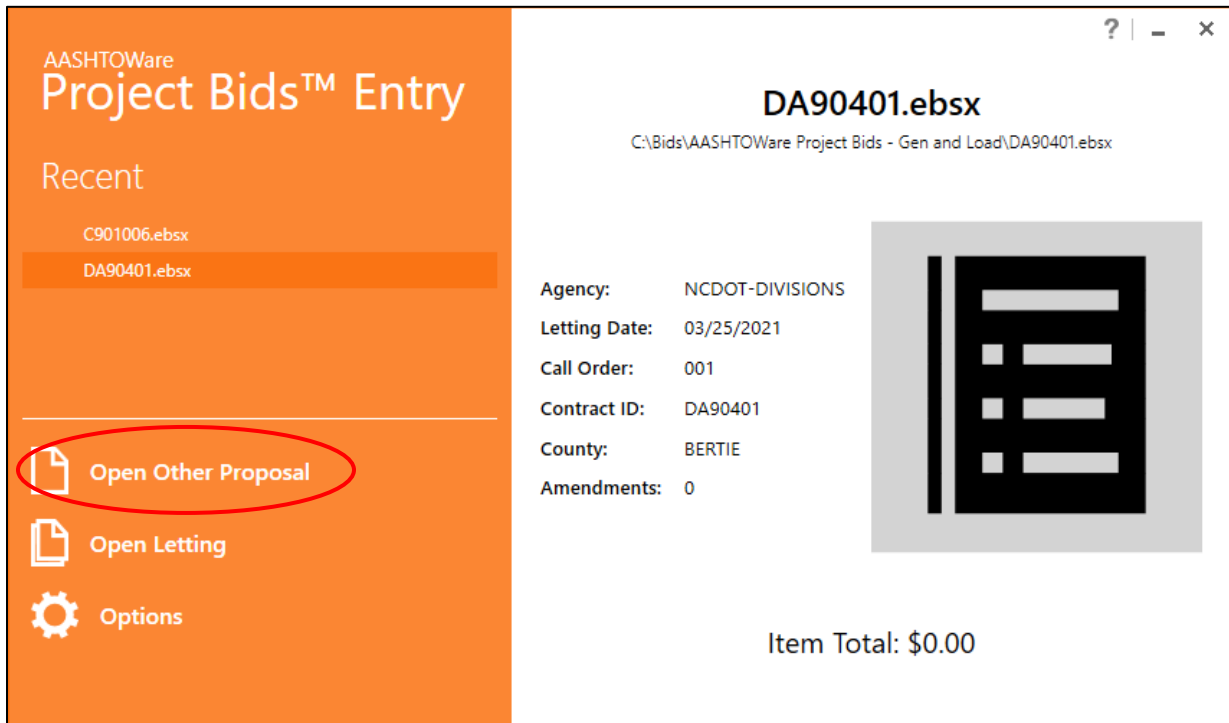

DO NOT move any ***.EBSX** files until after your letting date.

Once the letting is complete, copies should be archived.

20	Copy this Addendum file and upload it for the contractors. NOTE: Do NOT give them the complete .EBSX file again.	
21	To apply the new file, the contractors must be instructed to load their copy of the original .EBSX file into the Project Bids Bid application.	N/A

Applying an Addendum in Project Bids Entry

Step	Action	Result
1	Launch the Project Bids Entry Application.	The Project Bids Entry window will appear.

(Project Bids Entry Window)

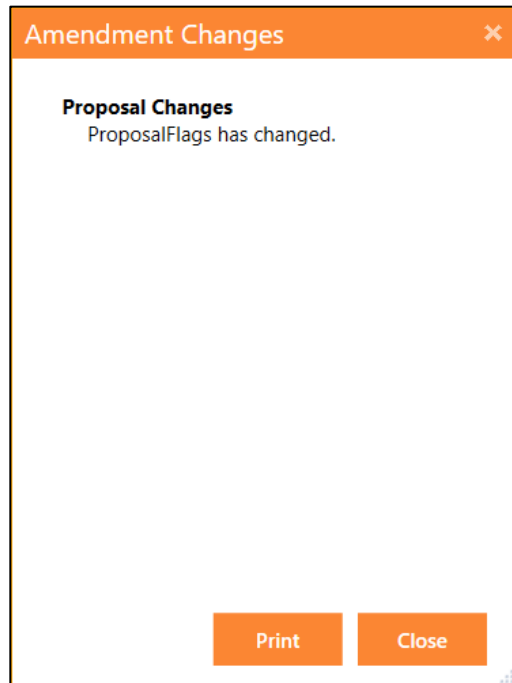

2	From the home page, select OPEN OTHER PROPOSAL .	A dialog will appear that will prompt you to open an .EBSX file.
3	Navigate to the C:\Bids\AASHTOWare Project Bids – Gen and Load directory.	N/A
4	Click on the .EBSX file you would like to open.	N/A

Continued on Following Page

Applying an Addendum in Project Bids Entry

(continued)

5	Click the OPEN button.	If the addendum file is in the same folder as the .EBSX file, the Amendment Changes panel will appear.
----------	-------------------------------	---

If the addendum file is in the same folder as the .EBSX file, it will be applied automatically when the .EBSX file is opened.

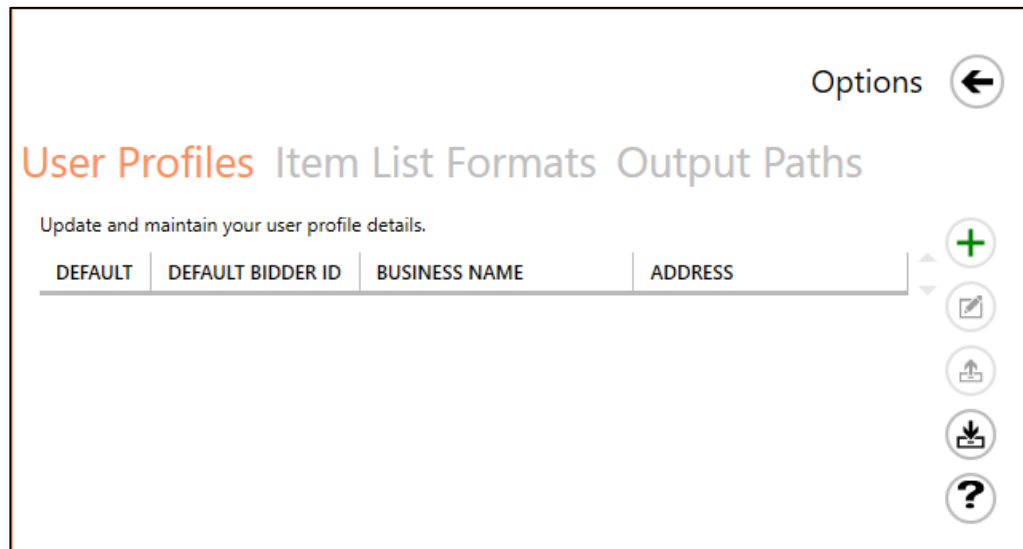

If this is the case, you **will not** need to perform **steps 13-16**.

6	Click the CLOSE button.	The Amendment Changes dialog will close, and the Options panel will appear.
----------	--------------------------------	--

Bid Bond

Agency: NCDOT-DIVISIONS Bidder ID: 3760

Letting Date: 03/25/2021 Project ID: STATE FUNDED

Call Order: 001 County: BERTIE

Contract ID: DA90401 Amendments: 0

Date Generated: 03/25/2021 Joint Bid: No

Date Revised: DBE List: 7.00%

Checksum: D86E52E083

Description: MILLING

Bid Total: \$0.00

The addenda items will be made available to the contractors via the Internet. In addition, **new hardcopy proposal sheets will be printed and sent to each contractor.**

📁 **NOTE:** Whenever you create an addendum file, open it in Project Bids Bid to make sure it will work properly when the contractor receives it.

📁 **NOTE:** Don't move files from the **Gen** directory until a letting is complete. Make copies if you need them to be portable, but the original should remain until the letting is over. Once the letting is complete, copies should be archived.

If the addendum file is **NOT** in the same folder as the .EBSX file, you **will** need to perform **steps 13-16**.

	15	Select <i>the Addendum file</i> from the list.	N/A
	16	Click the OPEN button.	The Addendum will be applied.

The contractors will need to make changes to their bids accordingly.

Chapter 11 Letting Day Activities

On letting day, a lot of activities come together simultaneously. Many tasks are required, and they are all included here for informational purposes. The purpose of this chapter is to make sure all steps have been taken to ensure a successful letting.

Processing Hand-Entered Bids with Project Bids Entry

Some contractors prefer to submit their bids in paper form only. These paper bids must be converted into an electronic format that can be combined with the other electronic bids submitted to NCDOT for comparison. The application used for this is called **Project Bids Entry**.

Before any bids can be entered through Project Bids Entry, you *must* place all **.EBSX** bid files for the letting on the network so that the person entering this information can access them.

Paper bids entered via the Project Bids Entry application will create a bid file named **XtabDat.DAT** in the **C:\Bids\AASHTOWare Project Bids – Gen and Load** directory of each bid entry operator’s PC. Bid files may also be saved to a shared network drive based on division preference. This program allows the entry of bid data from several bidders by differentiating them with different bidder IDs.

⚠ IMPORTANT!

Make sure to delete the **XtabDat.dat** and **xdbedat.dat** files from the previous letting **BEFORE** entering bids for a new letting.

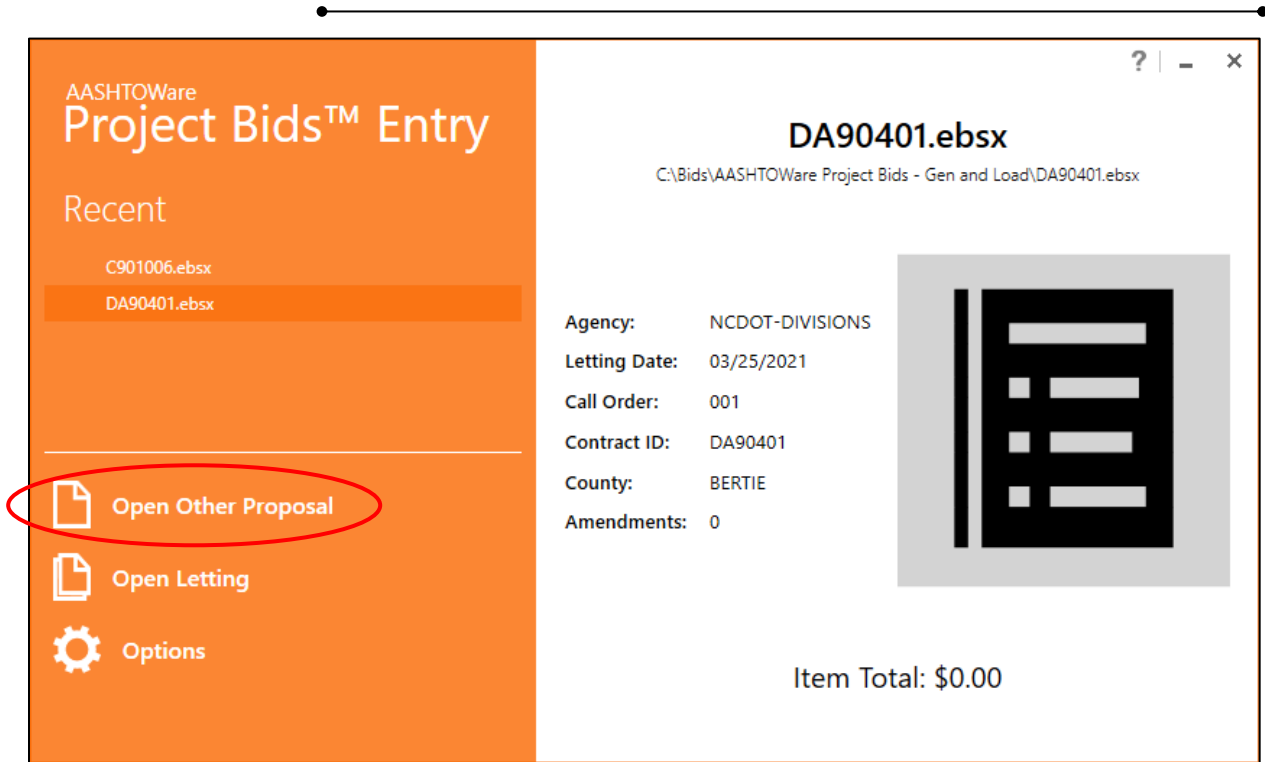

From *your Desktop*:

Step	Action	Result
1	Double-click the AASHTOWare Project Bids Entry icon.	The Project Bids Entry application will appear.

If you receive a warning message stating that the sum of the **Total Race Conscious Amount** and the **Total Race Neutral Amount** don't equal the **Total Commitment Amount** ignore it.

Assigning the Resident Engineer

When a project/proposal was originally set up, a name had to be selected for the **RESIDENT ENGINEER** field for the system to accept all the other information. At that time, it may not have been known who would be assigned. Before the Contract can be passed to HiCams, this must be corrected.

NOTE: If this information was known at proposal setup, this procedure can be skipped.

From within a proposal, on the **Proposal Summary** page:

The screenshot shows the 'Proposal Summary' page for proposal DA10357. The 'Resident Engineer' field is circled in red. The page includes a navigation bar with tabs like 'Overview', 'Addenda', and 'Item Pricing'. The main content area has a left sidebar with 'General', 'Projects', 'Time', and 'Workflow' tabs. The 'General' tab is active, showing various fields for proposal details. The 'Resident Engineer' field is currently empty and has a search icon and placeholder text 'Begin typing to search or press Enter'.

(Proposal Summary Page)

Step	Action	Result
1	Select <i>the resident engineer</i> from the drop-down list in the RESIDENT ENGINEER field. NOTE: You will be able to parse the list by typing the name, city, or division number (div1, div2, etc.) of the resident engineer.	N/A

Contract Re-Execution

To re-execute, you must change the value in the **PROPOSAL STATUS** field back to **AWD**, then back to **EXEC**.

This has been implemented to reduce duplicates being sent to HiCAMS.

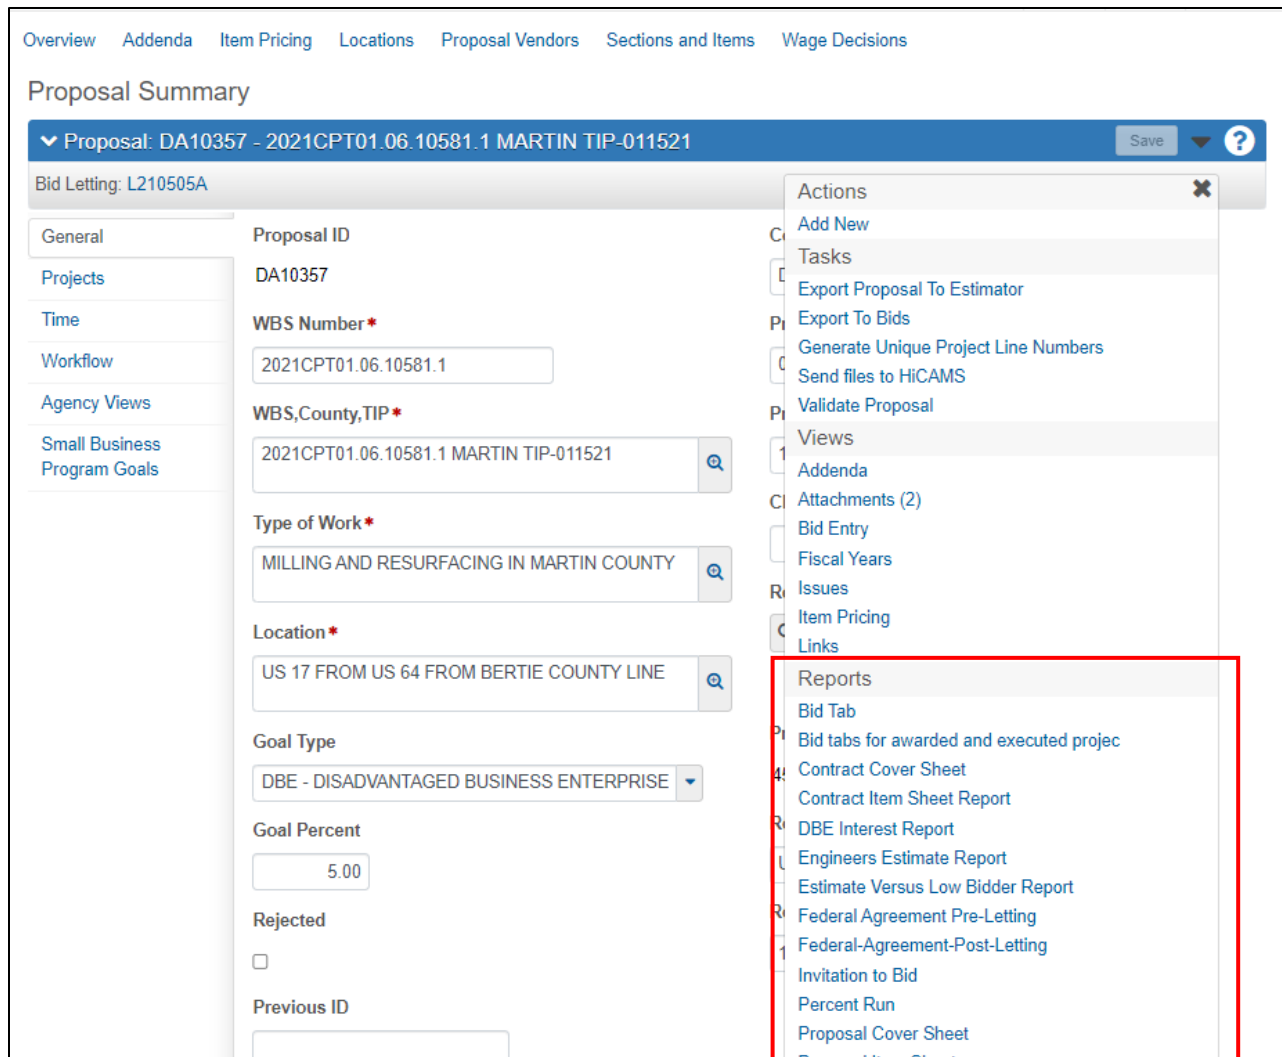

To re-execute:

1. Change the status from **EXEC** to **AWD** and **SAVE**.
2. Change the **STATUS DATE** to *the current date* and **SAVE**.
3. Change the status back to **EXEC**.
4. Change the **STATUS DATE** to *the current date* and **SAVE**.

Chapter 12 Reports

Generating Reports from a Page

Depending on where you are in the system, you will be able to run reports. To generate a report based on the information on the current page, select a report from the **Reports** section of the drop-down list in the **Header Bar**.

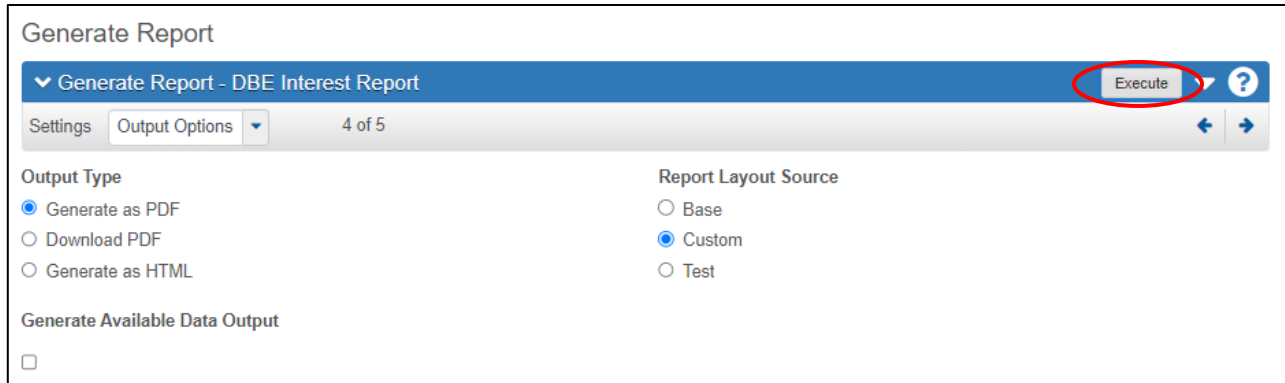

Continued on Following Page

Generating Reports from a Page

(continued)

Chapter 13 System Maintenance

Deleting a Process

When you run a process, historical records of that process will be kept in the system until you delete them. In order to keep the process page clean, so that process records aren't easily confused, you can delete the records you no longer need.

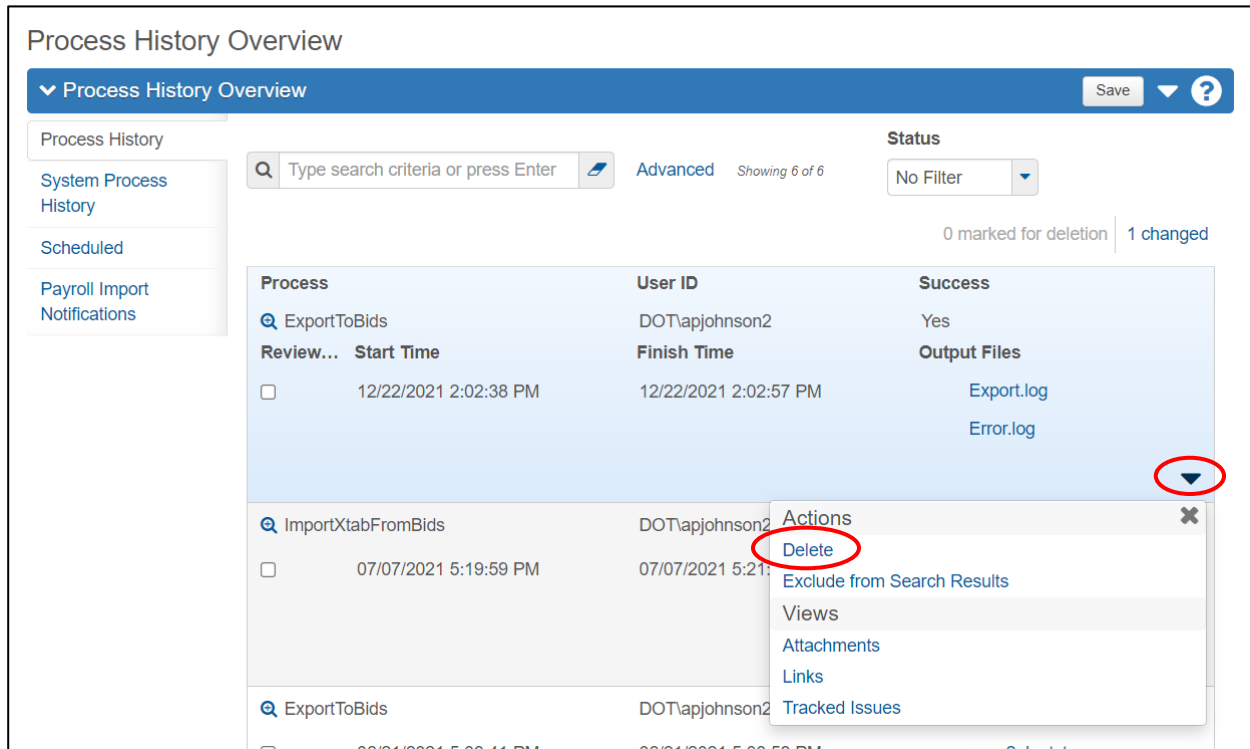

Step	Action	Result
1	From the ACTIONS menu at the top of the page, select <i>Open Process History</i> .	The Process History Overview page will appear.
2	Locate the process you want to delete. 📁 NOTE: Processes will be displayed with the most recent at the top of the page. Currently running processes will appear at the bottom until they have finished running.	

Continued on Following Page

Deleting a Process

(continued)

3	Click the down arrow at the end of the row containing the process you wish to delete.	A drop-down menu will appear.
4	Select Delete from the menu.	The drop-down arrow will change to an undo arrow  . There are unsaved changes message will appear above the Header Bar .

 **NOTE:** To reverse the delete, click the **undo arrow**.

5	Click the SAVE button in the Header Bar .	A Save Complete message will appear above the Header Bar .
---	---	--

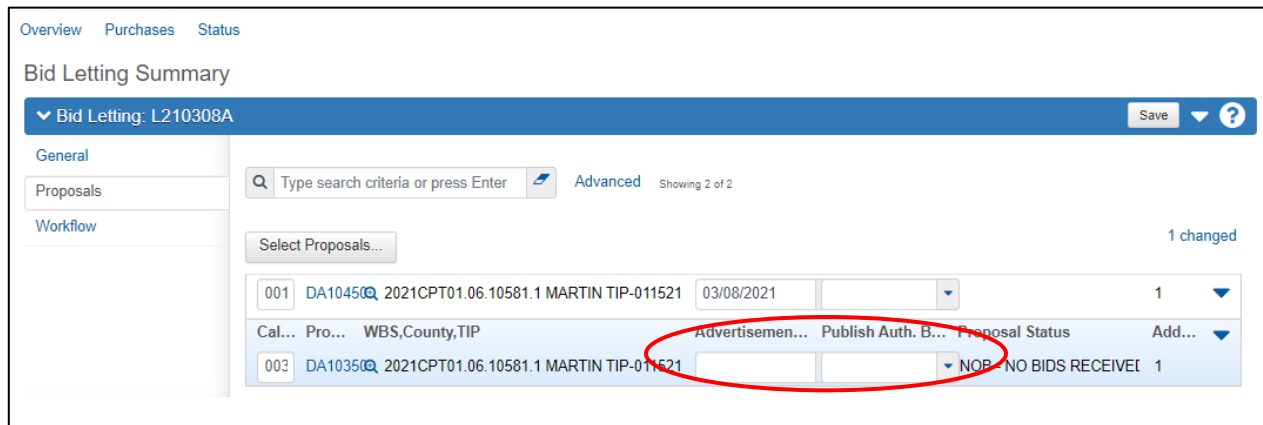

Pulling a Project from a Letting

You will need to wait for the following to happen before performing this procedure:

- The official letter distribution
- The letter to be posted to the **Connect NCDOT** Letting site

Step	Action
1	Remove the EBSX file from Bid Express and add an Alert on the letting page there.
2	The EBSX on the Connect NCDOT site should be removed. If this has not happened, ask for it to be removed.

In AWP, from the **Bid Letting Summary** Page, **Proposals** tab:

3	Clear the ADVERTISEMENT DATE field for the pulled proposal.	
4	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

Continued on Following Page

Pulling a Project from a Letting

(continued)

5	Clear the PUBLISH AUTH BIDDERS field for the pulled proposal.	
6	Click the SAVE button in the Header Bar .	A <i>Save Complete</i> message will appear above the Header Bar .

The screenshot shows the 'Bid Letting Summary' page for 'Bid Letting: L210308A'. It features a search bar, a 'Select Proposals...' button, and a table with columns: Cal..., Pro..., WBS,County,TIP, Advertisemen..., Publish Auth. B..., Proposal Status, and Add... The table contains two rows of proposal data. An 'Actions' menu is open for the second row, with the 'Remove' option circled in red. Other menu items include 'Exclude from Search Results', 'Tasks', 'Auto Generate Sections', 'Export Proposal To Estimator', 'Export To Bids', 'Postpone...', 'Send files to HiCAMS', 'Validate Proposal', and 'Wage Decision Assignment Processing'.

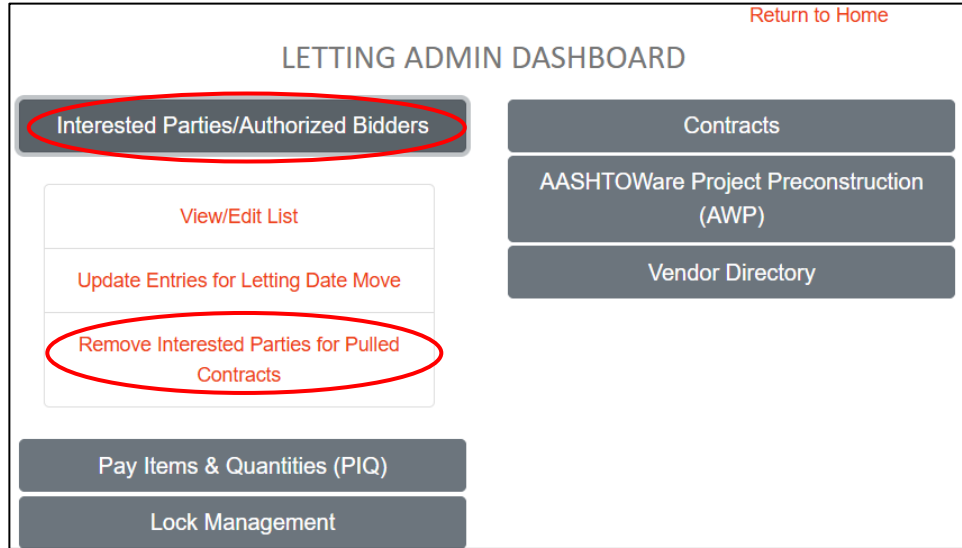

7	Click the down arrow on the right of that proposal.	A drop-down menu will appear.
8	Select REMOVE from the menu.	A <i>Save Complete</i> message will appear above the Header Bar .

LETTING ADMIN DASHBOARD

Remove Interested Parties for Pulled Contracts

When the advertisement for a contract is pulled/withdrawn in AASHTOWare Project Preconstruction, the interested parties & authorized bidders list entries for that contract need to be deleted.

Select the Letting ID to display the contract that has been pulled from, then choose **Delete & Exit** to delete the entries from the Interested Parties list for pulled contract(s).

Note: If a contract has been extended - go to **Update Entries for Letting Date Move**.

Letting ID:

Pulled Contracts:

11	In the drop-down list in the LETTING ID field, select the Letting that the pulled project was a part of.	The contract number of the pulled project should appear in the PULLED CONTRACTS field.
12	If everything is correct, click the DELETE & EXIT button.	A confirmation message will appear.
12	Click the OK button.	An additional deletion confirmation message will appear.
13	Click the OK button.	The Project has been pulled from the Letting.

Appendix A Contract Times

**Contract Times
Clause Type**

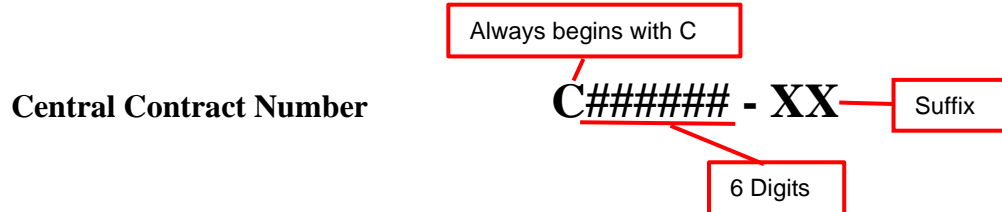

AD	Not Used
ADCD	[Intermediate] Availability Date & Calendar Days
CD	Not Used
DS	[Intermediate] Daily Suspension
DT	Not Used
FACD	[Final] Availability & Calendar Days
FCD	[Final] Availability & Completion Date
FRAD	[Final] Range Availability & Completion Date
ICD	[Intermediate] Availability & Completion Date
IDCD	[Intermediate] Range of Dates & Calendar Days
IRAD	[Intermediate] Range Availability & Completion Date
RDCD	[Final] Range of Dates & Calendar Days
TR	[Intermediate] Time Restriction

Appendix B Naming Conventions

Project Number Format

The estimator is responsible for setting up projects for each section of the proposal. The projects will have the following naming convention:

NOTE: The contract number assigned in the **Letting Admin Dashboard** is used as the project number.

The **Suffix** identifies the section of the project:

- ST** Structure projects
- RW** Roadway projects

Letting Number Format

Letting Number format is as follows:

EBSX File Format

The file created by this process will have the following format:

Appendix C Division Identifiers

A	Division 1
B	Division 2
C	Division 3
D	Division 4
E	Division 5
F	Division 6
G	Division 7
H	Division 8
I	Division 9
J	Division 10
K	Division 11
L	Division 12

O	Bridge Management

Appendix D Default Workflow Phases

Projects	NCDOT Division Workflow	DLADM – Division Letting Admin
Proposals	NCDOT Division Workflow	DLADM – Division Letting Admin
Lettings	NCDOT Division Workflow	Process Bids

Appendix E Glossary

Alternate Line Items	Multiple line items specified in proposal items sheets that require the contractors to make a choice of materials.
Contractor	Any business entity who may receive proposals and plans for projects advertised by the contracts office.
Engineer's Estimate	A summary report showing estimated cost for each project in a letting.
Federal Aid Number	An identifier used by Federal Aid Administration to track federal funding associated with a specific project.
Force Account Items	Force account items represent costs of items in a project that will be performed by a third party, such as a railroad contractor of state forces on Federal Aid Projects. These items are not included in the contract and any associated costs are directly reimbursed to the third party by the state.
Generic Items	Non-standard items that provide flexibility in identifying an item selected by type of work and unit of measure.
Line Items	Pay items associated with a project.
Lump Sum Quantity Items	Pay items that have been classified as lump sum items for bidding in the master pay item list, but for which quantities estimators may specify quantities to assist in the cost estimation process.
Master Pay Item List	A listing of all standard pay items, specifying a description code for each item.
Non-Participating Agency	Any entity excluding NCDOT sharing in the total cost of a project.
Non-Participating Costs	Portion of line item cost assigned to a non-participating agency.

Continued on Following Page

Glossary

(continued)

Pay Item	A master pay item is a single, identifiable unit that includes all materials and services necessary to install that item. Synonymous with "contract item."
Division Project	The specific section of the highway together with all appurtenances and construction to be performed thereon under the contract.
Division Proposal	The form provided by the Department of Transportation on which the offer of the bidder to perform the work at designated bid prices is submitted.
Project	Represents costs associated with all or part of a construction project.
Proposal	The entities presented to potential contractors for bidding. You construct a proposal from projects. Typically, you combine multiple projects into a single proposal. Proposal information generally includes contract time specifications, DBE/WBE goals, bonding information, a detailed description of the work the contractor will perform, and an identification of any necessary special provisions, supplemental specifications, or both.
WBS Number	Identifier used by the fiscal section of the Department of Transportation to track funds.

Appendix F Supplemental Descriptions

- AWP Bids Entry

Appendix H Re-Letting a Proposal

If a Proposal is No bids Received, Rejected, or Rescinded, you will be able to re-let it by following this procedure.

Step	Action
1	Unlink the Proposal from the Letting. See Unlinking a Proposal From a Letting on Page 5-8.

If the Letting Date has passed, you will receive the following error:

Error: No rows saved; detected 1 row with errors. Please review messages below.

- Cannot remove Proposal from a past Bid Letting.

Show All | Show Errors

 **NOTE:** If this happens, contact awphelp@ncdot.gov to unlink.

2	Remove the Projects from the Proposal. See Removing a Project from a Proposal on Page 4-29.
3	Copy the Proposal. See Copying A Proposal on Page 4-25.
4	Re-link the Projects.  NOTE: If any of your Projects have Addenda, the Addenda will not get copied, Instead the changes will merge. See Linking Projects to a Proposal on Page 4-10.
5	Delete old Proposal number. See Deleting a Proposal on Page 4-35.
6	When a new Letting becomes available, link to it. See Linking Proposals to the Letting on Page 5-4.

Appendix I Parsing the Directory of Firms

At times a Project will not receive any bidders, so you may want to send an email blast to all eligible Contractors in order to call attention to the Project and its consequent Let Date.

Step	Action	Result
1	In the address bar of your web browser, type HTTPS://WWW.EBS.NC.GOV/VENDORDI RECTORY/DEFAULT.HTML and press  .	The Directory of Firms Overview page will appear.

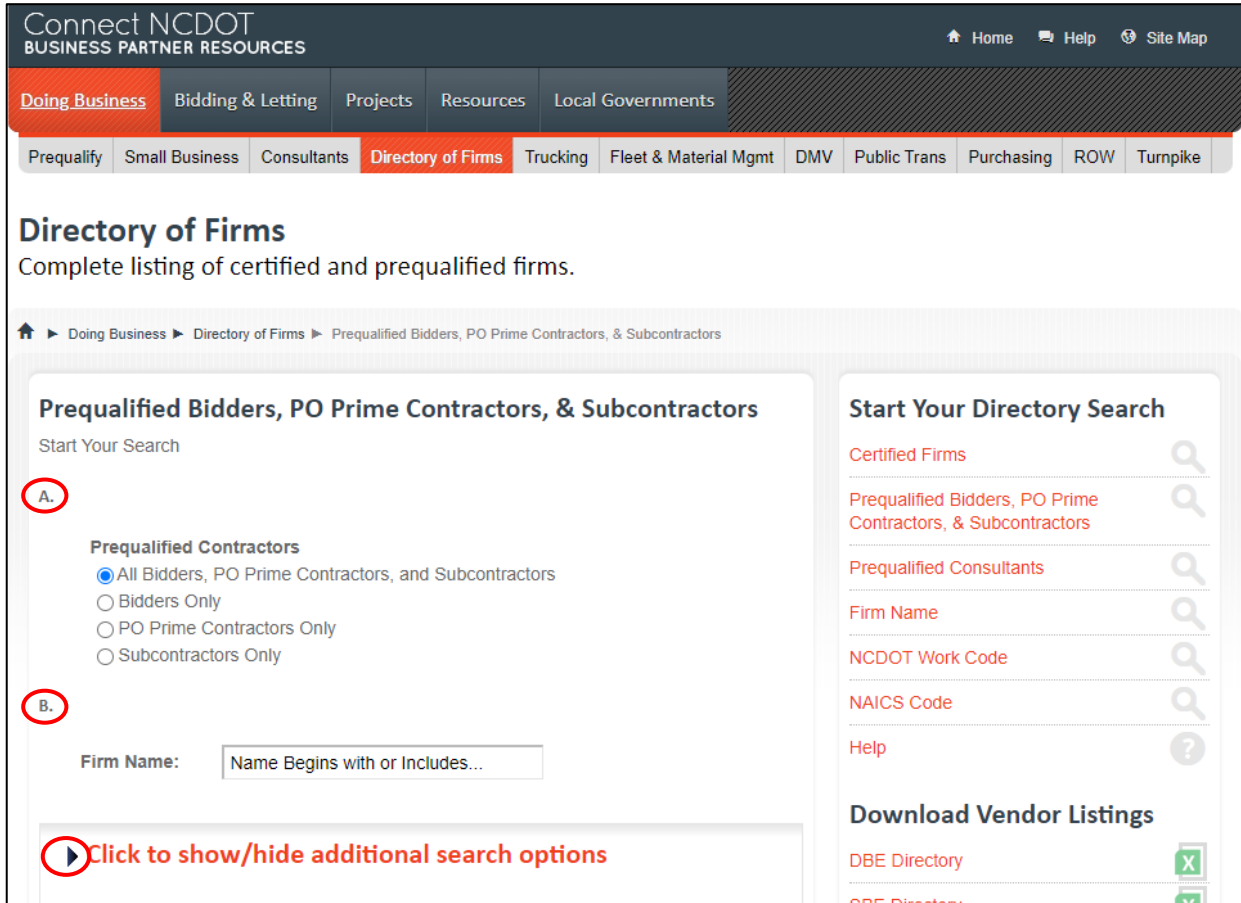

2	On the right side of the page, click PREQUALIFIED BIDDERS, PO PRIME CONTRACTORS, & SUBCONTRACTORS.	The following page will appear.
