Traffic Monitoring System Preferred Rule

Rule: Annual % Change in AADT

If the Annual % Change from the previous year to the current year is less than the minimum or more than the maximum values for the AADT range the current year AADT falls in, it is flagged for manual review

AADT Range	Minimum	Maximum
1 to 999	-30%	30%
1000 to 3999	-18%	18%
4000 to 9999	-15%	15%
10000 to 19999	-13%	13%
20000 and Higher	-10%	10%

Note: If more than one year occurs between the previous and current year, the trend is assumed to be linear and equal % change occurs for each year (i.e divide the calculated % change by the number of years between them).
